Prominent Meadville Man Killed.

A dispatch from Quebec, Canada, under date of Sept. 25, gives the particulars of the accidental shooting of one of Meadville's most prominent citizens, Hon. A. Gaston, uncle of our townsman G. G. Gaston. Athelston Gaston, of Meadville, was accidentally shot yesterday by his friend and guest, H. A. Johnston, of the same place, while hunting moose on the limits of the Triton Fish and Game club, near Lake Edward, in Lake John district of northern Quebec. Gaston was about 70 years of age and a widower. He lived most of the summer in the camp near the scene of his death, but only arrived Sunday on his fatal visit. Johnston, who is 20 years his senior, shot and wounded a moose and both men with their three guides followed it for several hours when Gaston decided to rest by the lake with the canoe while the others continued the pursuit. Meanwhile he had changed his position and when Johnston returned he saw what he thought was a moose going through the branches and fired twice, killing Gaston almost instantly by piercing an artery in his thigh.
The body was prepared and brought to his home in Meadville where the funeral services were held on Saturday by Mrs. Clara Watson, of Jamestown, N. Y., assisted by Lyman E. Howe, of Fredonia, N. Y., all noted Spiritualists. Interment was made beside his wife in Green-Ende cemetery.
Mr. Gaston represented the Erie-Crawford district in Congress from 1888 to 1900, had been mayor of his city, and was one of its leading citizens, being a wealthy lumberman and business man, and his shocking death is greatly lamented.

Our ball game last Saturday of two great ball games Saturday, Sept. 28th. The game in the forenoon was played by the Kellewille High School team vs. the Kellewille Business Men. This game exciting from start to finish. The pretty girls sitting on the grand stand retired back on the business men and took sides with the high school team; this of course would "rattle" most any lot of men, and certainly did some of the business men to hear a lot of pretty girls cheering against them. The game was finally won by the high school team, the score being 12 to 7. The second game was played by the Kellewille High School and the Endeavor High School teams. This was rather a one-sided game, the score being 29 to 3 in favor of Kellewille. We have a team we are proud of, considering the time it has been organized, and if the boys continue to play by another season we think we will have a ball team equal to any in the county.

Death of Hon. Joseph A. Nash.

Hon. Joseph A. Nash died at his home at Pigeon, Howe township, Forest county, Pa., Tuesday afternoon, Sept. 24, 1907, after an illness extending over a period of more than a year, when he suffered a slight paralytic stroke, from which he only partially recovered. Judge Nash was born in Concord township, Erie county, about 71 years ago. His father was one of the successful and well-to-do farmers of his day, and the subject of this sketch was reared to young manhood at the old homestead inheriting much of the parental thrift and energy which elements in after years he put to good use. Upon attaining his majority he engaged in lumbering in which industry he was quite successful, and from that he took up the produce business, in which he again displayed his apt business qualifications. This industry brought him in close touch with the oil development of the early days and he was caught by the allurements of this fickle attraction and much of his worldly gain was swallowed up in the uncertainties of that business. About 25 years ago he came to Forest county, settling in Howe township, where he engaged quite extensively in the manufacture of hemlock shingles, one of the thriving industries of those days. He remained to see vast forests converted into lumber of various kinds, and the country denuded of its virgin growth when prices were at a low ebb, enriching a few but affording little benefit to the average man.
Mr. Nash's capabilities were early recognized when he came to Forest county and his neighbors elected him to about all the offices of trust in his township, and when, in 1884, he announced himself as a candidate for Associate Judge, he was an easy winner, and in the five years he occupied a seat on the bench he acquitted himself with honor to himself and his country. Upon retiring from the bench he was appointed postmaster of his town, a position he acceptably filled until failing health compelled him to relinquish it.
Judge Nash was a very likable man, even tempered, jovial and true to his friends, and his demise is greatly regretted by the many friends he had gained through long and intimate association.
He is survived by his widow, who, in her maidenhood, was Miss Sarah Lewis, and by one son by his first marriage, Frank Nash, now a resident of Kellewille, and his body was laid to rest in the cemetery near where his boyhood years were spent, in Concord township, Erie county.

