# JUDGE PARKER ADMITTED

# To Practice Before the Supreme Court

Washington, May 19 .-- Judge Alton B. Parker of New York was admitted to practice before the supreme court of the United States. The motion for his admission was made by former Solicitor General Whitney, who content ed himself with a simple presentation

Chief Justice Fuller smiled as he recognized the applicant and merely directed him to the desk of the clerk member of the bar of the highest court in the United States.

Judge Parker immediately entered his appearance in the New York 80cent gas cases.

He moved the advances of the cases to be heard at the beginning of the next term of the court, and the motion was granted, the hearing being fixed for the first Tuesday after the re-convening of the court and after other cases which have been set down

tute for all of the Appalachian-White Mountain forest reservation bills that have been introduced at this session the house committee on agriculture agreed to report favorably a bill creating a commission of investigation. The commission is to consist of five memhers of the house and five members of the senate, and is authorized to inquire during the summer recess into the project of federal acquisition of some millions of acres of timbered and cut over lands in the Appalachian and White Mountains chains for the preservation and improvement of the navigability of streams having their sources therein. For the expenses of this inquiry the bill appropriates \$20,

Harry K. Thaw's plea for his lib erty from Matteawan insane asylum where he was been confined since his acquittal for the murder of Stan ford White, will probably be decided by Judge Morschauser at Poughkcep sie, N. Y., on Monday, May 25. The hearing in the habeas corpus proceedings brought by counsel for Thaw ended late Saturday night after District Attorney W. T. Jerome of New York had made the sensational request that Thaw, whom he had called to the stand, permit his alienists to examine Thaw and judge of his mental condition, as heretofore they had had no opportunity to converse with the defendant.

Thaw was not permitted to respond. the court itself telling him not to do The judge, however, suggested SO. m. ; M. E. Sabbath School at 10:00 a. m. m. : M. E. Sabbath School at 10:00 a. m. and Peabody, and Drs. Pilgrim, Evans and Jelliffe, who had testified that Thaw was sane, went into the judge's private room and after a conference lasting a little over an hour came back into the courtroom and said that Thaw would submit to a personal examination, but not by the alienists

who had appeared for Mr. Jerome. The alienists who should make this examination, it was stated, should be selected from some who had never appeared in the case. Another condition was that the examination should be restricted to a personal study of the relator and should not be founded on testimony of previous trials. District Attorney Jerome instantly

Thaw was on the stand but a short time before Jerome sprung his surprise, and answered the few questions put to him generally without much hesitation.

Both sides have agreed to offer no arguments in the case, but each will present briefs on the constitutional question raised by Thaw's counsel that was unconstitutional. These briefs will be handed in early this week.

Not a "declaration of independence" but a declaration of co-operation. Perhaps greater in importance than all else was the determination of the governors of the states to perfect a permanent organization, whereby a heretofore unknown intimacy may he developed among the executives of the forty-six sovereign states, made strong by a common purpose, and made potent by pronouncements which may

not lightly be disregarded. Allegheny National Bank Closed.

The Allegheny National bank of Pittsburg, whose former cashier, William Montgomery, is in jail, specif-Ically charged with the misappropriation of \$594,000, while officers of the bank and of the treasury department pre trying to fathom still larger apparent discrepancies in the bank's funds, did not reopen for business Monday and the comptroller of the currency has taken charge and will close up the affairs of the bank.

The suspension of the bank, it is besteved, will have practically no effect upon commercial or financial institutions of the city. It has been largely discounted by the events of the past week and besides the private and commercial deposits of the bank are very small, amounting to net over \$300,000.

The bank as city depository carries about \$1,500,000 of the city's funds and as an active state depository over \$500,000 of state funds. It is possible that the city may experience some in- did so under duress and was comconvenience in having the funds tied up for a time, but it is understood that both the state and city are protected against actual loss by bonds of surety companies.

Minnesota Instructs For Johnson. The Minnesota state Democratic convention formally endorsed John A. Johnson as a presidential candidate and at the same time by a vote of 772 to 166 refused to declare in favor of William Jennings Bryan as a second choice. The followers of Mr. Bryan did not

carry out the threat they have so often made that they would bolt and hold a "rump" convention if their contests were defeated before the committee on credentials, or if they were not able to secure a partial endorsement of their leader. They made a sturdy fight for their man, and when they had been overwhelmingly defeated remained quietly in their seats and made no motion to leave.

MAE C. WOOD'S SUIT. Governor Hughes Signed the Bill of Asserts She Was Secretly Married to Senator Platt In 1901.

Her Counsel Introduced a Certificate Which She Said Had Been Handed Her by the Minister Who Performed the Ceremony-Says Papers Were Taken From Her Under Duress.

