## CUBA'S ENUMERATION

### First Step Toward the End of American Intervention.

Hearst Held For Libel—Second Thaw Trial—Game Protector Coe Dismissed—Foraker Indorsed For President—Will Keep All Mills Running, Swift Justice.

With the completion of the enumeration of the population of Cuba there has been accomplished the first step in the direction of the termination of the American intervention and the re-establishment of the Cuban republic.

While officially described as a census, this enumeration was actually an enforced registration of voters, the determination of the population of the island being of scant importance compared to that of registering all persons entitled to the electoral franchise, in order to insure the purity of the election of the next Cuban president. No pains have been spared to accomplish this, but pending the difficult task of tabulation the results probably will not be known for some weeks.

To even speculate on the outcome of the next election is futile owing to the confusion consequent on the dissensions in the Liberal party and the undefined attitude of the Conservatives. A year ago there is no doubt the Liberals would have had an overwhelming victory and that Alfredo Zayas would have been elected president.

Now the Liberal party is hopelessly divided between the followers of Jose Miguel Gomez and Zayas and an excellent opportunity is afforded for the Conservatives to organize and nominate a leader who will command the respect of the country.

The new electoral law has been completed and now only awaits the approval of Governor Magoon before being promulgated. Therefore if tranquility is maintained, which there appears to be no reason to doubt, nothing stands in the way of carrying out the present program of the government, which is to hold the municipal elections in May or June and the presidential election in the following December, thus paving the way for the inauguration of the president in May and the withdrawal of the American troops in July.

A singular feature of the present situation is the utter apathy with which Cubans appear to regard the preparations making for the restoration of their republic. At no time since the intervention began has political discussion been so languid.

**Mauretania Made Record Day's Run.**  
Poking her nose through a fog which hid even her mast tops from the sight of those on deck, the biggest and most luxurious ship ever launched finished her maiden voyage when the Cunard line turbine steamship Mauretania anchored off the Sandy Hook lightship, five days five hours and 10 minutes from Queenstown.

Bearing \$12,500,000 in gold for the West, she struggled against tempestuous weather to beat the world's transatlantic speed record of four days 18 hours and 40 minutes, held by her sister ship, the Lusitania. Head winds and heavy cross-seas baffled her, but she won the right to one blue ribbon.

On Thursday, Nov. 21, Captain Pritchard drove the huge ship 624 knots (671 miles), which is six knots better than the best day's run of the Lusitania, and leads all marine records.

Though the new liner demonstrated a capacity for greater speed by day under favorable conditions than the Lusitania has thus far proved herself capable of, an uncommonly stormy passage and fog off this coast combined to make her time 10 hours and 30 minutes more than that established by her sister ship. But Captain Pritchard believes that with fair weather he can beat the Lusitania from coast to coast.

**Hearst Held For Criminal Libel.**  
Justice Wyatt in the court of special sessions in New York held William R. Hearst for the grand jury on a charge of criminal libel preferred by William Astor Chanler, S. S. Carvalho gave bail for Mr. Hearst.

The amount of the bond was fixed at \$500, the usual sum required in misdemeanor cases. Mr. Carvalho is the general manager of Mr. Hearst's New York newspapers.

The charge against Mr. Hearst grew out of a publication in the New York Evening Journal concerning the case of Raymond Hitchcock, the actor.

Mr. Chanler's name was mentioned in the article. Several hearings were had before Justice Wyatt during which Mr. Chanler positively denied that he ever was at Hitchcock's house when little girls were there.

Before holding Mr. Hearst for the action of the grand jury, Justice Wyatt first over-ruled a motion to dismiss the complaint against Mr. Hearst on the ground that his proprietorship of the Journal had not been proved nor had the libelous character of the publication been shown.

**Second Thaw Trial Again Postponed.**  
The second trial of Harry Thaw, set for December 2, will again be postponed with little chance of its being called until well along in January. The decision to ask for a postponement has been agreed to by both sides. It is due partly to the fact that the task of selecting a jury would be made doubly hard by the approach of the holidays and the fact that

**Charles F. Persons Passes Away.**  
Charles F. Persons, until recently vice president and assistant general manager of the American Press Association, died at Stamford, Conn. Mr. Persons was born in Rushford, N. Y., 53 years ago and educated at the nearby schools and learned the printer's trade on the Cattaraugus Republican at Little Valley, N. Y. Later he started the Bradford (Pa.) Era at the time the Bradford oil fields were opened. From Bradford he moved to Olean, N. Y., where for many years he was editor and proprietor of the Olean Daily Herald.

