—Following is the list of letters lying unclaimed for in the Tionesta, Pa., post-office for week ending Oct. 10, 1908: Miss Cloie Eneack.

—Communion services will be held in the Presbyterian church next Sabbath morning. Preparatory services Thursday and Friday evenings preceding. A general and cordial invitation is extended.
—The drought, which was supposed to have been officially broken a week or so ago, is on again as solid as ever, apparently. And we're passing through another smoke strata as thick as 'tater one almost. Nevertheless the fall's a fine one sure enough.
—A solid stone retaining wall has been built on the sidewalk grade at the eastern approach to the river bridge. The wall is surmounted by a substantial iron railing and the walk is laid with paving brick, making it a great improvement over the old approach.
—The Jefferson County Gas Company is now completing arrangements for the purchase of the holdings of the Porkey Oil and Gas Company in Forest county. A meeting will be held Tuesday evening, when it is thought that all arrangements will be completed.—Warren Times.
—H. E. Moody had the pleasure of eating new string beans plucked from vines that needed themselves by dropping from his summer crop, which ripened and fell into the ground along side the old poles. We doubt whether California with its boasted climate could beat this record.
—W. G. Rodgers, the monumental agent, whose postoffice address is Tylersburg, Pa., representing the well known firm of Kerr & Son of Oil City, is circulating among the people of this vicinity, and a call from him may be had by addressing a postal card request. Those in need of anything in his line can do no better than consult Mr. Rodgers, whose reputation for doing only first class satisfactory work has long since been established. Now is the best time to place orders for spring delivery.

—W. A. Wynn, of the State highway department, who has numerous friends in Tionesta, is called upon to mourn the death of his wife, who died in the hospital at Harrisburg on Friday night, after an illness of several weeks. Mr. Wynn's friends here will sympathize deeply with him in this great bereavement. The deceased was a most excellent woman, possessing many charming traits of character which endeared her to all who knew her. Besides the stricken husband, one young daughter survives.
—The REPUBLICAN is sending out a few sample copies of this week's issue to patrons of the Rural Route extending through part of Green and the southern portion of Tionesta townships. Should the recipients desire us to do so we would be pleased to add their names to our regular list of subscribers. In doing this they would be serving themselves a double purpose—getting the best paper in Forest county every week, and possibly saving the Rural Delivery, which is now so convenient to them, from being discontinued. The postal authorities have under consideration the abandonment of the route unless it shows up a better patronage during the next quarter. Consider the matter carefully.
—Cole's Storms and Signs says: There will be eighteen "high flood" days during the month, and thirteen "low ebb" days. The sun entered Sign Libra on the 23rd of September; at that time Libra ascended with Saturn in the Seventh House. Saturn causes a great deal of discord, it is also evil for partnership, and in dealing with others; Saturn will affect the health and the business prospects, although the effect should not be felt until the early spring of 1909; therefore, it is well to be prepared for what comes. The first storm period covers from the 1st to the 5th. Earth's autumnal equinox extends over this period, adding its influence to the Vulcan period, with moon at first quarter and extreme declination south; however, the greatest storm periods will be liable to occur on or about the 10th and 25. High gales on land, lake and seas will come with the rising barometer behind these storms, all ending in a rather cold wave.

The Local Oil Field.
G. H. Lowe & Co. finished and shot their No. 8 well on the Robinson tract, in the McKee field, across the river, last Saturday, and it will make an average producer for that field. In all the wells previously drilled in that field the oil has been found in the first sand. In this last well, in addition to getting oil in the first sand, a twelve-foot pay streak was developed in the second sand, which was found 120 feet below the first. Both sands were shot and will be pumped. Should this second sand be found to be good in other wells it will mean much to the operators there. So far as known it has never before been found in that locality, for the reason that none of the wells were drilled to that depth. This company is at work on No. 9.
Len Snyder is moving his drilling machine to the Patterson tract, near the McKee farm, and is preparing to drill a well for a Tionesta company.
The Tionesta Gas Co.'s well on the Bailey farm, in Clarion county, was finished the last of the week. The well was shot Monday and from the showing will make a fair gasser when cleaned out. The company will drill a well on the Andrew Mealy farm, Tionesta township.
John Reek is moving his drilling machine from Mayburg to Eagle Rock, where he will drill several wells on a large lease recently purchased by himself and other parties.
In the West Hickory field, during the past week, E. O. Pequinot finished No. 9 on the W. P. Siggins farm, Orion Siggins finished No. 7 on his own farm, and Morrow, Carson & Co. No. 3 on Dale Island, all of which are or will make fair producers. We understand the South Penn has two strings of tools running on the Carter farm and have completed a number of producers during the past few weeks. The last one drilled by this company is located on the flats and was completed yesterday. It is showing up for a fine well, having made several flows natural.

Sentences Pronounced.
On Wednesday afternoon Judge Lindsey pronounced sentence upon the three men convicted of various crimes at court last week.
B. F. Kightlinger, who was convicted of assault with intent to kill was the first to receive his sentence. He got five years in the penitentiary, \$100 fine and cost of prosecution. Kightlinger's offense was the attempt to take the life of his wife, shooting two loads of bird shot at her quite a number of the pellets taking effect in her face and the back of her head and shoulders.
Simon Parchaki, the Austrian who was convicted of robbing his boarding master at Dawson station two weeks ago, of \$206, was sentenced to pay a fine of \$50, costs of prosecution, restore stolen property and undergo imprisonment in the penitentiary for a period of three years. The stolen money was found wrapped about the prisoner's ankles by Oil City policemen, and the owner, John Szyniak, regained possession of his money by request of the court.
Wm. G. Guiton, convicted of attempting to sell a hired rig belonging to Livermore Potter & McCoy, was sentenced to pay a fine of \$50, costs of prosecution, and undergo imprisonment in the penitentiary for a period of two years. Sentence was suspended in the case against Guiton for the larceny of a gun belonging to Jesse Overlander, in which case the jury brought in a verdict of guilty.
Jesse Overlander was acquitted of the charge of pointing a gun at Guiton, who preferred the charge.
Friday Sheriff Stroup and his deputy, Arthur Stroup, with the three prisoners in charge left for Pittsburgh where they were turned over to the penitentiary authorities.

Improve the Town Property.
We are all interested in the prosperity of our town. We can contribute to it materially, and give it a far more prosperous look at the same time.
Perhaps the public property need a good coat of paint.
Devoe will supply that coat with two-thirds of the number of gallons required of any other. Devoe is all paint and full-measure. Devoe is the strongest paint known. Devoe will take care of the property, in the long run, for half the money required by any other.
The reason is stated above: Devoe is all paint and full-measure: the strongest paint known.
E. D. Jewell, Corry, Pa., painted his house 5 years ago with a mixed paint; took 14 gallons. Last spring he repainted with Devoe; bought 14 gallons and had 4 left. Saved \$15 to \$20, as painting costs two or three times as much as the paint.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again.
