Great skating was enjoyed on the creek and back channel the most of last week, the ice being smooth as glass and there were acres of it. Nothing quite compares with the delights of ice skating in the minds of those who can handle themselves with ease on the smooth surface.

The Oil City Blizzard speaks for all of us when it says: "Let no one charge that the publishers of country newspapers are hoarding their currency. They are too patriotic to do anything of the kind." The Blizzard might have added that in some instances our friends are hoarding it from us.

The borough of Warren is considering the advisability of buying the water plant at that place. The company owning the plant has fixed the price at \$110,000, the terms of payment to be \$300,000 cash, balance in annual payments extended over a term of years at legal interest payable semi-annually.

S. S. Sigworth, of the Tionesta Hardware store, has employed a first class harness maker, and having taken over the tools and machinery of the Fulton shop, is prepared to meet the wants of all who desire work in that line. Call at the new Sigworth block when in need and your wants will be promptly attended to.

George Miller, a young man whose home is at Kane, while assisting in placing a hot-box in the pond of the mill at West Hickory last Wednesday afternoon, was accidentally struck in the face by a sledge in the hands of a fellow-workman. The bridge of his nose was badly crushed and his face bruised, but he was getting along all right at last accounts.

The statement of the condition of the Forest County National Bank, which is published today in the REPUBLICAN, shows that institution to be on very solid footing, having since the last statement increased its volume of business nearly \$32,000, and added nearly \$7,000 to its surplus and profits account. Surely this is a very flattering condition, upon which the bank and its patrons are to be congratulated.

While casting about for a suitable Christmas gift, one that is both sensible and useful, take a glance at the broad-gauge ad. of the Monarch Clothing Co. in this issue. This enterprising firm is showing many pretty things that will make most acceptable presents for the holidays, in the garment line for men's, boys', or ladies' wear, and gent's furnishings. They always give you a bargain at this fine store.

Nathan C. Schaeffer, State Superintendent of Public Instruction, has appointed W. W. Mills, of Green township, Mrs. Mand Berlin, of Kingsley township, and Miss Blanche Hunter, of Tionesta borough, as members of the committee on permanent certificates for Forest county, for a term of three years. They have accepted and will probably meet next week at the institute to organize and to set the date for the annual examination.

James Strail, whose trial for the murder of his wife in Oil City last September, was concluded in Franklin last Wednesday, was convicted of murder in the first degree, the jury having been out about three hours. This case made the second within a week of first degree murder verdicts in the Venango courts, and is a record which is not likely to be equaled for many years to come. The defending attorneys in both the Strail and Holka cases have made application for new trials.

Many people err in taking only the head of a slain animal on which they expect to receive bounty to an Alderman as proof of having killed the animal. The law requires that the pelts of the entire animal be shown. The Alderman then clips the ears from the animal and makes out a form that is presented to the county commissioners, who pay the bounty. Bounty is paid for wildcat, fox, mink and weasel, the amount being \$4 for each wildcat, \$2 for each fox and \$1 for each mink or weasel.

Mrs. P. C. Hill is conducting a very neat, up-to-date restaurant in the rooms formerly occupied by L. Fulton, in the Kepier block, which have been newly painted, redited with lunch counter, conveniently partitioned and so arranged that the place presents a most inviting appearance. Lunches and warm meals can be had at all hours of the day and evening, and Mrs. Hill will appreciate the patronage of the public, endeavoring to serve the people with the best the market affords and in modern style.

A spirited controversy in which the younger, as well as older nincoms, of Jefferson, Clearfield and Indiana counties, have become involved, has broken out concerning the date, place of slaughter and the hunter who dispatched the last panther that was killed in either of the three counties. The animal, it is alleged, measured 9 feet, 6 inches from tip of nose to tip of tail, and its capture caused a sensation. Evidence leading to the discovery and proper identification of the hero is awaited with anxiety, and more or less suppressed solicitude.—Paxson-Lawrence Spirit.

The cases set for arbitration here Monday in which the Citizens National Bank was plaintiff and Landers & Wyman and Osgood & Jamieson defendants, there being five cases in all, came to an abrupt ending on Monday afternoon. The Arbitrators, Messrs. D. B. Shields of Marienville, A. R. Meehling of Clarionville, and W. H. Stiles of Endeavor, were present and ready for business, and a formidable array of legal talent and witnesses was on hand, but after consultation between the lawyers on both sides, the arbitrators were informed that an agreement for an indefinite postponement of the arbitration had been reached.

