OUR BUSY CONGRESSMAN.

He Is Not In Washington for Strictly Ornamental Purposes.

A Washington dispatch to the Oil City Blizard, under date of 13th inst., says: In the drawing for office rooms in the House on Thursday last Congressman Nelson P. Wheeler secured a well located room on the third floor of the new office building, but overlooks the court of the building. The room is over 25 feet long by 16 feet wide, and is handsomely furnished, including roller top desks for Mr. Wheeler and his secretary, Gus B. Evans. Mr. Wheeler has given up his room in the Colorado building and after February 1 will make the new office building his headquarters, where either he or Mr. Evans will be found during business hours, and can be reached through the Bell long distance telephone in the rooms, if haste is necessary.

Congressman Nelson P. Wheeler, with his usual push and energy, has undertaken to secure for a number of citizens of Western Pennsylvania damages from the Government due to the new Government dam on the Allegheny River at Springlake. This is a meritorious matter and although Congressman Sibley introduced a bill on this subject in the last Congress it was never pushed. The story surrounding this claim is brief and interesting. About three years ago, when the new Government dam at Springlake was supposed to be in operation, a number of lumber and coal men along the river were advised in the fall of the year that the dam was all right and that they could cross it with their rafts or barges. As a result they sent their craft down the river, but when the dam was reached it was found that they could not cross it. Consequently, they were compelled to tie up above the dam, their crafts were frozen with the ice and when the spring freshet arrived, barges and rafts went down with the ice when it broke up and were a total loss. Consequently, as the Government owns the dam it is believed that the losers should receive due compensation.

Acting in conjunction with Congressman Beale of Leechburg, who had a number of constituents who were losers in the same affair, Mr. Wheeler proposed to push the matter vigorously, and Mr. Beale has introduced a bill authorizing the payment of damages as follows: J. S. Henderson & Co., Forest county, \$500.

G. A. Hahn, of Clarion county, \$885. Neely Brothers, Clarion county, \$749.80. Truman & Taylor, of Jefferson county, \$628.86.

D. L. Taylor & Co., of Jefferson county, \$822. J. B. Rhea, of Jefferson county, \$78.25. J. B. Miller, of Clarion county, \$1,834.10. Emulation Lumber Company, \$12.34. Bell Brothers, Elk county, \$1,392.95. C. G. W. Stover, of Clarion county, \$228.60.

I. D. Doverspike, of Armstrong county, \$345. W. A. Crossman, of Forest county, \$3,057.62. D. Steiner, of Clarion county, \$327. A. W. Wallace, of Forest county, \$635.92.

Josiah Work & Sons, of Fort Morgan, Col., \$948.83. J. G. Morrison, of Clarion county, \$90. Heater & McClune, Clarion county, \$2,143.35. S. C. Barr & Co., of Jefferson county, \$1,850.91.

Buzard & Agnew, of Elk county, \$600. Marvin Ruloison & Co., of Clarion county, \$2,025.12. George F. Whitmer & Co., of Clarion county, \$1,475.

R. A. Grazier, of Clarion county, \$369.52. East Brady Lumber Company, of Clarion county, \$1,591.64.

Congressmen Wheeler and Beale have already secured the promise of support from Congressman Cooper, of Uniontown, and Barclay, of Sinnemahoning, and will undoubtedly secure the assistance also of the remaining members of the delegation.

THE New York Tribune very truly says that it is to be hoped the present Thaw trial will be conducted with less regard to a certain public appetite for sensationalism than was the last. A trial is conducted primarily to obtain justice, not to afford a field for the posturing of counsel. The previous hearing of this case created unfavorable comment throughout the whole world upon the operation of our criminal trial system. It is incumbent upon Judge and counsel alike to see to it that no such impression is created this time.

Leaders in Japan Are Uneasy.

Tokio, Jan. 14.—Incoming cablegrams indicating an overwhelming sentiment in America in favor of an exclusion act are causing much uneasiness to leaders of all shades of politics, who have repeatedly expressed the conviction that the Americans did not desire to discriminate against the Japanese and would accept the attitude of the Japanese government as evidence of its desire not to embarrass the American government and at the same time to save the amour propre of the Japanese. Uneasiness has been intensified by the delay of a reply from Washington to the Japanese note of Dec. 31.