About 20 years ago he became manager of the American Press Association's New York office, was promoted to secretary and assistant general manager and still later became vice president and assistant general manager. He was taken ill a year ago and went to California to recuperate, but the change did not prove beneficial. Three weeks ago Mrs. Persons died. Mr. Persons is survived by two daughters, Mrs. Frederick E. Gwin, Jr., and Miss Marjorie Persons.

**Game Protector Coe Dismissed.**  
Commissioner James S. Whipple of the New York state forest, fish and game department announced that he had dismissed from the service Flaah and Game Protector John C. Coe of Conesus, Livingston county, and that Coe will be prosecuted for violating the law against hounding of deer, alleged violations of which by others he was at the time supposed to be investigating.

It appears that Coe and another protector were assigned to Essex and Hamilton counties near the close of getting evidence against hunters hounding deer with dogs. Commissioner Whipple says he has evidence that while this engaged Coe shot a deer while it was being driven by a hound and that he took the carcass home.

**Foraker Indorsed For President.**  
United States Senator Joseph Benson Foraker of Ohio was indorsed at Columbus for re-election to the senate and for the Republican nomination for president, at a joint meeting of the executive and advisory committees of the Ohio League of Republicans clubs.

The committees declare that they have no sympathy with the suggestion that Senator Foraker be eliminated from public life because he was not able to agree with President Roosevelt on all questions.

The action of the committees at once brought a challenge from Insurance Commissioner A. I. Vorys, manager of the Taft presidential canvass, for a popular primary of Ohio Republicans for a candidate for president.

**Will Keep All Mills Running.**  
At a meeting last week in New York city the Eastern Bar Iron association decided to keep all mills running so long as the demand for bar iron does not fall below 25 per cent of the normal volume. The association embraces about 30 iron concerns and met to discuss existing business and financial conditions. The demand for bar iron has fallen off somewhat since the money stringency began, but the founders believe there is likely to be an increase of orders at any time. The iron is needed, they say, but future orders have been curtailed and buyers just now are trying to limit their orders to immediate needs.

## CURRENCY PAYMENTS

### Soon to Be Resumed by Banks Throughout the Country.

#### SUCCESS OF THE NEW LOANS

No Allotments Have Thus Far Been Made Except to Banks That Desire to Use Them as Basis For New Circulation—Decrease in Government Receipts This Year.

Washington, Nov. 26.—A more confident tone in regard to the success of the new loans prevails at the treasury department than at any time since the announcement of the loans a week ago. The visits of Mr. Morgan on Friday and Saturday were followed by a visit from James B. Forgan, president of the First National bank of Chicago. Mr. Forgan saw the president, Secretary Cortelyou and Treasurer Treat, and expressed his belief that the banks throughout the country would soon be in a position to resume cash payments.

Mr. Forgan left tangible evidence of his visit in a subscription by the Chicago Clearing House banks for \$2,500,000 of the new one-year certificates.

Mr. Forgan represented that the Chicago banks would be able to resume upon an understanding with the banks in other cities within the next week or 10 days. It is believed among the treasury officials that a complete understanding will be arrived at between the banks in the large cities by which there will be a general resumption of currency payments within the next few days.

**Not Enough Money to Buy Stamps.**  
The subject is of peculiar interest to the treasury officials, because for nearly a month government receipts have been declining as a direct result of the scarcity of currency. Distillers, brewers and others who are required to purchase internal revenue stamps have not been able to secure currency in sufficient quantities from the banks with which to purchase these stamps, and as the collectors are not allowed under the law to receive certified checks or anything except lawful money, except at their personal risk, the result has been that even a sufficient amount of stamps to cover immediate needs has been difficult to obtain.

The conditions which will confront the treasury six months or a year hence are beginning to be studied with some interest by the officials. It is anticipated that there will be a considerable decline in receipts from diminished consumption during the remaining seven months of the fiscal year ending June 30 next.

