

Calendar for March 1909 showing days of the week and dates.

Announcements.

ASSOCIATE JUDGE. We are authorized to announce John G. Watson, of Kingsley township, as a candidate for Associate Judge...

Mr. Knox is one of the few men who can point with pride to a reduction in salary.

VICE ADMIRAL Pascual Cervera, who commanded the Spanish Fleet off Santiago, Cuba, in 1898, is dying at Puerto Real Spain.

THE progress in the digging of the big Panama ditch is satisfactory to everybody but the railroads and their agents in the Senate and House of Representatives at Washington.

WONDER what Mr. Bryan thinks of the prediction by those House Democrats that "the office of Secretary of State probably will be held for eight years by its next incumbent?"

A SOUTH DAKOTA man advocates a constitutional amendment providing for three presidents of the United States to hold office at one and the same time.

ELBERT HUBBARD says the man whose heart is at rest is the only one who can win. Jealousy gnaws. Doubt disrupts. But love and faith means sanity, strength usefulness and length of days.

It is quite evident Congressman Wheeler understands the wishes of his constituents with reference to the tariff on their product, and it is equally sure he will do all in his power to protect their interests.

THE Pennsylvania Legislature has passed a bill prohibiting the sale and use of rotten eggs, the prohibition of the "use" of them being supposedly along the line of self-protection.

EX-PRESIDENT ROOSEVELT has announced that he will sail for Naples on March 23 on the Hamburg-American liner which leaves on that date for Gibraltar and Naples.

FACTS are stubborn things. When the thousands assembled at the Washington station, Thursday afternoon, waved their handkerchiefs in farewell to the ex-President...

In his inaugural address President Taft significantly says: "I have had the honor to be one of the advisers of my distinguished predecessors, and as such, to hold up his hands in the reforms he has initiated."

President Taft Inaugurated.

The inauguration of President Taft was conducted according to schedule on Thursday last, but much of the program which provided for outdoor exercises had to be abandoned...

The Roosevelt reforms shall be an important feature of my administration. Immediate revision of the tariff in a manner to provide proper revenues and to prevent business embarrassments.

Economy of expenditures to make the burdens of taxation as light as possible. Provision for permanent improvements, like the Panama canal and Ohio river deepening, by issues of bonds.

Protection of aliens within our borders under treaty rights. Establishment of a postal savings bank system.

Protection for the negroes without affront to the whites. Help and encouragement for labor without legitimizing the secondary boycott or depriving the courts of their power to issue injunctions.

TALK is cheap, but its transmission across the continent seems destined to be cheaper. The talking post card is the invention of a French engineer and is soon to be introduced into the United States.

THE New York Tribune says that never before in our time has the entry of a new President into office marked so slight a break politically between the present and the past.

Local Option Bill Defeated. In the House at Harrisburg last night the local option bill was up on second reading and met with defeat by a vote of 56 for the bill to 137 against it.

Kicking the Dead Lion. It has been in everybody's mind for the past six months or more, but we have never seen it so well put and so truthfully told as in the following editorial paragraph from that well known journal, the Saturday Evening Post:

Those who take a kick at a dead lion should always bear in mind one highly important fact—namely, that the indulgence of that pleasure would have been quite impossible except for the demise of the lion. We mention this merely by way of suggesting to the more impassioned opponents of Theodore Roosevelt the enormous extent of their present obligation to him.

Neighborhood Notes. The First Presbyterian church at Kitztaning, valued at \$90,000, was burned down Sunday morning.

Good Cough Medicine for Children. The season for coughs and colds is now at hand and too much care cannot be used to protect the children.

A meeting of owners of motor boats, canoes and other pleasure craft in Oil City was held last evening as a preliminary to forming a permanent organization, the suggested name of which is the Venango Motor Boat and Canoe Club.

Beers was elected temporary chairman and H. D. Brown temporary secretary. The objects of the organization were discussed. Among these are a concerted effort to improve the channel of the Allegheny river in this section and to aid in securing legislation for the improvement of the river from source to mouth, including slackwatering.

It has also for its object the protection of all kinds of river craft from thieves and from the damage often done by vandals. It's a good scheme and ought to have some representatives in Tionesta, where the delightful pastime of canoeing is yearly becoming more popular.