Neighborhood Notes.

The Meadville Health Board has decided that no milk shall be sold in that city from cows which have not passed the tuberculin test.

A Franklin committee is to bring quo warranto proceedings to annul the charter of the water company of that city, owing to its furnishing bad water.

Among the decisions handed down by the Supreme Court at Philadelphia is the case from Kittanning affecting every municipality in the Commonwealth, that of Kittanning brought against the Consolidated Natural Gas Company. The borough passed an ordinance taxing gas mains laid in the street. The company refused to pay the tax and the borough brought suit in the county courts to recover \$1,700, winning its fight. The company appealed the case and the Supreme Court affirmed the lower court, deciding that such a tax can be collected. The borough has cases pending in the courts against the telephone and telegraph companies, and it is believed that this decision will apply to them also.

James Pierce, of Ninevah, Clarion county, has a curiosity in the form of a sleeping groundhog. Two weeks ago he and some other lads attending the Ninevah county schools were playing near the coal shed of the school when Pierce broke through the top of the ground into the burrow of the woodchuck. The boy carried his captive home and put it in an outhouse. The change of domicile has made no difference in the habits of the captive, which, for the past two weeks, has been asleep as soundly as though under ground. Two years ago one of these animals was found in the quarries near Siverly by a stonemason boarding at the City Hotel. He carried the animal to the hotel, and after it had been quartered in a box in the office for three days, it recovered consciousness and was as lively as though the season was midsummer.—Derrick.

Brazil Reduces Import Duties.

Rio Janeiro, Jan. 14.—President Penna has given orders to make operative the decree of June 20, 1906, reducing by 20 per cent the import duties on certain American products. The rebates granted under this decree affect wheat, flour, condensed milk, manufactures of rubber, varnishes, typewriters, refrigerators, pianos, scales and windmills. The duties on breadstuffs have long been a subject of dispute between Brazil and the United States. This action was taken by President Penna in view of the favor accorded Brazilian coffee by the United States, and to commemorate the visit of the American battleship fleet.

An R. F. D.'s Advice to His Patrons.

The first is, keep the snow shoveled away from the boxes and off the tops. Put the stamps on all the mail you send and do not leave pennies in the boxes for the carriers to hunt out of the snow and freeze his fingers. Just think of yourself and how would you like to be out all day and never warm your fingers once and then handle snow and dig for pennies. Please buy stamps. Do not bother carriers with small packages unless the necessary stamps are attached to them. Don't bother to ask them every day for the correct time; he don't like to unbutton all his coats just to see what time it is, for then he gets cold to travel the rest of his journey. Don't expect a ride when he is on duty, for his horses are tired and need a rest. Don't stop him on the road for your mail unless it is absolutely necessary, for he has your mail packed so it will come handy when he arrives at the boxes for which it belongs. Remember, the most of all, if you want your mail delivered, see that the roads are kept in good condition and free from snowdrifts. Ask your supervisors and tell them to make arrangements to keep the roads in a passable condition the year through. This is a duty of yours and not of the carriers. If the roads are not kept open the department will stop the service and you will have to go to the postoffice for your mail. Don't think that because you have a mail carrier that he must do just as you want him to; he has his laws to go by and he has to obey them or get out of the service. Keep the wagons out of his way where he drives up to the boxes, for he is forbidden to dismount to deliver and receive mail matters, and in such case is ordered to take the mail back to the office. Weigh all the packages you send and attach the necessary stamps before you offer them to the carrier. Write your letters before the carrier comes in sight and have them in the box ready to go so as not to keep him waiting, for he is not allowed to wait for them. The carrier sells stamps. Take a half dollar to the carrier and get stamps, and then put one on every letter you write; don't think that the carrier will always take your pennies, for if he happens to freeze his fingers he may get provoked and leave you with your pennies.