The surplus of receipts over expenditures thus far for the fiscal year beginning July 1 last stands at the nominal amount of \$148,872, while the surplus for the same period a year ago was \$12,322,469. If the remainder of the year should show a deficit in ordinary receipts, there might be serious need for a part of the large surplus which is being accumulated from receipts and proceeds of the loan.

Under the arrangements now proposed, by which \$75,000,000 of the proceeds of the one-year certificates are to be deposited in the banks, the treasury will gain in actual cash only \$25,000,000 from this source. A similar distribution of the proceeds of the Panama issue of \$50,000,000 would add \$12,500,000 to cash in hand, but this amount is likely to be required for construction work on the isthmus.

**Future Readjustments.**  
Under these circumstances it may be necessary to withdraw additional sums from national bank deposits when money begins to accumulate in the banks after the present pressure has ended. While the new loans will place large amounts at the disposal of the treasury and the money market they will involve a number of readjustments when the pressing need for currency has passed.

Although applications and cash deposits for the new treasury certificates are being received at the treasury in increasing numbers from individuals as well as from national banks, it is learned that no allotments have thus far been made except to banks that desire to use them as a basis for circulation.

The declared purpose of Secretary Cortelyou in issuing the certificates was to increase the volume of outstanding currency and his object, it is said, can best be accomplished through the increased issue of national bank notes, and for the present at least the efforts of the treasury officials will be in that direction.

**Good Outlook for Cohoes Mills.**  
Nov. 26.—The outlook for a busy year in the knit-goods industry in Cohoes, one of the largest centers of that work in the country, is becoming brighter daily and it is expected that all the mills of that city will be running in full by Jan. 1. The Victor mill will resume night work within a week or so. Night operations had been suspended at the plant for some time past. The mill has received a large order which will keep the plant running for some time to come. The Yale Textile company has installed new machinery in its mill and increased its production. Orders are steadily coming in and the prospects for a steady business are excellent.

**Swift Justice in Murder Trial.**  
Tried, convicted and sentenced in a single day was the experience at Greensburg, Pa., of Joseph Pettite, who is charged with murdering Joseph Fenoglio of Penn station. Pettite was a suitor of Fenoglio's daughter, but the father objected. Last Sept. 15 the two men quarreled. Pettite shot Fenoglio. The jury returned a verdict of second degree murder. Judge Doty imposed a sentence of seven years and five months in the Western penitentiary.

**Cheaper Production of Radium.**  
Great success has recently attended the experiments to cheapen the cost of the production of radium which have been made at the Imperial Academy of Sciences of Vienna. Nearly three grams of radium have been extracted from 10,000 kilos of pitchblende at one-third the cost of previous production. Radium has been exceedingly costly of production; it was estimated not long ago that an ounce would cost not less than \$3,000, 600.

**Witness Died in Court.**  
While testifying in a contested will hearing in surrogate's court at Gloversville, N. Y., last week, Dr. Edward H. Eisenberg, one of Gloversville's best known physicians, was stricken with apoplexy and died almost immediately. His failure to reply to a question of counsel in the case led to the discovery that he was dying.

## PREACHERS AS CONDUCTORS

### Clergymen, College Graduates and Professors Run Pittsburg Cars.

Pittsburg, Nov. 26.—Officials of the Pittsburg Railways company, which operates all the street car lines in this city, announced that during the last two weeks 25 college graduates, four college professors and two clergymen applied to the company for employment.

The college graduates could get nothing else to do. The professors had lost their positions and could get no other employment as teachers, while the ministers were young men who had failed to be assigned to charges. All of the applicants were given positions and every one preferred the rear end of the car to a job as motorman.

"We have excellent reports from every one of them," said an official of the company. "The ministers particularly are doing well. One is on duty turn, while the other has a car which leaves the downtown district soon after midnight and passes through the worst part of the city. One night a crowd of toughs on the car started a fight, but the minister-conductor restored order before anyone was hurt."

## CLOCK IS NEARLY PERFECT.

### Almost as Steady and Reliable as the Sun Itself.

Cleveland, Nov. 26.—A clock has been installed in the observatory of the Case School of Applied Science in this city which is so nearly perfect that it has attracted the attention of the Smithsonian Institute at Washington.

