When they were compressors to keep up a pressure of 25 brought together both instantly recalled pounds on our main line, which supplies the rafting trip from Cincinnati to Louis- gas to the boilers and towns. Sometimes ville and exchanged many interesting in the morning when the pressure is low, reminiscences of their younger days we run this compressor. It was a valve of this small machine that unscrewed and which let the gas into the building. The valve blew out, that let the natural gas out, and when it reached the sparker of the big gas engine it set it off, and split Kane, committed suicide Wednesday by the building in two. It tore up the pipes overhead and took fire, but the fire was gotten under control, as in five minutes

there were a hundred men on the ground. In our plant we have every appliance & Pittsburg Railroad near Bradford Sunthat we think is necessary for the safety day night, were instantly killed by a of the men; we have relief valves at every point where there may be danger from overpressure. The whole plant is lighted by electricity, each light has double yphoid and several cases were reported safety bulbs. The building is heated by steam generated 60 feet away. We people to continue to boil all water used thought every point was well guarded, but we see now that a check valve between the main line and that small compressor would have probably held the

gas, so that it would not have got into the

building. We have one in now, and new safety sparkers also. I do not think that an explosion of this kind should discourage anyone, even if it had been from the gasoline compressor, We are engaged in a business that has great difficulties and discouraging things to meet; we expect to meet them in the right way, and overcome them. The and subdue, and bring these dangerous elements under complete control and make them serve us. If any of us should stalled in the Sharon plant of the Carnedie in the efforts, it might pull at the heart strings of those who remain, but there are plenty of other men to fill up January, A. D. 1908.
