TILLMAN IS MORE ACCUSTOMED to attack than defend, and may be surprised to find that it takes longer to mend fences than to break them down.

THE ATLANTA POSTUM FEAST to Mr. Taft will cost \$10 per plate. Lovers of the postum will be more alarmed than surprised by this advance in their favorite delicacy.

A SPECIAL from Washington says: The foot and mouth disease in cattle has been eradicated in New York, Pennsylvania, Maryland and Michigan but to guard against the possibility of another outbreak, the federal quarantine will not be completely lifted over those states at present.

SENATOR TILLMAN is trying to make a martyr of himself. In Thursday's address he said: "The President and his underlings would stop at nothing to ruin me. I am even prepared for the assassin's knife, in dealing with unscrupulous people." What a combination of egotism and insanity.—Blizzard.

THE JURY in the case of Thomas Jenkins Hains, tried at Flushing, N. Y., as a principal in the killing of William E. Anns, rendered a verdict of "not guilty" on Friday last. The prominence of the parties involved made the case one of national interest.

THAT was a pitiable sight presented in the United States Senate Tuesday, when Senator Foraker, defeated and discredited, continued his raving about the Brownsville affair, claiming the money for the employment of detectives had been improperly and illegally used.

FIFTEEN YEARS in the penitentiary is the sane sentence pronounced upon J. B. P. Rinehart, the wrecker of the Farmers and Drivers national bank of Green county, by Judge Young of the U. S. District court in Pittsburg last Friday.

SENATOR TILLMAN in his plea of confession and avoidance to the Senate, succeeded in making it clear that he had handled the truth very recklessly indeed when he said he had no personal interest in the lands of which were the subject of his resolution directing the Attorney General to bring suit for their recovery from wrongful owners.

ACCORDING to an official announcement from the Jefferson Medical College, Philadelphia, Dr. R. C. Roseburg, professor of bacteriology in that institution, has made the greatest discovery in the war against consumption since the finding of the tuberculosis bacillus by Dr. Koch.

ACCORDING to Walter Wellman, the most noted newspaper correspondent of the present day, the President is not greatly perturbed over the muss he has kicked up in Congress, but seems rather to enjoy it.

SENATOR PENROSE was yesterday elected to succeed himself by the Pennsylvania legislature. The vote stood 198 for Penrose and 42 for Dimeling, Democrat, with 12 Republicans scattering or not voting.

THE new Senator which the Indiana legislature will choose is a Democrat, and a son-in-law of the late George A. Jenks of Brookville, Pa. His name is Benjamin F. Shively, and he has served four terms in Congress from his state, representing a Republican district.

THE leading newspapers of Senator Tillman's own State of South Carolina do not give him a great deal of comfort in the hour of tribulation. The Columbia State says: "Now, there was nothing 'unlawful,' nothing 'criminal,' in getting the land, or attempting to get it, and in leading a fight in Congress for a government decision which would make the property acquired for \$5,000 or \$4,000 worth \$50,000 to \$50,000."

MANY thousands of pensioners all over the country are interested in a bill introduced in the Senate by Senator Penrose. It is entitled a bill "for the better payment of pensions." It provides that all pensioners with permanent disabilities and the widows of soldiers and sailors who are receiving pensions for life shall be paid their pensions monthly and by checks mailed on the last day of the month covering the amount of pension due them for that month with restrictions no more onerous than are made by the Treasury department in paying interest on government bonds.

FOR irregularities and misapplication of the funds of the First National Bank of Clintonville, Harry McKee, the cashier, his father, John McKee, and his uncle, William McKee, were called for sentence this morning before Justice Young in the Federal District Court.

WE thoroughly agree with the Brookville Democrat when it appeals to the members of the legislature from Jefferson and other counties, to vote against the bill to erect a public highway, or boulevard, from Philadelphia to Pittsburg, from Philadelphia to Pittsburg, to be constructed and maintained at the cost of the state entirely.

ACCORDING to an official announcement from the Jefferson Medical College, Philadelphia, Dr. R. C. Roseburg, professor of bacteriology in that institution, has made the greatest discovery in the war against consumption since the finding of the tuberculosis bacillus by Dr. Koch.

THE readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known in the medical fraternity.

THE boy is the best test as to the durability of a shoe. Most boys' shoes are very clumsy affairs. Not so with ours. They are as strong as shoes can be built, but they are skillfully made, good looking, perfect fitting and not clumsy.

Tinkering With the Game Law. The State Game Commission has approved the new draft of the proposed State game law, which will change the seasons for a number of kinds of game and it is intended to urge its passage by the Legislature. The season for woodcock, squirrels and pheasants is to begin on October 15 instead of the first, and for other small game, including rabbits, quail, turkeys and like, to begin on November 1. The deer season will be allowed to remain as it stands, but the bear season is cut from October 15 to January 1, and for the first time a limitation is placed upon the number of bears to be killed, two being allowed. Concerning the deliberations of the average legislature it might truthfully be said, Count that day lost.
