-That you can't keep good men down s an apporism that is demonstrated almost every day, especially if the men happen to hail from Forest county. Tuesday of last week two of our former citizeus were elected to office in Sheffield by overwhelming mojorities, W. L. This is about the 'steenth time "Billy' has been elected to membership on the school board.

-Since the severe elect storm of last week the local telephone companies have had all their available help on the go in putting their lines in order. The lines in every direction were down and greatly damaged, in many sections the poles being broken and uprooted for half a mile but it will be some days before all the damages are repaired.

-A postal card from Leonard Agnew on which is photographed a pretty little sheet of water in the foreground and the town of Gaston just beyond, informs us that his family is becoming nicely settled in their new home, "and are all well but me. I started in a little too fast and got lame with the gout, as usual, but am better now. As I write this I can look out the window and see the ice house but no ice, while the sun is shining warm and bright, and the bees are working." And thus it seems to be the world over-aches, pains and sunshine, with no prospect for a little ice to cool our parched lips while

the summer draws on apace. -R. G. Shutt and O. L. Palrymple of Warren were in Tionesta a few days of last week engaged in launching the little steamboat, "City of Warren," which had here and which had been beached for the winter below the west abutment of the river bridge. The boat started for Warren Saturday morning, under its own power. Mr. Shutt has sold the boat to Mr. Dalrymple, who, with four compan-

ions, expects to start about April 1st for a pleasure trip down the Allegheny, Ohio and Mississippi rivers. They will may extend over a year. And we could not imagine a nicer trip.

-H. H. Stanley, the all-around statesman from Farmington township, was in Clarion on business Tuesday and Wednesday of this week. We are sorely grieved to report that Mr. Stanley has lost the sight of his left eye through an accident which happened during the construction of Dr. O'Dell's new house on which he was working, on the 7th of last November, Some fresh plaster fell in his eye which was strongly impregnated with lime, and it has finally destroyed the sight. It was feared the other might also go, but after having an eye specialist at Franklin treat the same for several weeks, he is now assured of having one good eye if care is exercised and he is yery careful. -Clarion Democrat.

-A private note from Prof. Geo. W. Mitchell, fayorably remembered here as superintendent of the two past sessions of the Tionesta summer normal, and is now thanks the receipt of a year's subscription | principal of the Johnson burg high school, closes with this paragraph: "We like bered here as a former Tionesta boy. As will be seen friends by notice published in this issue the firm of Beck & Ott has been dissolved by mutual consent, and that Mr. Ott will continue the business as heretofore and it is hoped if any further road improvment is done in this borough the contract will fall into his hands, as the work done last summer on our streets was of the most satisfactory character.

### Pretty W. C. T. U. Function.

One of the very pretty social as well as intellectual functions of the season was held at Relief Corps hall on Wednesday evening last, the occasion being a reception to the board of directors and faculty of the borough school, and the presentation of a steel portrait of Frances E. Willard to the only room in the building which had not hitherto been graced with one of these beautiful pictures of this famed woman. The gathering was a large one, between sixty and seventy ladies and gentlemen being present. Shortly after eight o'clock, the President of the local Union, Mrs. J. H. Derickson, announced the beginning of the program of the evening, and a quartette composed of Professors Gill and Feit and Misses Pease and Osgood of the school faculty very pleasingly rendered "White Ribbon vibrations,", a song of exquisite sweetness, and Rev. B. F. Feit eloquently invoked the Divine blessing upon all present and the ceremonies of the evening. The President then gave a short but very pleasing and well considered address of welcome. Mrs. J. P. Huling read a care fully prepared paper on the history and progress of scientific temperance instruction in the public schools, and Prof. C. F. Feit of Room No. 4, gave a five minute talk on "Why should scientific temperance instruction be thorough in the first five school years," which was replete with good points and was well received. "The parent's responsibility toward the public schools," was a subject assigned to Rev. Mr. Scherer of Endeavor, who spoke intelligently from the standpoint of teacher, parent and director, in all of which stations he has had a part. Miss June Herman of Room No. 3, read a fine paper on "Why scientific temperance should be taught in the higher grades in the school" and handled her subject with consummate skill and tact. "Why parents should be interested in scientific temperance instruction in the public school," was assigned to Rev. Mr. Bailey, who dealt with the subject in a happy vein, bringing out many good points.

At this point Prof. Gill, always a favorite with Tionesta lovers of vocal music, rendered a very pretty solo and was obliged to respond to an encore, with Miss Glenna Weaver sweetly playing the accompaniments. Supt. Morrison gave his Endeavor, have been enjoying a visit at to feel the infirmities of age and from at a stretch. Communication with the his own and if these might be a trifle outside world is once more possible now, critical he felt that he ought not to sup-

press them, not even on this occasion, Mrs. Suie M. Sharpe read a very pleasing and well arranged paper on the life and glorious work of Miss Willard, revealing many new characteristics of this

gifted and saintly woman. The program closed with the speeches of presentation and acceptance. The former was given by Mrs. J. E. Wenk, superintendent of the department of scientific temparance instruction of the local Union, and her address was, we thought, very good, but she's our wife and we may be a little biased in our estimate of its merits. Prof. Gill, on behalf of the school accepted the handsome portrait in a graceful five-minute speech, abounding in good thoughts and pleasant references to the memory of Miss Willard and the

cause she represented. The literary and forensic features of the program thus ended, the next hour was given over to social chat and the discussion of a delicious lunch of light refreshments prettily served by Mesdames J. B. Muse, James Haslet, George Holeman and Joseph Clark. From beginning to end it was a most delightful affair, carried out with the precision and grace of grand masters in the art of entertainment.

### RECENT DEATHS.

DICKRAGER. Mrs. Sophia Verburg Dickrager was born May 25, 1825, in Essern, Hanover, Germany. In 1849 ste came to America, arriving in Allegheny City on the 9th day of May. Feb. 21, 1851, she was united in marriage with Dietrich Dickrager, also a native of Germany, and ten years later they moved to Forest (then Venango) county, the section on German Hill where they located being at that time almost an unbroken wilderness. Her ing up of a farm and in a few years had a productive piece of land under good state of cultivation, with comfortable buildings and such other conveniences as those early days afforded, and together they lived happy and contented for more than half a century. In 1904 the husband passed peacefully away, and about a year later the devoted wife and mother began that time forward her decline was quite noticeable, and on Wednesday, Feb. 17, it. Surviving her are three sons, John, William and Frederick, and one daughter, Mrs. Frederick Winegard. Also ter, Mrs. Frederick Winegard. Also heat deflector.
