TARIFF ISSUE STIRS FRANCE

Senate Discussion Promises to Be Protracted and Bitter

Paris, March 9 .- The debate on the roposed general revision of the tariff of 1892, which has aroused a storm of opposition at home and abroad, will open in the senate this week and romises to be bitter and protracted. 'he situation is analogous to that in lermany, following the impetus given to agriculture by the adoption of a rotective system

The tariff of 1892 was framed primarily in the interest of French agriculturalists and, having brought them prosperity and turned a deficit in ag cicultural products into a surplus, the manufacturers are now claiming their share. Later in the day conditions improved to such an extent that news of the happenings could be sent out in rounadabout ways.

From before midnight until noon the snow came down in whirling mass, piling into drifts, which made the streets impassible, bedraggling the festive decorations and dampening the ardor of the thousands who crowded the hotel lobbies or surged into Pennsylvania avenue to brave the ele ments.

The great stands in which seats had been sold for high prices remained almost empty, and it was not until the parade started in the afternoon that the througs, disregarding all police restraint, surged into points of vantage to see what they could of the spectacle. By that time an army of men had scraped the snow and slush from the main thoroughfare of the capital, and the more hardy of the visiting governors and their staffs, together with the naval and military organiza-

Speaker Cannon Will Help to Have It Changed to May 1.

Speaker Cannon of the house of representatives has declared himself in favor of changing the date of the presidential inauguration from March 4 to May 1, and added that as one representative in congress he would lend his aid in an effort to bring this about.

"I witnessed the dreadful weather conditions that prevailed in 1872. when four or five hundred people caught their deaths," he said, recall the Harrison inauguration with the soaking, chilling rainstorm, and the snow and key gale that made life miserable at Cleveland's second inauguration. If the change of date is made, it might as well be fixed later than April, for even April rain would cause great discomfort and much sickness, and I should think that May 1 would provide more certainty of fair weather."

8-Year Coal Agreement Ends April 1. It was in April seven years ago when the six months strike in the anthracite coal regions began and brought in its wake public hardship that will not soon be forgotten. The last three-year agreement will expire on April 1 and upon the early renewal of a working agreement rests the matter of harmony or strife in the anthracite field.

RECIPROCAL COAL TRADE

Western Pennsylvania Operators Sign Petition to Congress.

In an attempt to persuade congress to establish reciprocal coal trade with the Dominion of Canada, practically every coal operator in the Western Pennsylvania district has signed his name to a petition addressed to the ways and means committee of the house of representatives. Such an agreement, say these men, would mean an immense increase in the output of bituminous coal, as under the existing circumstances the entire middle portion of Canada would draw directly from the Western coal fields of that state. The high duty on coal at present makes such trade almost predibitive and it is the wish of the operators that this duty be removed, so that bluminous coal, for which Canada has great need, may be poured in from the local mines.

The concluding paragraph of the petition is as follows: "The position of the operators signing this paper is that if the Canadian government does not abolish its duty on coal, the present tariff be not disturbed."

DISCHARGEDNEGROSOLDIERS

Reasons For Delay In Organization of Commission.

Washington, March 9 .- The hearing authorized by recent act of congress to the discharged negro soldlers of the Twenty-fifth infantry, in order that they might clear themselves of the charges of participation in the Browns ville rlot, with the view to their re enlistment, is not likely to be con ducted for some time.

Various reasons are assigned at the war department for the delay in the organization of the commission to conduct the investigation, the principal one being that the certified copy of the law has not yet been issued by the state department and that care must be exercised in the selection of the personnel of the commission to avoid any grounds for possible allegations o blas.
