LETTER WRITING
Is what you make it—for better or worse! If you write on cheap flimsy paper you are no welcome correspondent. If you use a substantial and stylish writing paper—one that is easy to write upon and always correct, you create a good impression and please your correspondent. Letters written on bad paper are seldom saved—they convey none of your personality. A good up-to-date paper is just as essential as the composition of a letter. All

this is their time, following a frost such
as that of Sunday night.

—Squire Randall is having a new roof
put on his building on the corner of Elm
and Hilland streets using the new mate-
rial known as Paroid which is sold here by
J. J. Landers.

—Post office thieves are again busy.
The Jamestown, Mercer county, office
was robbed Friday night and \$150 in cash
and stamps taken. In times of peace and
quiet, prepare to meet the burglar—with
a shot gun.

—One of the crops that failed to fall this
season is the pumpkin, and kind friends
are remembering the printer, R. C.
Heath of Starr, and neighbor Blum left a
pair of fine ones yesterday, for which
many thanks.

—As a matter of future record it might
be stated that the first real snow of the
season came on last Sunday, 20th. On
the hills, they say, roofs of buildings
were quite well covered, but it lasted
only a short time.

—Merchant Sigworth is now nicely en-
sconced in his commodious new store
building on the west side of Elm street,
where he is ready to meet all old and new
customers with a fine stock of hardware.
His new dwelling will be ready for occu-
pancy in a short time.

—Ray Birtell, who has been farming
one of the lower islands the past summer,
had a small field of fine corn "cooked"
by the frost of last Friday night. Had
"jack" delayed his visit for about ten
days Ray's corn would have escaped and a
fine lot it would have been.

—The annual inspection of Capt. Geo.
Stow Corps, No. 137, was held on Wednes-
day evening, October 16th, with Mrs.
Susie F. Loomis, of Corps No. 59, of
Scranton, Pa., as inspector. At the close
of the meeting light refreshments were
served, and a short time spent socially.

The first general frost, killing all
plant life in the valleys as well as on the
hills, occurred on Friday night, Oct. 18.
Other severe frosts on the hills have been
noted this fall, but they were not general.
A year ago the first snow storm, followed
by freezing weather, occurred on October
11th.

—Take advantage of the golden oppor-
tunity to secure a splendid winter wrap
from the largest and finest stock ever
shown in Tionesta. Attend the Hopkins

the day and get there early. One day

—Subscribers to the fund raised to aid
Tionesta township in the building of the
new Macadam road above Tubbs run are
reminded that payments on same are
now due, and that Mr. Kelly, treasurer
of the fund, at the Forest County National
Bank, will receipt for all money received
on that account.

—A wise exchange, noting the short
chestnut crop this season, says "the price
will be about \$7.00 a bushel." Seven
hundred dollars would be nearer the
mark. We doubt whether a bushel of
real decent chestnuts could be garnered
in seven of the best counties of the north-
western part of the state.

—George W. Holeman, republican candi-
date for county treasurer is around
looking up the voters and urging their
attendance upon the approaching election.
Mr. Holeman received the republican
nomination after a fair fight and we
know of no reason why he should not re-
ceive the regular republican vote.—Mar-
tenville Express.

—State Superintendent Schaeffer is now
sending out warrants to the townships
entitled to receive a share of the appropria-
tion made to the township high
schools of the state. High schools of the
first grade are entitled to \$600, second
grade \$450 and third grade \$300. Under
this schedule two Forest county township
schools will receive \$750—Jenks \$450, and
Hickory \$300.

—J. M. McCullough fell into the tume
at the Nebraska sawmill Monday evening
and sustained some severe bruises
about the head and hips. He was cross-
ing on a plank, when he slipped and
probably struck some logs in his fall.
Dr. Dunn was called to attend him and
while the patient was suffering consid-
erable pain, the physician thinks his in-
juries will not prove serious.

—The 4th annual meeting of the Penn-
sylvania State Bee-Keepers' Association
will be held at Harrisburg on October
20th, the day before the National, in the
Capitol building. The first session will
convene at one p. m. and be devoted to
business. A cordial invitation is extended
to all who are interested in bees.
There will be exhibits of honey and all
are invited to contribute to them.

—The best way to cook a pumpkin is to
set it in a tin and then place it directly in
the oven without any preliminary
treatment than a light washing with a
wet vegetable brush. Bake it for an hour
or more, according to the size of the
pumpkin. When it is done, open the
stem end and remove the seeds. The
rind will peel off as though it were paper.
So says a wise exchange. Try it.