New York, May 19 .- Mae Catharine Wood was on the witness stand all day testifying in her suit for absolute divorce from United States Senator Thomas C. Platt before Justice O'Gorman in the supreme court.

In support of her assertion that she had been secretly married to Senator Platt at the Fifth Avenue hotel on Nov. 9, 1901, her counsel introduced in evidence a marriage certificate, which she said had been handed her by the minister who performed the ceremony. and copies of a number of letters, alleged to have been written to her by the senator, addressed in terms of endearment.

Left Papers In Hummel's Office. On cross-examination Miss Wood told how she came to give up the papers and letters she possessed relating to Senator Platt, alleging that she pelled to sign a receipt for \$10,000 in

settlement of all her claims against the senator. This, she said, was the result of representations made to her in the office of A. H. Hummel, in this

city, in the fall of 1903. Miss Wood in her suit named as co respondent Lillian Janeway, whom Senator Platt married in 1903. Senator Platt was not in court. Miss Wood was under cross-examination when court adjourned for the day.

On cross-evamination Miss Wood said she is 42 years old, was born in Michigan, has been married and divorced, and has been a newspaper reporter, a school teacher and a lawyer. She did newspaper work in Omaha and also was admitted to the bar in Nebraska, she said. Going over her relations with Senator Platt, she said that she and the senator had trouble at one time, but that it was "patched

up" in April, 1903, and she wrote to him. She last saw the senator to speak to him on Aug. 18, 1903.

The new law provides that the board of education or superintendent of education shall appoint an advisory board of five members, representing the local trades and industries, two of which shall be appointed for one year

and three for two years. The board of education or superintendent of education is empowered by the act "to employ competent teachers or instructors to provide a proper

course of study, to purchase or ac quire sites and grounds and to pur chase, acquire, lease or construct and to repair suitable shops or buildings, and to properly equip the same, and to purchase necessary machinery, tools,

apparatus and supplies." All such schools maintained for 40

weeks during the school year, employing at least one teacher and having at least 25 pupils, will receive \$500 a year from the state, and \$200 for each additional teacher employed exclusively in such school for 40 weeks during the school years.

Fair Associations Bill Signed.

Governor Hughes signed the bill of Senator Allds providing for the annual appropriation of a sum of not less than \$250,000 for county, town or other agricultural or fair associations. The appropriation is made for "the promotion of agriculture and domestic arts, for the promotion of education along agricultural lines, and for the promotion of the improvement of the breeding of cattle, sheep, horses and other domestic animals." The present law under which the agricultural societies receive a certain percentage of the gross receipts of racetracks, makes the appropriation "for the breeding of cattle, sheep and horses.'

#### Last Week of Congress.

Both houses of congress began business Monday with the idea that this will be the last week of the present session, but opinions as to the exact date of adjournment vary all the way from Wednesday to Saturday. It does not seem probable that the conclusion will be reached before the latter day, but much will depend on the progress of the conference on the currency bill. There is some apprehension of a

probable veto of the omnibus public buildings bill and there will be no resolution of adjournment so long as there is any uncertainty as to what the president may do with that measure in case of adjournment before it is signed. It may therefore be set soon as it is known that the building bill will receive the presidential sanc-

tion. Senator Bulkeley will make an effort to revive consideration of the Brownsville question in the senate.

Senate Substitutes Aldrich Bill. The Vreeland currency bill, which was passed by the house Thursday, was delivered to the senate and sent to committee on finance, Senator Aldrich promptly made a report from the committee substituting the Aldrich bill in an amended form for the house measure and in that form it was passed by the senate. This action threw the bill into conference and an effort will be made to reach an agreement at an early day.

The amendments were confined to the elimination of matter incorporated in the original Aldrich bill after it was reported from the committee.

#### Conference of Governors.

The first conference of the governors of the states of the Union is ended. Like many of the important events of history, time is needed to reveal the epoch which the president and the governors believe has been made. The accomplishment of the conference which has been in progress at the White House for three days cannot be set forth with mathematical precision. That its immediate results are more than ample is the expression of President Roosevelt, who brought it about, and of the governors who participated.

The printed record of the conference, which will later be available to every American home, will be a compilation of facts startling in their meaning, convincing in their universal conclusion that the states must act, and that the states and the nation must co-operate to the end that to the whole people of the nation may accrue the lasting benefits of its natural resources.

deciding to rest. The N. Y. Herald's estimate of the strength of the aspirants for the R>publican nomination showed Mr. Taft practically assured of nomination on the first ballot.

President Roosevelt in speech at governors' conference urges that there be no borderland between state and nation where predatory corporations can escape punishment. Tuesday.

Little disorder occurred in the Cleveland Street Railway strike and several lines maintained their usual schedules of runs.

The N. Y. Herald's Washington dis patches estimated that W. J. Bryan's strength in the Denver convention would probably reach 800 delegates.
