JAPAN is likely to make baseball its national game. If Japan can beat Uncle Sam at the sport, Mr. Hobson will be justified in getting excited.

Goy, Jonnson is almost as enthusiastic for Bryan as Senator Foraker is for Taft. The only wildly enthusiastic man in the country is Judge Alton B, Parker,

HERE's a stinger from the Sacramento Bee: "The Independence party platform is a sheath gown cut to display the Hearst leg. But that member is too crooked to bear inspection."

LAST year Mr. Hisgen received more votes for governor of Massachusetts than were given the Democratic nominee. Mr. Bryan has reached the stage where he may run third in some of the states.

MR. TAFT's speech accepting the presidential nomination gives the plain indi- town. cation that the matter of filling the office is not a word of uncertainty in the entire speech.

A PARCEL can now be mailed from any post office in Bolivia, a distance of 4000 miles, for 12 cents a pound. The domestic parcels rate in this country is 16 cents a pound. Congress ought to explain why foreigners are allowed this advantage in the mails. It has become a glaring case of neglected home interests.

AT the latest trial the Zippelin airship, carrying ten men, landed on an island in the Rhine for slight repairs after a flight of 261 miles in twelve hours. The proposed yoyage of twenty-four hours failed, but the experiment generally was a success. And then the machine had to go about to show the world that airships are time.

WILLIAM H. TAFT believes in a navy that will be sufficiently strong, sufficiently active and sefficiently esger to move whenever American honor or American interests are in peril, and the result in November will show that the bulk of the voters in the United States are of the same patriotic belief.

THE PUNKY Spirit blurts it right out in meetin' this way: "A suffragette movement has been started in the United States, mainly for the purpose, probably, of giving some notoriety-seeking females an opportunity to get into the limelight. We had better wait until those already entitled to the ballot learn to use it with more intelligent discrimination before letting down the bars any further."

#### Sheatz Breaks Records.

State Treasurer John O. Sheatz has broken all records for the payment of the state school appropriation, the total disbursement for this object slone in the sixty days between June 1 and Aug. 1 argregating the magnificent total of \$4,069,141.78, or \$1,670,723 more than paid in the same period last year.

According to the statement of business at the treasury for the month just closed, the receipts of the treasury were \$3,152,-541.45 and the payment\$ \$4,955,819.90 over half of which went for school purposes. The general balance in the treasury at the close of July business was \$11,943,796,04, of which \$9,426,525 35 was in the general fund and \$2,517,270.69 was in the sinking fund. Of the balances \$523,000 is held by the Allegheny" National bank, which closed. The payment of school money is con-

sidered to be notable on Capitol Hill, as R. C. church, with interment in the it goes far beyond any record ever made cemetery at that place.

in the preceding administration. In addition there was drawn warrants for over \$50,000 more by the department of public instruction which did not reach the treasury in July. Mr. Sheatz stood ready to cash them. In all 1,811 of the 2,580 dis- sketch of Complanter, which appeared

Union shopmen employed by the Canadian Pacific struck in all shops on the system from the Atlantic to the Pacific, and all shops are idle. It is estimated that 12,000 men went out, the largest number being over 2,000 in Montreal. Fifteen hundred quit at Winnipeg, Two thousand left work between Fort William and Vancouver, all at the dictates of the executive committee of the various unions affected. Even older workmen in line for pensions went home. It seems to be the most extensive strike in the history of railway shops in Canada. All the workmen employed around the train sheds at depots went out and conductors and engineers caused some delay to trains by insisting that trains should be properly made up before they would take them out, Every wheel in the shops stopped and every pre died out when the whistle blew three short blasts, care-takers

and shop foremen alone being left to put the places in shape for the period of idleness bound to follow. The Canadian Pacific rallway officials' view is that the finding of a couclliation board, appointed at the request of the men, should be binding on

aims and ambitions of Mr. Hearst's Independence party as follows: "That there stockholders, is a distinct and definite theory is obvious. It is that the times, rich with the spirit of discontent, are ripe for the creation not of a new minor party but of a new major party. It is held by the dissatisfied element that the Republican party is indissolubly linked to mammonism, and that the Democratic party, whatever its platforms may say, is so in the hands of the aristocratic classes in the South, and in the hands of such as Murphy, Sullivan, and Guffey in the North, that it is impossible to transform it into a party of the people. So it is the plan to smash the Democratic party this year as the Republicans smashed the old Whigs in 1856. The Independence League hence serves notice that it is time for the Democratic party as such to die and to give over its rank and file to the new party not weighted down by its traditions and leadership."

-Hon. Lewis Emery, Jr., has received another letter from Charles H. Rathbone of the Pennsylvania Oil Company, dated

Occasionally the oil overflows and is as the letter was written an effort was being made to determine this. The plan is

being considered of shooting gravel into the aperture by means of a huge pump, and in this manner smothering the flames.