An Unique Affair.

Wednesday afternoon of last week a company of young folks of Tionesta enjoyed the hours between two and six o'clock at the home of Miss Josephine Smearbaugh, the occasion being a handkerchiefs shower given by her in honor of Miss Georgia Watson, whose marriage with Mr. Lawrence A. Buzard is to take place on the 28th inst. The affair partook of the nature of a Christmas tree which was prettily decorated with sperm candles. The hostess and guest of honor received the guests as they were ushered into the parlors, there being twenty-seven of them. Pretty handkerchiefs, greatly varied in style and design, were attached to the tree in dainty fashion, and thence came the grotesque figure of old "Santa Claus," who stripped the tree of its pretty fruit, passing each package, one by one, to the guest of honor. Every guest present was also remembered, being favored with a mounted Kodak picture of the bride-to-be. The luncheon was served in buffet style at five p. m., occupying an hour in its discussion.

The affair was pretty and unique in all its appointments and the guests departed showering good wishes and happy felicitations upon the honor guest, as well as the young hostess.

Free Dispensary for Consumptives.

Dr. Thos. H. A. Stites, Medical Inspector of Dispensaries for the Department of Health of Pennsylvania, was in Tionesta Tuesday and established for Forest county a free dispensary for the examination and treatment of patients suffering from tuberculosis of the lungs, under a recent act of assembly which provides for one such dispensary in each county in the state. Dr. F. J. Bovard, as County Medical Inspector, will have charge of the dispensary, under the direction of State Health Commissioner Samuel G. Dixon's department. For the present the dispensary will be located in Dr. Bovard's office in Tionesta, and the hours during which such free treatment will be given will be each Saturday morning from nine to eleven o'clock. The dispensary is intended for the benefit of patients too poor to pay for medical attention and who may be for various reasons unable of unwilling to go to a sanatorium. The physician in charge will examine and when necessary prescribe for such patients. It is the intention to use as few drugs as possible, depending mainly upon the fresh air and forced feeding treatment. To such as may upon investigation seem worthy it is the intention to distribute milk and occasionally eggs. In places where the probable number of patients is great enough to warrant such a step, a visiting nurse will be employed to assist in the work.

Measles and typhoid fever are some of the problems which the health officials and physicians of Jamestown are wrestling with these days.

A Kittingen special says: Alonzo Huff of Johnsonburg, whose wife and little son were killed and whose two little daughters were seriously injured in a wreck at Kelly's station last Aug. 6, has settled with the railroad company for \$12,000.

The residents of Johnsonburg, Elk County, are somewhat alarmed over the rapid spread of typhoid fever at that place. Fifteen cases have been reported recently but for several days no new cases have developed and the authorities think that all danger is past.

Columbus, Pa., near Corry, had a burglary scare Friday. Some one broke into the E. C. Barnes store and the Erie railroad station, securing goods and cash aggregating several hundred dollars. Local talent is suspected on account of many similar jobs committed within a year.

Charles Sumner Horton, president of the Central Pennsylvania Lumber Company and one of the foremost manufacturers and railway men of that section of Pennsylvania, died suddenly at Williamport Wednesday evening, aged 44 years. Mr. Horton was attacked by acute indigestion and died within two hours. He leaves a wife and two children.

Word has been received here from the officials of the Western Penitentiary that James Ryan, who was tried at the last term of court here on the charge of carrying nitro-glycerine and burglary tools, convicted and sentenced to the penitentiary, is dead. It is reported that typhoid fever was the cause of his death. Ryan was taken to the penitentiary about two weeks ago and complained at the time of not feeling well. He was the man from whose pocket the nitro-glycerine was taken that caused the terrible explosion which injured several trainmen in the Pennsylvania yards at this place last August.—Ridgway Advocate.

On November 16th Frank DeVilder, while walking down the track of Clough's Railroad below the Beaver Meadows, noticed a fox on the track. His front feet were on the rails as if in the act of crossing. Mr. DeVilder shot but the fox remaining as at first noticed. Upon a closer inquiry it was found that the shot bit the cross the just underneath the animal and Mr. DeVilder proceeded to slay him with the butt of his gun, when he found to his surprise the front feet of the fox were frozen fast to the rails. Mr. DeVilder brought the fox to town Saturday and Esquire Brockway paid the bounty. The huntsman is willing to be qualified to the truth of the above facts.—Marienville Express.
