FLEET AT RIO JANEIRO.

Hearty Welcome by Brazilian Government and Citizens.

Trains Under the East River—For Prevention of Mine Disasters—Candidates of Governor Hughes—Resumption at Big Steel Plant—Schmitz Judgment Overruled.
 The American battleships entered port of Rio Janeiro at 3 p. m. Sunday after a passage from Port of Spain, Trinidad, more than 3,000 miles, unmarred by serious accident, replete with interesting incidents and ending with a royal welcome from the thousands that had gathered to greet the visitors.
 The fleet weighed anchor at 4 o'clock on the afternoon of Dec. 29 at Port of Spain, and exactly at 4 o'clock Sunday the vessels were swinging at their anchors in this beautiful harbor. All of the battleships are here, but the supply ships Calgosa and Glacier are still at sea, not having been able to keep along with the others. The fleet has now covered about 4,600 miles, about a third of the distance of the voyage to San Francisco.
 Four firemen went to their deaths in New York city when they re-

sponded to a fire that burned the Parker building, a twelve-story business structure occupying the block between East Eighteenth street and Nineteenth street on Fourth avenue, Friday night. Fought by half the firemen of Manhattan and apparatus that blocked the streets for blocks, the flames were never controlled and only with difficulty confined to the building in which they originated. Floor after floor gave way and dropped to the basement, and beneath these no less than thirty firemen were caught and either killed outright or seriously injured.
 When the fire had burned itself out and the firemen's roll was called four firemen failed to respond.
 On the top floor in the Suffolk; Engineering company's establishment, six men were at work. Their escape was cut off and they fled to the roof. Flames had surrounded them on three sides and they were in imminent danger of death when rescued by means of a life line shot from a mortar gun manned by a hook and ladder company on the roof of the Firemen's hotel adjoining.
 The hotel is seven stories high and from its roof a rope was fired across the top of the burning building. There it was seized by the imperilled men and the free end made fast about a chimney. Down this rope hand-over-hand dropped the six men to safety. Meantime the Florence hotel had been emptied of its 200 guests and nearby houses vacated.

Cape Frio, forty-five miles away, was received at 8:45 o'clock and immediately scores of tugs and other small craft, crowded with spectators, set out to meet the visitors and accompanied them to the anchorage. Outlined against the horizon the great battleships, stretched out in one long line, came slowly through the passage into the bay. The Connecticut, Rear Admiral Evans' flagship, was in the lead, with the Brazilian cruisers, dressed in gala attire, on either side.
 Passing the fortress, the Connecticut fired a salute of 21 guns, which was responded to by the Brazilian warships, the German cruiser Bremen and the shore guns. The yards and fighting-tops were manned and cheers upon cheers were given for the splendid passage of the flagship and her sister ships.
 Outside of Rio Janeiro a Brazilian fleet consisting of three cruisers, accompanied by the American tender Yankton, met the American warships off Cape Frio and after an exchange of greetings steamed with them along the coast and into the roadstead.
 A hearty welcome was extended to the officers and men by the minister of marine in the name of the Brazilian government and the navy. Bands played and whistles blew, with the waving of many flags, as the American ships streamed proudly through and dropped their anchors.

Trains Under the East River.
 The first of the series of tunnels connecting Manhattan with Brooklyn on the one side and New Jersey on the other was opened for traffic shortly after midnight on Thursday last, when the initial passenger train left the Bowling Green station of the Interborough subway, and dipping down the inclined tracks to the Battery, far below the surface of the East river, entered one of the long steel double tubes that parallel each other under the river to Brooklyn.
 The opening of this tunnel is regarded as a long step toward the solution of the transportation problem of New York, as it brings New York and Brooklyn closer together and gives an outlet to Manhattan's millions by bringing the thinly populated territory of Long Island within easy reach of the center of business.
 The opening of the Battery tunnel will serve to relieve, to some extent, the Brooklyn bridge "crush."
 Three Presidential Possibilities.
 Three presidential possibilities are expected to make addresses at public functions. On Tuesday Secretary Taft will address the Ohio society in Philadelphia. Mr. Bryan will be the guest of honor at a dollar dinner in Lincoln, Neb., Wednesday evening. Governor Hughes is scheduled for two speeches on Friday, one before the West End Women's Republican association of New York and the other at the annual dinner of the University of Pennsylvania also in New York.