—Knox township, Jefferson county,
bids fair to be one of the best oil and gas
districts in Western Pennsylvania. On
Friday evening the Wray Oil and Gas
company of Tylersburg, Clarion county,
Pa., drilled in their No. 2 on the Yoder
farm, in Knox township, and it is good
for 3,000,000 feet of gas per day. Their
No. 1 on the Stewart farm is good for
2,000,000 feet. The firm has 2,800 acres
leased in nearly one solid block.

—John N. Rathfon met with a painful
accident last Saturday morning at the
Nebraska lumbering mill. He was run-
ning the slasher saw when a piece of a
slab was caught and thrown by the saw,
the sharp edge of the slab striking him on
the chin, cutting a gash about two inches
long and through to the jaw bone. Mr.
Rathfon was able to come to town where
his injury was dressed by Dr. Dunn, and
he went to his home at Lickingville to
rest up and allow the wound to heal.

—Miss Ada Ora Dewalt, oldest daugh-
ter of Mr. and Mrs. G. H. Dewalt, of Ti-
onesta, former residents of West Hickory,
was married at her home at noon
Wednesday, Oct. 16th, to Howard S.
Gerken, of Buffalo, where they will re-
side. The ceremony was performed by
Rev. E. D. Mowry in the presence of
thirty guests. The bride was attended
by her sister, Miss Mabel Dewalt, and
her brother, Walter Dewalt, acted as best
man. Mr. Gerken is an engineer on the
great lakes.

—An exchange tells of a man who
chews 20 cents' worth of tobacco a week
and concluded to try a tobacco cure. In
two weeks he ate \$1.50 worth of the cure,
and for the next two weeks he used five
cents' worth of gum, five cents' worth of
candy, five cents' worth of peanuts and
five cents' worth of cough drops per day.
During the two weeks he also consumed
two large rubber erasers, ate the rubber
tips from fourteen lead pencils, chewed
up a dozen penholders, and browsed off
his mustache as high as he could reach.
He is now chewing tobacco in the inter-
est of economy.

—Elizabeth Stuart Phelps' new novel,
"Though Life Us Do Part," begins in
serial form in the November issue of the
Woman's Home Companion. The pub-
lication of any novel by the author of "A
Singular Life" and "Gates Ajar" is a
notable literary event, and the announce-
ment of this new novel in the Woman's
Home Companion is sure to be a source
of gratification to Mrs. Ward's thousands
of admirers. The scene of the story is
laid in a fashionable "North Shore" re-
sort near Boston, the country that Mrs.
Ward knows and likes best. The open-
ing chapters give promise of a highly
dramatic and interesting novel.

—The recent discovery of a strange
mineral on the farm of John VanCamp,
near Fryburg, has occasioned considera-
ble speculation as to its nature. Mr.
VanCamp was kicking down a water well
on his premises, using the old fash-
ioned spring pole, when at a depth of
about thirty feet he drilled through a
three or four foot vein of ore which
greatly resembles gold. Whatever it is,
the ore is pure stuff, can be whittled with
a knife and beaten out under a hammer
into a sheet as thin as paper. Only a
small piece about the size of a hickory
nut was secured, but it has been sent to
an assayer to be tested.

home Monday from her three-months so-

Miss Helen, remained in Denver for a
while, and may decide to stay all winter.

the splendid climate of the Centennial
State agreeing with them perfectly.

—It is with pleasure that we chronicle
this week the marriage of another of
Tionesta's popular young men, Lewis
Arner, son of Mr. and Mrs. Calvin M.
Arner, and Miss Mary Edith Painter,

young men and numbers his friends only
by the limits of his acquaintanceship both
here at home and wherever he is known,
while the bride of his choice is one of the
most popular and respected ladies of her
home town. May happiness and prosper-
ity attend them.

Fire Near Lucinda.

A large brick house—one of the finest
in Clarion county—belonging to the
Strickenberg heirs, and located on the
Lucinda road, between Kinch's and the
village of Lucinda, was totally destroyed
by fire last Saturday. The flames were
first discovered about 11:30 in the fore-
noon, there being but one member of the
family at home at the time, and before
assistance could arrive the fire was be-
yond control, and only a few of the
household goods were saved, these be-
longing to Richard Strickenberg, who
occupied the premises and who is the ad-
ministrator of the estate. At one time
the large barn near the house was in-
volved, but by hard work it was saved.
The loss on the burned building is esti-
mated at \$4,000 and on the contents at
\$500, on which a small insurance, about
\$1000, was carried. The fire is thought to
have originated from a spark falling upon
the roof of the house.

with friends in Spartansburg and Oil
City.

