 —There isn't any question but this is the month of March, and one needs not refer to the calendar to be convinced. The weather flurries would settle any dispute on that question.
 —Selden McCrea of Hunter Station trapped a fine six foot otter in Holman Eddy, Thursday night making three or four he has captured within a year. The pelt of such an animal is worth \$15.00.

 —J. A. Adams, George Wilson and G. W. Robinson have filled their ice houses this week with a fine quality of ice from Cassadaga Lake. The stuff comes high and is out of reach of ordinary mortals, but it's a whole lot of satisfaction to know that our butchers can buck up the dough for a summer's run.
 —Rev. Robert Charnock, former pastor of the Pleasantville Presbyterian church, and who has preached in Tionesta, was recently ordained to the Sacred Order of Deacons by the Right Rev. Cortlandt Whitehead S. T. D., Bishop of Pittsburgh, at a very impressive service in Grace Episcopal church at Ridgway, Pa.
 —We wish our correspondents would all quit writing about people making flying trips. We are not in the flying days yet. Dr. McKnight says they are coming and will be along in a few years. But while we have only Darius Green and his flying machine to fall back on, don't let us talk about flying trips.—Brookville Democrat.
 —With the report that the Pennsylvania railroad is to run its freights over the W. N. Y. & P. R. R., instead of to Kane, comes another report that the W. N. Y. & P. is to be doubled tracked. This possibility is being much discussed by local railroad men, who are greatly interested in the rumor, and pronounced the job a costly one, if undertaken.—Warren Times.
 —Homer DeWalt, of the Mansion billiard rooms, yesterday identified the blankets found in the possession of "Turkey" Beardsley Wednesday night. The articles were in a wagon shed on the premises of Mr. DeWalt at 195 West Spruce street, and were taken some time after dark Wednesday.—Titusville Herald, 12th. Mr. DeWalt was a former resident of West Hickory this county.

 —The Forest Gas Co. of Tidoute began work this week on their No. 16 well on the Lacy lands, near Goizna. A New Boss pumping machine was taken up to the lease Monday, which will help them materially in operating the same. Contractor Charles Gesin has a bad fishing job in No. 3 on the Collins & Hague lease in the same field. Two weeks ago the tools were stuck and lost in the sand at about 900 feet and the well may have to be abandoned.
 —A driving horse six years old and valued at \$150, was stolen from the barn of Homer Humphrey, Rynd Farm, on Oil Creek, early Sunday morning. A buggy was also stolen. The horse was entirely black with the exception of a small white star in the forehead, weighs about 1,000 pounds, and has noticeably heavy, short legs. The buggy was considerably the worse for wear. The side curtains being ragged and one of the hind wheels is smaller than the other.
 —Hon. W. A. T. Andrews, a former member of the State legislature, died of heart failure at his home at Atlantic, Crawford county, on the 13th inst. Mr. Andrews was prominent in the political affairs of his county for many years, and always on the right side. In the legislature his vote and influence was always for the good of the common people, and his straightforward, consistent course won him many friends among his fellow members. He was 62 years of age.
 —An exchange observes that a boy can sit on a sled six inches square tied to a sled moving nine miles an hour, but can't sit on a sofa five minutes for a dollar. A man can sit on an inch board and talk politics for three hours, but put him into a comfortable church pew for forty minutes and he gets nervous, twitches and goes to sleep. A man can punch his cheeks with tobacco and the juice running down his chin feels good; but hair in the butter simply knocks him out completely.
 —Joseph W. Landers' Irish setter dog, answering to the name of "Jeff," has been missed for a week past. Mr. L. is very desirous of obtaining some clue to his whereabouts, and offers a liberal reward for his return. The dog is deep red with white streak on breast and neck. Two weeks ago Joe lost old "Red Head" by death from poison or old age, and this latest loss makes a sort of double bereavement which he feels keenly, hence his anxiety to regain possession of the animal.
 —Man still carries the original number of ribs, but he is short of a lung lobe. Where did he lose it? Eye got it. Man's right lung today consists of three lobes; man's left lung today consists of two lobes. Let us consider the missing lobe on the left. The lungs, mind you, are the life. Eve was made out of Adam's third lung lobe on the left, the lobe nearest the heart. She was constructed out of wind, mostly. That is, she took part of Adam's breath away. Adam's posterity of the male persuasion in these later days can count on only five lobes to both lungs, while Eve's daughters can count on seven; which accounts for woman having the last word in a controversy.—New York Press.