Neighborhood Notes.

Clayton Firth, a farmer of Sugar Grove, Warren county, committed suicide by hanging. He was despondent over ill health.
The plant of the Keystone Gine company owned by the United States Leather company at Warren was destroyed by fire there Thursday caused by a gas explosion. Gus Johnson and Frank Anderson were badly burned. The monetary loss is \$40,000, covered by insurance.
In preparation for the harvest of grapes in the Chautauque and Erie county grape belt, the railroad companies have placed 300 freight refrigerator cars on the switches in this country. This step seems to preclude a danger of a shortage in cars as has been the case on previous occasions.
Beginning yesterday the rate of postage on first class mail to foreign countries will be five cents for every ounce or fraction of an ounce instead of a half ounce. The department will also issue reply coupons, which may be enclosed in foreign letters for a reply. They will cost six cents and will buy necessary postage for a letter to this country in any postoffice in the civilized world.
The Erie railroad's free school of telegraphy at Meadville has opened auspiciously. 35 young women have registered and a number of others have arranged to enter in the near future. As soon as the instruments are installed the active work of the school will begin, under the supervision of Lewis Clark. Mr. Clark is a telegrapher of years' experience, and he predicts that the school will be a complete success. All the young women who have registered have satisfactorily passed the necessary examination.
A mild winter, says John Peterman, Butler's hornet nest prophet. The hornets are building high in the air. The prophet declares hornets in some way get an inkling of the brand of weather to be dealt out in the winter. If the signs are for severe cold they build on the ground, where the snow drifts over them to protect the larvae from the cold. If they select a place high for their nest, they prophesy a warm, open winter. The corn husks, too, tell of a mild winter, says the hornet nest prognosticator. The husks are thin and few.

Letter to C. A. Randall,

Tionesta, Pa.

DEAR SIR:—Here's a tale with a point to it. Florida is the hardest state in the Union for paint.
Gilmore & Davis Co., Tallahassee, Florida, think they know what paint can do in their climate; they've been painting for 35 years, Devoe ten years; and they say Devoe wears 10 years—their words are: "Buildings we painted Devoe 10 years ago are in good condition of paint today."
They also say lead-and-oid wears only one year there; Devoe 10 years!
Ten years is a long lifetime for paint in Florida; longer than 20 in Maine. We don't dare say either is true as a general fact in those States; but there are such instances.
If we should call the cost of Devoe in Florida half of the usual cost of paint, it would be too much; we suppose it's about one-third; there is so much trash there—the costliest paint is the worst, and the worst is the costliest everywhere.
Yours truly,
F. W. DEVOE & CO.,
New York.
P. S.—Dunn & Fulton sell our paint.

Quins, Sprains and Swellings Cured.

"In November, 1901, I caught cold and had the quinsy. My throat was swollen so I could hardly breathe. I applied Chamberlain's Pain Balm and it gave me relief in a short time. In two days I was all right," says Mrs. L. Cousins, Otterburn, Mich. Chamberlain's Pain Balm is a liniment and is especially valuable for sprains and swellings. For sale by Dunn & Fulton.

The Young Fellow
Just emerging from his teens sets the pace for the masculine part of the family in matters of dress—for his younger brother and his elders as well. He makes style a study—knows what he wants and when he gets it. And he comes here because he recognizes our position as the leading caterers to young men's tastes.
COATS—That find the most favor with the young man are directly opposite the older man's style as most of the young men want a double-breasted coat cut full and long, center vent, closely pressed sharply peaked lapels.
TROUSERS—Low cut, closely-fitting waist, full fashioned hips and narrow bottoms.
MATERIALS—The complete range of proper fabrics, including fancy velours, heavily barred stripes and gray over-plaids, and black and blue worsteds, which so generally prevail in the finer garments and in which our styles are wholly distinctive. Prices, \$10, \$12, \$15, \$16 and \$18.
DON'T FORGET—This important fact that we press and keep in repair free of charge all clothing bought from us. That means the saving of a dollar per month smallest way you can figure.