Allegheny River Sewage.

The Oil City Blizzard says: "The Pitts-
burg Chamber of Commerce, after re-
ceiving a committee report on sewage
purification, is out with a strong recom-
mendation for the immediate appoint-
ment of competent sanitary engineers to
thoroughly investigate the subject and
prepare a plan for taking care of the
sewage of the city. This is a matter in which
Oil City is interested, as the law of the
state requires the same action in every
city of the state in the river basin, and
orders have been issued by the State De-
partment to prepare plans for sewage dis-
posal within three years. Some of the
towns have already started their con-
struction work, and it is up to Oil City
to take action of its own volition, rather
than wait until it is forced to do so by the
state."

All of which is very commendable.
But will the sewer experts tell us how
the towns on the northern border of the
state are to be protected from New York
sewage? The Allegheny, the Susquehanna,
the Delaware rivers and their tributaries
all arise in that state, and all are
used as sewers. And the northern
tier towns have the same rights to be
protected as the rest of the towns of Penn-
sylvania. The sewage business is a great
question, and, like the railroads, is inter-
state.—Tidouise News.

Quincy, Sprains and Swellings Cured.

"In November, 1901, I caught cold and

so I could hardly breathe. I applied

relief in a short time. In two days I was
all right," says Mrs. L. Cousins, Otter-
burn, Mich. Chamberlain's Pain Balm
is a liniment and is especially valuable
for sprains and swellings. For sale by

Neighborhood Notes.

Farmers west of Erie are hauling their
potatoes to the city and are getting 75
cents per bushel for them.—North East
Breeze.

Guy McKinney, son of C. A. McKinney
living midway between Youngsville and
Irvinston, was run down and killed by a
P. & E. freight train about midnight
Saturday. A track-walker found his re-
mains after daylight Sunday.

A local nimitz went hunting near
Grunderville one day this week and al-
most as soon as he entered the woods a
huge bear confronted him. He was too
scared to fire and so frightened that he re-
turned home.—Warren Mirror.

The Clinton Republican says that the
1907 crop of Clinton county tobacco has
all been housed and the growers feel sat-
isfied that they have a very good article
of the weed. It would be a pretty good
guess to say that the total crop will yield
780,000 pounds and bring into the tills of
the growers \$12,000. 579 acres were un-
der cultivation.

J. M. Critchlow developed agas well of
mammoth proportions on the No. 3 tract
on the Columbus Homan farm, in Irwin
township, Friday. According to reports
the roaring of the gas well can be heard
for a distance of two miles. The extent
of the pressure has not been learned. So
far as known no efforts have been made
to corral the vast amount of fuel that is
going to waste.—Franklin Herald.

A meteor weighing two tons was found
embedded in a clay bank, 40 feet from
the surface near Clermont, Pa., a few
days ago. The sewer pipe clay vein in
fact the meteor rested was under a five
foot vein of coal, showing that the coal
was formed after the meteor fell, ages
and ages ago. The meteor will be re-
moved and is presented to the McKean
County Historical society.—Kane Repub-

The local railroads have observed the
first sign of winter. That is the exodus
of the hobo. The only hobo that has been
here for a long time was the one locked
in a car on Friday morning. The hobo is
a bird of passage. They go south every
fall and just now the railroad detectives
are getting a whole lot of leisure gentle-
men. Every road loses large amounts
every year during the exodus of tramps
and all the roads are preparing to deal
with the situation.—Butler Eagle.

W. B. Templeton, residing near Ket-
tanning was made the victim of a clever
swindle recently. A clerical looking
man appeared at Templeton's home and
asked for a night's lodging. The visitor
was very big of tongue and discussed re-
ligious matters with earnestness. The
next morning a couple drove up to the
Templeton residence in a buggy and in-
quired if a minister lived in the neigh-
borhood. They were introduced to the
stranger, who after questioning them
consented to perform the ceremony. After
tying the knot in an impressive manner
he gave the young people a kindly talk
upon the duties of married life. Then he
asked Templeton to sign a supposed
marriage certificate as a witness. This
Templeton did. The couple left and the
ministerial stranger followed soon after-
wards. Templeton has now received a
notice from an East Brady bank that the
bank purchased a note for \$300 made by
him and asking him to call and lift it.
