### An Introduction to New Silks.

Fashion is taking us through an entirely new era. Fairly launched, she is carefully piloting us on a most trying voyagea revival of the Directoire period. It is an era in which garments cling closely to the figure in a soft, graceful manner; therefore fabrics must have characteristics which are in perfect harmony. Of course those interested in best modes will want to know correct facts concerning seasonable silks. It is not a long story, but a very interesting and important one. Silks will be very fashionable this season, and the favorite weaves which will adapt themselves to the soft, clinging drapery modes are the Messalines, Satin Tettrazinni, Satin Majestic, Crepe de Chenes, Satin Victorias, &c., all of which have a beautiful sheen-another one of Fashion's whims. And the colorings are different -dull, bright, rich shades- with a contrasting color they make for most exquisite robes. Black will probably lead the list, producing in the satiny fabrics most becoming gowns. Then there are Taupe, Tuscan, Olive, Greens, Canard, Mulberry, Gendarme, Danish, Electric, Peacock, Duck Wing, Blues, Wisteria and exquisite tones of Old Rose, as well as the evening shades. A beautiful assortment here awaits you.
