INDUSTRY'S PROGRESS ROOT FOR SENATOR.

Probable Necessity For 500.000 More Workmen by Dec. 1.

facturers publishes in the American In- States. dustries, its official magazine, a continuation of the statements on trade conditions contributed by its 3,000 members representing every branch of industry.

Telegrams were sent out prior to the election to a number of the association's members asking them to said he had received assurance from state specifically how many working the president that Mr. Roosevelt men would be added to their present force by Dec. 1 if nothing occurred to shake commercial confidence. A resume of the information contained in these replies is also given by the magazine as follows:

"The percentage of replies received indicates that an average of 135 men each will be added to the majority of manufacturing plants in the association by Dec. 1. The percentages show that at least one-half of the 3,000 members of the National Association of Manufacturers expect to add to their present force more than 200,000 men

"Taking this as a basis," says the article, "it is safe to assume that the 13,000 manufactories which, according to the census of 1900, employed an average each of 100 men or over will add at least 50 per cent to their present force, making a total in round figures of 650,000 men. In other words, with the continuance of business confidence, the important manufacturing interests of the country will be enabled to increase their present force by more than half a million working men to meet the market demands for their productions

"In securing this information Democratic and Republican manufacturers alike were addressed. No attempt was made to limit the canvass to any particular industry or to any particular section of the country and the queries sent to manufacturers were based solely on actual business conditions and business possibilities for the future.

"Although this information, showing as it does, in concrete and convincing form, the real proofs of a returning prosperity, was secured prior to the election, it was not used because of the association's desire to avoid any semblances of partisanship.

KEYNOTE OF PROSPERITY.

Encouraging Words of President-Elect Taft to Cincinnati Commercial Club. Speaking to the Cincinnati Commercial club, of which he has been a member for fifteen years, William Howard Taft on Thursday night last brought every member of the club to his feet in his address, sounding the keynote of prosperity for the country

"Every business man who is obey ing the law may go ahead with all the energy in his possession; every enterprise which is within the statutes may proceed without fear of interference from the administration, when acting legally; but all interests within the jurisdiction of the federal government may expect a rigid enforcement of the laws against dishonest methods," was the keynote of what Mr. Taft said.

DEMAND FOR RECOUNT.

Re-election of Governor Deneen to Be Contested by Adlai E. Stevenson.

The election of Governor Charles S. Deneen to serve another term as governor of Illinois will be tested by his defeated Democratic rival, according to a signed statement issued on Friday night by Charles Boeschenstein, chairman of the Democratic state central committee. The statement follows:

"I am convinced that with a correct count and an honest canvass Adlai E. Stevenson has a plurality of the vote cast in the election last Tuesday for governor of Illinois. We will demand that the ballots be recounted. The demand for a recount will be made upon the legislature as provided for in

Governor Deneen's plurality is estimated at from 23,000 to 26,000. Ben H. Atwell, secretary to Chairman Boeschenstein, explained that errors in the count have already been discovered in several precincts, and it was calculated that if only three ballots in each of the 4.040 voting precincts in Illinois were taken from Deneen and given on recount to Stevenson the lat-Furniture Dealers, ter would be found to have won the election.

New York, Nov. 10 .- Stories of battles between Russian governmental troops and the militia organized among the Russian people were told on the witness stand by Jan Licit, a former neighbor of Jan Pouren, whom the Russian government is seeking to extradite.

Former Senator Shot In Three-Cornered Street Duel.

Since Carmack Was efeated in Gubernatorial Primary He Has Severely Criticised the Democratic Machine In His Paper-During His Senatorial Career, Which Ended Last Year, He Was Well Known and Liked In

Nashville, Tenn., Nov. 10.-Former United States Senator Edward Ward Carmack, editor of the Tennesseean. was shot and killed in Seventh avenue North, in front of the Polk flats, by Robin Cooper, a son of Colonel Duncan C. Cooper. Mr. Carmack was going north in Seventh avenue and Colonel Cooper and his son were approaching Seventh avenue in Union

Soon after they came in sight of one another, the shooting began. Robin Cooper, it is said, fired two shots and Senator Carmack one. Colonel Duncan Cooper, It is said, drew a pistol but did not fire.

Senator Carmack fell to the ground with the trio of shots, dying instantly. Robin Cooper was shot in the right shoulder, but was not severely

It is said that the trouble is one of the results of the recent Democratic gubernatorial primary in which Carmack was defeated. Carmack had, since he became editor of the Tennesseean, been rather caustic in adversely criticising what he called the Democratic machine and had printed several editorials about Col. Cooper.

Within the last few days, it is said, Colonel Cooper told Carmack that these editorial criticisms must cease. Yesterday another editorial reference to Colonel Cooper appeared in the Tennesseean, and this is supposed to have been the immediate cause of the trouble.

As soon as Senator Carmack fell on the edge of the street curbing, Colonel Duncan Cooper put his arm around Robin Cooper and both walked a few feet down Seventh avenue to Dr. R. G. Fort's office, where the wound in Robin's shoulder was treated. Dr. Fort said that the wound was

attainments. During his congressional career he constantly attacked the Republican administration, in connection, among others, with the Indianola, Brownsville and Panama revolution incidents. executive encroachments, etc., and his speeches on the subject of the Philip pine tariff and in answer to Senator Foraker on the negro "shooting up" incident at Brownsville, are among those particularly recalled by the Tennesseean's admirers. Mr. Morgan probably owes his life to the guick wit and bravery of his 14year-old daughter, Dorothy, who saw Mackay draw his revolver, and struck it with her hand.
