Teachers' Institute.

The forty-first annual session of the Forest County Teachers' Institute convened in the Court House, Monday afternoon, and gives every promise of being one of the best ever held in the county.

After devotional exercises, conducted by Rev. Mr. Platt, Prof. W. R. Egbert was introduced and spoke upon "Language Work." He emphasized the importance of teaching language through the story, and brought out the fact that the story, to be used effectively, must be told, or acted, rather than read. In this way the teacher comes in closer sympathy with the pupils.

The second address to the institute was by Dr. C. H. Gordinier, dean of KeeMar College, Hagerstown, Md. After greetings to the teachers, Dr. Gordinier stated how several years sgo, a young man Besides several recalls Miss Lanson while in a bibulous state had often told responded to two encores. Altogether the him that "Business is Business." Why young planist played from memory should not the schools be run on the same business principles as any other with truth that her versatility is very line of industry. The capital of a business man consists of money, knowledge The recital was one of the season's of the business, character and health. events for music lovers, and Mr. Cannon The teacher's character consists of acais to be congratulated on his pupil and demic knowledge, professional training, the complete success of last evening .character and health. The business man must have enough money in bank to be able to discount his bills. He mentioned the impartance of discounts in business It is not the quantity of food taken but the amount digested and assimilated that life. So the teacher must always know more than he teaches-in other words

stances related by the speaker of teachers

who could and those who could not dis-

count their bills educationally. 2d .- Ne-

cessity of the business man's knowing

ional training on the part of the teacher. Attention given in recent years to the how as well as the what, 3d .- The importance of character. The teacher's character is usually above reproach, but sometimes lacking in small things. Character is shown in dress, in keeping out of debt, etc. Instances cited, 4th.-Health. Brain-workers a long-lived class. No reason why the teacher should break down. Importance of health-cold bath every morning, enough sleep, proper food and exercise, and worry reduced to a minimum. The teacher should take stock of his capital as does the business man, and make an effort to strengthen it wherever impaired.

The music is in charge of Prof. F. A. Wheeler, with Miss Olive Lanson as pianist, and is an interesting and exceedingly valuable feature of the sessions.

The entertainment Monday evening by Shungopavi and Company was a decided success. The court house was crowded and the audience delighted.

Tuesday morning session opened with devotional exercises conducted by Prof. Egbert, after which the following organization was announced:

Officers-President, D. W. Morrison: Vice President, C. F. Feit; Secretary, Blanche Hunter.

Enrolling Committee-Bess H. Byers, Alice McCrea, O. B. Kelly, Executive Committee-A. W. Jones, D. W. Summerville, H. H. Mahey, Raymond Russell, Orion Allio,

Prof. Egbert resumed his discussion on language training, giving special attention to the aim to be considered in teaching composition, and also to the details which constitute the elements of effective work.

Prof. Peirce, of Ridgway, took up the subject."How to be Happy Though a Teacher," and discussed the various things which go to make the teacher's life happy. Special stress was placed upon the magnitude and importance of the school as a factor that should bring a feeling of pleasure to the teacher. Emphasis was put upon the fact that to be happy in her work the teacher must be well prepared both in subject-matter and in methods of teaching, and must also know her pupils,

The last period of the morning was occupied by Dr. Gordinier, who gave a discussion of the subject, "The Art of Questioning." The speaker illustrated the topic with examples of faulty questions, showing how teachers unconscious ly suggest answers, either by the form of the question, or by tones of the voice.

Tuesday afternoon session opened with in address, "What Do You Know," by Prof. Peirce, after which Prof. Francis A. Wheeler, Jr. favored the institute with a vocal solo. Prof. Wheeler has a magnificent voice and his efforts deserve the highest commendation.

Prof. F. A. Wheeler, the musical director of the institute, gave a short talk on the methods of teaching music to beginners. The fundamental point is voice training, and much practice in tone-formation is necessary to bring about proper results.

The afternoon session closed with an earnest and able address by Dr. Gordinier. The subject, "The Rule of Three," was used to show how hope, based on faith and multiplied by charity, developed character. Tuesday evening the feats of magic of

Hal Merton gave good satisfaction to an audience that filled the court house to the doors. Prof. F. A. Wheeler, Jr. gave another fine vocal solo and was obliged to return and bow to an encore from his delighted auditors.

Following is a complete list of the teachers in the county, ten of whom are absent from the institute:
