\$150 for Best Article.

The Republican Congressional Committee offers \$150 for the best article not exceeding 1,000 words on the subject: "Why the Republican Party Should be Successful Next November." The competition is open to all. In judging the merits of contributions consideration will be given not only to style, arguments and facts presented, but to the convincing power, and it should be borne in mind that Members of Congress are to be elected as well as President and Vice-President. No manuscripts will be returned, but will be the property of the Committee. The best article will be widely used both in the newspapers of the country and in pamphlet form.

The award will be made and check sent to successful contestant about August 15th. Manuscripts must be mailed not later than July 15th to Literary Bureau, Republican Congressional Committee, Metropolitan Bank Building, Washington, D. C.

HEAVEN help us! Here's the first one, and it from the Oil City Blizzard: "Taft and Dolliver'd be a ticket to holler fer."

THE shops of the Erie railroad at Meadville, in which, after a long layoff, work was started recently, on Thursday of last week resumed their full time schedule.

AS SOON as the Democratic party gets tired of one-sided campaigns it will send Mr. Bryan to the rear. He represents chiefly a philosophical willingness of the party to get licked until sanity returns.

IN THE Denver Convention no delegates will be allowed the Philippines, but Hawaii gets six. The party has made some progress since it pulled down the flag in the last Democratic administration.

SECRETARY CORTELYOU, of the Treasury Department, has sent out advertisements asking for bids on public buildings to be provided for Corry, Ridgway, Titusville and Kittanning. The bids are to be opened July 6.

WESTMINSTER COLLEGE at New Wilmington, is to have an agricultural department. It is expected the college authorities will take steps to have a State experimental farm located on one of the college properties now idle.

FREE Employment Agent Gerow, of Topeka, Kas., has already begun advertising for men and teams to assist in the coming grain harvest. He calls for 21,500 men and 1,192 teams. The harvest is expected to begin in the Southern belt about June 15. Farmers will pay \$4 and \$5 a day for man and team.

THE new state of Oklahoma is making great preparations for adding a new star to the national emblem, "Old Glory," on the Fourth of July. A flag is being made in Oklahoma by ninety-two women, each of whom will sew on a star—forty six on each side of the blue field—and the flag will be flung to the breeze for the first time over Independence Hall, Philadelphia the forty-sixth star of which will be sewed on in the Betsy Ross Flag House, where the first flag was made, to betoken to Oklahoma.

AFTER being out 22 hours, the jury in the case of the men charged with conspiracy to defraud the state, by rendering a false bill for metal furniture for the new capital, brought in a verdict of not guilty Saturday. Three of the defendants, Matthews, former auditor general W. P. Snyder and James W. Schumaker, former superintendent of public grounds and buildings, were acquitted on binding instructions from Judge Kunkel, leaving to be determined the innocence or guilt of Congressman H. Bard Cassel and Joseph M. Huston, the other accused men.

Sensible Report on the Fish Laws.

President James H. Warden, of the State Game Commission, Carl Stewart, Isaac Miller, S. S. Rupp, A. Coleman Sheetz, Representative E. E. Feldman and Willard R. Black, all well known sportsmen and residents of Harrisburg, formed a committee of the State Sportsmen's Association appointed to draft a report on the working of the fish laws, to be presented at the meeting of the State Sportsmen's Association, held recently in Bradford. This committee did more than make a report. It drafted a new fish law, which will no doubt be presented to the next legislature. This new law provides for the better protection of game and food fish and fixes penalties for its violation. A synopsis of its provisions follows: The open season for bass, pike, salmon, pickerel, sunfish and musk-

longe shall be from June 1st to February 15. A penalty of \$10 for each fish caught out of season.

No penalty shall be imposed unless the fish shall have been actually caught.

Fish classed as game fish shall be taken only by rod, hook and line, and the number of rods, hooks and lines to be used by any one person is not limited.

A fisherman may take in one day forty trout, fifteen bass, thirty pickerel, thirty pike, fifteen Susquehanna salmon, or five muskellonge.

Eels, catfish, suckers, carp and mullet may be caught with outlines from May 1st to December 1st.

A warrant may be issued before an arrest can be made for violation and one-half the penalty goes to the informer and one-half to the state, except when the informer is a fish warden when the whole fine goes to the state. Before paying a fine a man charged with violating the law can give bail and take an appeal to a higher court. At present a man must pay the fine at once or go to jail.

This new law does away with the right of a fish warden to arrest a man on suspicion of "fishing for" certain fish. The man must have the fish in his possession.

The committee took occasion to say a few plain words concerning the fish department in general. It speaks of the bitter feeling between the people and the Department of Fisheries, and says the fish law as it stands now is not as it should be, and appears to have been drafted "more with the idea of collecting revenue than for any other purpose."

A glaring wrong, it says, is that clause which makes a fisherman liable to a penalty, not for killing or injuring fish of any kind, but for doing "something that can be construed by some person to be an attempt to kill or injure fish, and the equally vicious provision that makes a man liable to a penalty when no wrong has been done. We refer to the words 'fish for,' and also the words that impose a penalty for taking fish by means of any device not specifically permitted. These words upon their face appear innocent enough, but when considered carefully and connected with certain rulings and constructions placed upon them by the officers of the Department of Fisheries, appear to us to be veritable mints of coinage in at least three directions: Dollars to the fish wardens, injustice and persecution to fishermen, and last but not least, the increase of that tendency found among people of all classes to oppose, not only a harsh law itself, but also to oppose the power that created or supported that harsh law."

The report also suggests that the size limit of trout taken should not be limited, and that a man may fish with as many hooks at one time as he sees fit to use.

There is a whole lot of sense and common decency in most of the suggestions of these men, who have watched closely the workings of the law as it now stands, and it is hoped the next legislature will contain a sufficient number of men with brains enough to formulate and pass a law that cannot be used to hamper and harass true sportsmen.

Neighborhood Notes.

Mrs. Trunkie, widow of the late Supreme court Justice John W. Trunkie, died at her home in Cleveland on Sunday evening, aged 76 years.

"Blind Tom," the once famous negro musician who excited the wonder of the world with his powers of imitation on the piano for many years, died at his home in Hoboken, N. J., Sunday, aged 58 years, in abject poverty.

A communication received by the Bradford Record from Eldred says that the biggest trout of the season was caught in Knapps Creek at Prentissville by Lewis Loop. The fish is said to have weighed 7 1/2 pounds and was 28 inches long. It is said that it required two hours' time to land the big fish. A photograph of the trout was taken by Constable Halter, of Eldred.

Freeman E. Hertzell, president of the Warren National bank, had a thrilling experience last Monday. He was fishing on Mead Run, in the vicinity of Morrisson, and ran across a large black bear. The animal first retreated and then came back in a vicious manner and Mr. Hertzell took to the tall trees. It is probable that the bear had some cubs which she feared might be harmed.

Reports from sections of Mercer county, in the vicinity of Sandy Lake, indicate that the ravages of the army worm promise to make a shortage in the fruit crop. In and about Sandy Lake and in Lake township, the worms have stripped the apple trees of foliage and fruit and the trees are bare as in the middle of the winter. When the cold snap of the late spring came on the farmers and fruit growers ceased to spray for pests, and following it, the leaves grew so fast and were so thick on the trees that the embryo worms could not be reached with sprays and insecticides used.

The trustees of the State Normal School at California, Pa., have decided upon important changes in the management of the school. That the normal school may not conflict with high schools, it was decided to limit the institution to the profession of pedagogy and only persons who expect to become teachers will hereafter be accepted as students. The directors take the position that the high schools of the State are now equal to all demands for preparatory schools for colleges and universities. To enter, students must in the future possess a high school diploma, a teachers' certificate or pass the entrance examinations.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best. -Pineules for the Kidney, 30 days' trial \$1.00. Guaranteed. Pineules act directly on the Kidneys and bring relief in the first dose to backache, weak back, rheumatic pains, kidney and bladder trouble. They purify the blood and invigorate the entire system. Sold by J. R. Morgan.

The School Directors' Convention.