—More children die from measles in Pennsylvania each year than from scarlet fever and smallpox combined, and whooping cough, which is commonly regarded as a very insignificant malady, takes two-thirds as many children as diphtheria. These statements, which are based on official figures obtained through the bureau of vital statistics of the state department of health, should be a warning to those parents who not only regard measles and whooping cough as inevitable, but some times purposely expose their children to them so as to have them done with.
 —In every country town there is a sign at the railroad crossing like this: "Look out for the cars." Now everybody knows that it was a railroad crossing the day the line was laid and finished. When the sign was put up it took two days for every inhabitant to become familiar with it. In a week every small child could read it backward. Did the railroad take it down? No, if they had the warning would have been forgotten in a week and smashups would have resulted. One time advertisements act the same way. You must keep everlastingly at it, like the railroad crossing sign.
 —Report indicates that good progress is making in the borough high school prize contest for the best essay on the subjects assigned by the W. C. T. U., and it is hoped that some of the prizes may be captured by our pupils. For the best high school e-essay on "The Value of Total Abstinence to a Life," a County prize of \$5.00, a State prize of \$15.00, a National prize of \$50.00 will be given. For the best grammar grade essay on "What is the harm of a glass of beer?" a County prize in \$5.00, a State prize of \$10.00, and a National prize of \$30.00 will be given. The contest closes on the 15th of April.
 —Every newspaper wants to publish the news. The better the paper the more prosperous it will be. Local news items are especially hard to run down. How many times have you, dear reader, been approached by the newspaper man for an item of news and told him that you knew nothing of interest. Probably at the time your family were away on a visit or someone from out of town was visiting at your home. Of course you didn't mean to deceive the scribe, yet when you received your paper you wondered why your family or friends were not mentioned. A good way to avoid all of this is to kindly inform us of the facts or drop a note in the postoffice to the paper. The one item will not amount to much, but several columns of such news is the life of a local paper. See?
 —On Thursday afternoon, March 11th, exercises incident to the laying of the corner stone of the new dormitory at the Clarion State Normal School were held. The exercises were in charge of the Principal, J. George Becht, and began at two o'clock. Rolls of the different classes, copies of the local papers, pictures of the proposed building, together with coins, photographs of President Taft, Governor Stuart and State Superintendent Schaeffer were placed in the receptacles. Hon. Emerson Collins, of Williamsport, Pa., delivered the address of the day and it was listened to by a large and attentive audience. The new dormitory, which will be ready for occupancy at the beginning of the Fall Term, will be one of the finest Normal School buildings in the State. It will be of gray brick with a red tile roof and will accommodate about two hundred and fifty people. On account of the increasing attendance at the school, this dormitory will be a much needed addition to the school plant.
 —The Indian in relation to the game laws of the state has been a question much mooted and one that up to the present has not been solved to the satisfaction of all concerned. There is little legal precedent on the subject and a case very much in point is now awaiting final disposal. Hidden Jimerson, a Shongo Indian, residing a few miles from Salamanca, was caught with four grouse, and this during the closed season. The case went to trial before a jury which disagreed, and at another trial following in which the Indian was represented by John Snyder, an Indian attorney, the defendant was acquitted by a jury. Snyder cited ancient treaty rights and customs to good purpose and to the jury it looked as though the game laws and game laws' attorneys were wrong. The case this time is removed from the criminal courts and the state is suing Jimerson to recover the penalty for the crime. In this case the penalty is \$25 for each one and additional penalty of \$50 for the commission of the crime. Burdette Whipple is handling the state's side of the case.—Bradford Star.
 —The U. S. Civil Service Commission announces that on Saturday, April 10th, next, an examination will be held at West Hickory, Pa., for the position of postmaster at Fagundus. Application forms and full information concerning the requirements of the examination can be secured from Fagundus postoffice. Applicants must reside within the territory supplied by the postoffice named. The compensation of postmaster at Fagundus was \$84 for the last fiscal year. On the same date an examination will be held at Sheffield for the position of postmaster at Lynch, in this county. These will be the first local examinations under the new civil service rules governing the appointment of 4th class postmasters in this state, and the probabilities are that no one will be eager to take the examination in view of the meagre pay attached to the office. It looks like a farce to require so much red tape to be gone through with in order to get an incumbent for an office that is usually accepted by some person solely for the purpose of keeping a postoffice in a community that the people living therein may be accommodated with mailing facilities. The position is usually a thankless and an entirely profitless one.
 —Summer School.
 A Summer School for teachers, and all others preparing for teachers' examinations, will be held at Kellettville during the months of May and June. A class for pupils doing preparatory work to enter high school will be organized. The school will have for its instructors teachers who have had previous experience in Summer school work. In this respect it will be the only school of its kind in the county. We are organizing the above school at the request of a number of Forest county's best citizens. A number of pupils have enrolled. Further information can be obtained by addressing Principal of High School, Kellettville. Term begins May 11th.

It is learned that Mr. Brown, the present efficient incumbent, will not ask for reelection which means that Mr. Carringer will be unopposed in his efforts, and that the county will still have the services of a competent and popular official.
 —Mrs. S. S. Canfield was seriously injured Tuesday afternoon at the home of her daughter, Mrs. G. T. Anderson. She was in her room conversing with a neighbor and on rising to her feet fell and struck her head against a table. Mrs. Canfield was much weakened by the great loss of blood, but was resting easy at last accounts.
 —A Disgusting Affair.
 Last Wednesday night while asleep at the railroad station "Bill" Cole, a well known character in this community, was set upon and shamefully ill-treated by two or three parties whose fear of the law, if not a sense of decency, should have impelled them to desist from such detestable practices. With a pair of scissors they cut his hair and whiskers in a shocking manner and then poured red ink over his head, making him appear like a fright. The victim reported to the authorities and Constable Eden of the Township made information before Esquire Randall charging assault and battery against two parties who were given a hearing on Friday night. One of the young men pleaded guilty and the Justice fined him fifteen dollars and one-half the costs. The other denied his guilt and was bound over in the sum of \$400 for his appearance at the next quarter sessions court. We withhold names out of respect for the parents and families, who are among our most worthy citizens.
 Cole, as everybody in this section knows, is a harmless, inoffensive fellow, who usually minds his own business and for whom the people generally have a kindly feeling, but who is often made to suffer gross indignities at the hands of thoughtless boys, and some older ones who display far less sense and decency than their unfortunate victim. Such lawless practices should be most effectually squelched.

While here the management gave away several fine pieces of silverware for amateur stunts of various kinds. One present in particular was given for a ladies' sawing contest.  But not too many bumpers
 Least we lose ourselves, and then
 Forget the good Saint Patrick,
 And see the snakes again."