As another mark of distinction, tests have proved that the mechanism is so accurate that the clock will not vary more than fifteen one-thousandths of a second from the exact time in 24 hours. This is considered to be nearly as steady and reliable as the sun itself. The clock will measure the minutest fraction of a second. Its only rival in accuracy is said to be a similar timepiece in Berlin.

The construction of the Case School clock is so delicate that for protection it is surrounded by a glass jar, which is partly a vacuum. To protect the clock from disturbance the winding is accomplished by electricity. The instrument is used almost exclusively in astronomical observations.

## STEVE ADAMS ADMITTED TO BAIL.

Rathdrum, Idaho, Nov. 26.—Steve Adams, the jury in whose trial for the murder of Fred Tyler reported a disagreement, was admitted to bail in \$20,000. Attorney Darrow, for the defense, announced the bond would be provided within a few days. It is expected that as soon as Adams is released on this bond he will be rearrested on a warrant charging him with the murder of Arthur Collins, at Telluride, Col., in 1902. Attorneys Darrow and Hawley leave at once for Boise to attend the Pettibone case.

## PENSIONS FOR SOUTH AFRICAN SERVICE.

Ottawa, Ont., Nov. 26.—Lord Elgin has sent a dispatch to Lord Grey stating that the imperial government will grant a pension to the family of any veteran of the South African war who dies from wounds, injuries or disease received in war service within seven years of the date of removal from duty. The former limit was two years.

## POINTED PARAGRAPHS

### Summary of the Week's News of the World.

**Cream of the News Cullied From Long Dispatches and Put in Proper Shape For the Hurried Reader Who Is Too Busy to Read the Longer Reports and Desires to Keep Posted.**

**Wednesday.**  
The American Federation of Labor voted for the exclusion of all Asiatic labor from the United States.  
The court of appeals declares unconstitutional the New York recount bill passed by the last legislature.  
Tentative plans for the president's review of the fleet at Hampton Roads embrace a personal inspection of the vessels.  
Henry George Jr., in speech before single tax conference in New York, advocates postal savings banks to relieve present currency stringency.  
Bankers everywhere declared that Secretary Cortelyou had delivered a smashing blow to the unfavorable conditions existing in financial centres.

**Thursday.**  
President Roosevelt gave orders that no federal officer be elected a delegate to the Republican national convention.  
James J. Hill, in a speech at Kansas City, denounced the attacks on credit as inimical to the welfare of the railroads of the country.  
The departure of the battleship fleet for the Pacific will cause 8,000 workmen in Eastern navy yards to be thrown out of employment.  
Thomas F. Ryan and Anthony N. Brady appeared before the grand jury to explain details of the Wall and Cortlandt street ferries negotiations.  
Plans for a great inland waterway to connect Boston and Beaufort, N. C., were discussed by the Atlantic Deep Waterways conference in Philadelphia.

**Friday.**  
Miss Helen Gould received a silver cup, given by 4,000 seamen of the Atlantic fleet.  
An indictment charging larceny and forgery was returned by the grand jury against Arthur D. Campbell, cashier for the Borough bank of Brooklyn, which recently closed.

**Members of the New York board of education have sent out word that henceforth no song containing mention of Christ or Christmas shall be sung in the public schools.**  
Indorsement of Mr. Foraker as a presidential candidate by the Ohio League of Republican Clubs brought a challenge for state primaries from A. I. Vorys, Mr. Taft's manager.  
In a decision rendered by the appellate division of the supreme court, at Albany, the principle involved in the creation of the public service commission was upheld, with two of the judges dissenting.

**Saturday.**  
About 400 men employed in the shops of the N. Y. C. & H. R. R. R., at West Albany, have been laid off. This is about a quarter of the entire force.  
Editors in many parts of the country in discussing the issue of certificates of indebtedness by the government declared it showed the need of currency reform.

A Pennsylvania superior court decision denied the suit of Augustus Hartle for a divorce from his wife, declaring the newly discovered letters to be forgeries.  
Andrew Carnegie placed Mrs. Ida Lewis Wilson, keeper of the Limerock light house, near Newport, who has saved 18 lives, on his private pension list at \$30 a month.  
Officers and members of the crew of the steamer Dick Fowler were exonerated from the charge of reckless navigation, endangering the life of President Roosevelt during his Mississippi river trip to Memphis. It cost 10 guineas.—London Fun.