Pursuant to the call of the County Superintendent, D. W. Morrison, the School Directors of Forest County met in fifth annual convention at the court house in Tionesta, at 1:30 p. m., Thursday, June 11th. In the absence of the President the convention was called to order by Vice President Rev. J. F. Scherer. The minutes of the previous meeting were read and approved. Upon call of the roll twenty-four directors answered to their names. The convention opened by some interesting remarks by Supt. Morrison. An interesting address was given by Dr. Bovard on Sanitary Conditions of Public Schools and relations to the State Health Department. Sanitary questions were also discussed by Rev. Scherer, Dr. Dunn and Supt. Morrison. An address by ex-Supt. Samuel B. Bayle, of McKean County, on the subject "The Director," was followed by an interesting address by Prof. G. W. Mitchell on the subject "What the Director Should Expect of the Teacher." The discussion was opened by Supt. Morrison, followed by T. F. Ritchey, Esq., Dr. M. C. Kerr and Rev. Scherer.

At the Thursday evening session, after several entertaining selections by Miss Gladys Sutton, Miss Genevieve Dunt and the Male Choir of the Presbyterian church, Prof. Bayle gave a very interesting address on "The American Youth and His Education."

Friday morning the convention was called to order by Vice President W. G. Wyman. Prof. Bayle gave a very interesting address on the "High School." Questions were asked by Dr. Morrow, Dr. Dunn and W. G. Wyman. This was followed by Dr. W. G. Morrow on "Selection of Text Books," also by Fred Klimesiver on the same subject, both speakers dwelling on the bad features of the present method of selecting the text books. George L. King read a paper on "The Relative Importance of Studies." Supt. Morrison started a discussion by asking questions as to the time devoted to the study of physiology, which was participated in by Rev. Bailey, Dr. Dunn and Dr. Morrow. Rev. J. F. Scherer gave a practical talk on the "Economy of Supplies."

No further business appearing, the convention proceeded to the election of officers, the following being unanimously chosen: President, W. G. Wyman; Vice President, W. G. Morrow and W. E. Jones; Secretary and Treasurer, George L. King. Adjourned to meet at call of committee. GEORGE L. KING, Sec'y.

Porkey.

We had one of the most welcome showers Sunday evening we have had for some time.—Mrs. Wesley Durnell of Hastings visited friends in town Friday of last week.—Mrs. Albert Lightner of Youngville visited at the home of Mr. and Mrs. Ed. Gillespie the past week, returning home Saturday on the evening train.—T. D. Collins of Nebraska accompanied W. A. Booth, V. P. Anderson and H. E. Gillespie, Supervisors of Howe township, to locate a stone bridge at Peltie Dell, returning on the evening train.

—Wm. Richards of Mayburg drilled in a good gasser last Friday on the Cook property, up Porkey Run. We understand this lot joins the Porkey Gas Co.'s lot, where the three wells were drilled recently, the last well being a duster.

Mr. and Mrs. Lennie Catlin of Sheffield, Mr. Griffin, his daughter Nellie and her husband, of Rouseville, visited at the homes of Mr. and Mrs. Lore and Mr. and Mrs. Welsh over Sunday, returning home Monday.—Martha Blum is assisting Mrs. Earl Downey with her work.—Mr. A. E. Highgate was called to Oil City Saturday on account of the serious illness of his little son, who was operated on a few days ago at the Oil City hospital.

Mr. and Mrs. Lafayette Littlefield of Russell City visited their parents in this place over Sabbath.—Quite a number of people in town attended the ball game at Bluejay, Sunday, Porkey getting beat.—A large number of the Kellettsville ladies took advantage of the beautiful weather, took the train and journeyed up the valley to Porkey, where they were met and welcomed by Mrs. Gillespie. At ten o'clock coffee and rolls were served which were enjoyed by all present. At the noon hour a large table was set on the lawn, which was loaded with everything that was good. Every one relished the dinner very much, some of the ladies retiring shortly after dinner, we are unable to say whether to rest the body or stomach. A number of ladies that missed the morning train came on the afternoon train. The day was spent in visiting, playing games and music on the graphophone by Mrs. Littlefield. All returned to their homes on the evening train, tired but happy. Come again, ladies. We are always glad to welcome you.
