This gratifying feeling is assured by the beautiful new models shown now for the first time. All these suits were designed and tailored by the best talent available. They're artistic productions and are positively right in every detail. Ask to see the "Madam Butterfly" and the "Merry Widow" models -both are very catchy.

WASHINGTON CITY-THE MAGNET OF THE PEOPLE.

The eyes of eighty million American people are now on Washington, the Capital of the Nation.

The wheels of the National Government are now in full motion. Congress is in session and the busy whirl of the legislative mill is intensely interesting. Many hours may be spent in the Senate or House gallery watching the legislators at work.

The Capital itself, aside from its importance as the home of Congress and of the United States Supreme Court, is an imposing building. Seven hundred and fifty-one feet long by three bundred and fifty feet wide, its massive proportions are visible from almost every section of Washington. The great dome in the center surmounted by the statue of Freedom, towering three hundred feet in the air, looks out over superbly-kept gardens and hundreds of handsome buildings in which are hous-

ed the many departments of the Government. The other workshops of the Nation are also well worthy of a visit. The White House, the home and office of the President; the State, War and Navy Building, with its museums and models; the Treasury Building, with its huge vaults; the Bureau of Engravig and Printing where the postage stamps are made and banknotes are printed; the Government Printing (flice, the Patent Office, and the Congressional Library; the National Museum, the Smithsonian Institute, the great Monument, the new Union Station are all attractive features of the Capital City.

Fine hotels, magnificent private residences, erected by those who are making Washington their home, not only during the official season but the whole year round; handsome public buildings, ornamented circles and superb statues make Washington one of the most beautiful cities in the country, and well worthy of comparison with the other capitals of the world.

The service of the Pennsylvania Railroad to Washington serves a wide territory. Its trains afford a direct means of reaching the National Capital, and tickets at reasonable rates are on sale at all ticket offices.