**When the Wire Ties.**  
"Messages," said a telegraph operator, "always slide over the wires better on Monday than on any other day. The wires, you see, have prodded by their Sunday rest. It is a fact that they animate as well as animate things get tired and need a vacation occasionally. You know how true this is of razors, of automobiles, of locomotives, and it is just as true of telegraph wires. A wire after its Sunday rest gives a quicker, a fuller and a more delicate transmission. It is like a piano that has just been tuned."

**The Thumb.**  
The radical difference between the hand of man and of the monkey lies in the thumb. In the human hand the thumb has the "opposing power," which means that the thumb can be made to touch the tip of each or any of the other fingers on the same hand. The monkey's thumb is nonopposable.—Pittsburg Dispatch.

**More Exciting.**  
Trot—Has Jones quit the race track because of reform, or what? Jockey—Reform nothing! He wanted something more uncertain to bet his money on. Trot—But what could he find more uncertain than a horse race? Jockey—He's taken to betting whether or not the weather man will correctly predict the day's condition.—Florida Times-Union.

**Not Cheap.**  
Aged Husband—You are going to ruin me with your extravagance. You don't need that cape any more than a cat needs two tails. How often have I told you never to buy anything because it is cheap? Young Wife (with an air of one who has got the better of the argument)—But it was not cheap. It cost 10 guineas.—London Fun.

## GERMAN STUDENTS IN THE BERLIN UNIVERSITY

### denounced drinking and formed an organization to check the habit.

Howard Maxwell, former president of the Borough bank of Brooklyn, indicted for grand larceny, is unable to procure bail and is locked up.

President Roosevelt, in his message to congress, has recommended the construction of four battleships more powerful than any now being built.

Benito Legarda and Pablo Ocampo, the latter one of the followers of Aguinaldo, were chosen as Philippine commissioners to the United States.

Secretary Cortelyou decides to sell the new 3 per cent. notes to the banks, to be used as the basis for increased circulation, instead of to the public, which might draw its savings to invest.

**Tuesday.**  
Children of the late William B. Dinsmore will give the village of Staatsburg, N. Y., a system of water works as a memorial to their father.

Sir William Crookes and Rudyard Kipling are designated for Nobel prizes, the former for discoveries in chemistry, the latter for literary work.

Englishman who advertised among Pittsburg society women to introduce them at court and into London society is arrested as a suspicious person.

Congressmen will propose many plans for relief from the financial stringency, among which the project for a central bank of issue is attracting considerable attention.

**Dangers of the Revenue Service.**  
The officers of the internal revenue service make little fuss over their accomplishments. The world scarcely hears of them unless they have had a desperate hand to hand fight with mountain desperados which has resulted in the death of several of their number. But day after day and night after night they go about their work calmly, quietly, in constant danger of death from a shot from some ambushed moonshiner or blockader. Yet these men are an absolute necessity for the safeguarding of the country's interests, and they deserve much credit for their hard task, scarcely appreciated by the great mass of the people.—David A. Gates in Metropolitan Magazine.

A wire after its Sunday rest gives a quicker, a fuller and a more delicate transmission. It is like a piano that has just been tuned."

**The Thumb.**  
The radical difference between the hand of man and of the monkey lies in the thumb. In the human hand the thumb has the "opposing power," which means that the thumb can be made to touch the tip of each or any of the other fingers on the same hand. The monkey's thumb is nonopposable.—Pittsburg Dispatch.

**More Exciting.**  
Trot—Has Jones quit the race track because of reform, or what? Jockey—Reform nothing! He wanted something more uncertain to bet his money on. Trot—But what could he find more uncertain than a horse race? Jockey—He's taken to betting whether or not the weather man will correctly predict the day's condition.—Florida Times-Union.

**Not Cheap.**  
Aged Husband—You are going to ruin me with your extravagance. You don't need that cape any more than a cat needs two tails. How often have I told you never to buy anything because it is cheap? Young Wife (with an air of one who has got the better of the argument)—But it was not cheap. It cost 10 guineas.—London Fun.
