 —The contract for building the new road on Siggins run, in Harmony township, was awarded to Claude Hepler of Tionesta, at the meeting of the Supervisors of that township, last Thursday. The contract price is \$3.35 per rod, and the distance about 510 rods, beginning at the top of the hill opposite Siggins cemetery, near West Hickory and running to a point near a tank on the Head farm. The road along this stream was almost completely obliterated by the flood of the night of July 3d, last year, and the proposed road is on a new survey entirely, and will be on a very easy grade, being less than 5 per cent. and for a long distance on a dead level.

 —A resident of Clarion county in town Monday for the circus reports that considerable excitement exists in the vicinity of Knox over the finding of the dead body of James Rossman on Friday. The neck was broken and a noosed rope was around the neck, but the loop was cut off short. More than 100 yards away from the other portion of the rope was found fastened to a beam and there were strands of rope on the blade of the dead man's pocket knife. The theory is that he attempted to commit suicide by hanging himself, repented and cut himself down, but this idea seems weak from the fact that the man must have walked 100 yards with a broken neck and that such an injury would make it impossible for him to have strength enough to cut the rope while he was suspended from it.—Derrick.

FROM ANOTHER CORRESPONDENT.
 The Kellettville Water Co. on Saturday let the contract to Yess Bennett of Whig Hill to clear out the right of way and dig the ditch and cover the same. The springs to be utilized are located 320 rods from the M. E. parsonage and on the north side of the hill at Browntown. It is hoped we will have sufficient water supply when this is finished to give a good water pressure to all who use the city water. It is the intention of the company to turn on the new supply within six weeks.
 It is very seldom that a town the size of Kellettville can boast of three separate water companies, but this is however a fact. They are: The Kellettville Water Co., whose stockholders are Kribbs & Ray and C. Y. Detar; the Salmon Creek Lumber Co. and the Elk Tanning Co. Each of the latter companies furnishes their own employees with water.
 In looking over some of the daily papers we notice in some sections that the community is pestered with mad dogs or ones that show unmistakable signs of hydrophobia. This is certainly a very serious thing in a community where dogs are allowed to roam anywhere unmuzzled. Kellettville has its quota of canines and it is reported there are a certain few dogs that are no respecter of persons and would as soon examine ones lower extremities as bark and howl at 2 a. m.
 June Robbins was bitten by John Michel's dog one day last week and the animal was killed the same evening. This is justice rapidly administered.
 A large number of our base ball enthusiasts met in Andrews' hall, Friday evening, and organized a team for this season. A chairman, secretary, treasurer and a board of eight directors were elected and other business pertaining to the good of the ball team was transacted. It was decided to hold a box social in the hall on Wednesday evening, May 19, to assist in raising the necessary amount to equip the team in proper style. The board of directors met in the town hall Saturday evening and made up the lineup for the starting of the season. There are 14 players listed. The boys have decided on their uniforms and were measured for the same on Monday. It is the intention of the manager to secure some open dates with the major leagues and fill in between times with nearby towns.

 Will Farrell, a former Kellettville sport, is again a guest of his many friends.
 Charley Russell, who is pleasantly remembered by everyone in Forest county, has secured the belt in these diggings as the champion fisherman. Last Friday Charles succeeded by hook or crook in landing ten of the speckled beauties, seven of which were over twelve inches long each and the balance ten inches. During his angling he was unfortunate enough to drop the largest one, the snell being insufficient to hold the whale. Charles says he landed the monster O. K. but was not strong enough to overpower him. Just as the fish was clear of the stream the unfortunate mishap occurred and Charley is very sore over the accident. Now what do you think of that?
 Train No. 4, which hauls the freight between Nebraska and Sheffield, met with a serious wreck at Henry's Mills recently. Two cars of lumber were derailed and the track torn up for 100 feet or so. The passenger and mail service was somewhat late in arriving. The track was not clear until Friday morning and all service on Wednesday and Thursday was transferred.
 J. G. Brewer, who is assistant to M. D. Spencer as night watchman for the Standard Wood Co.'s factory, met with a rather peculiar and painful accident recently. After finishing his night's labor, which terminated at 6 a. m., Mr. Brewer secured a rig at Kribbs & Ray's livery with the intention of driving to Tionesta. The weather being of a somewhat mild temperature on this particular morning and having a trusty steed, Joe became

wary and endeavored to pull off a Rip Van Winkle stunt. Somewhere below Newtown Mills Joe's dreams were of a nature that likely had a tendency to cause him uneasiness, and upon waking up he was lying in the road with a badly peeled head, and minus a conveyance. The horse was taken into camp a mile down the line and Joe was soon located and brought home, where our local physicians brightened him up. The report has been circulated that Joe was working out his road taxes, but we can say by authority that this is emphatically denied.
 The Kellettville ball tossers and a large number of fans went to Mayburg Saturday and gave the team of that cozy little burg an exhibition game that for runs far exceeds those usually earned in a ball game. Score, Mayburg 7, Kellettville 22.

 C. P. Cloak is very pleasantly located in the Fred Steumung house.
 The Elk Tanning Co. has broken ground for a hair house. The building will be of red brick, 18x36 feet and about 16 feet high. They were expected to have the structure finished by May 20th but it is impossible to complete it in that time.

A Hardwood Floor of any Color
 You may Choose for \$2.50
 Floors which are in too poor condition to be improved with varnish alone can be made to imitate a genuine hardwood floor with this new patented Graining System. This process does not require the services of a professional wood finisher. The Graining Tool takes the place of skill and can be successfully used by the inexperienced man or woman, thus making it possible for any one at a very slight expense to enjoy the luxury of a new hardwood floor. This Graining Compound when protected by one or two coats of Chi-Namel produces a surface that will outwear any ordinary varnished floor, many times over.

Also a full line of House and Roof Paint, Oil, Varnish, Crack and Seam Filler, Brushes, &c.
Tionesta Hardware.
Too Often
 The father or mother will argue that anything is good enough for a wild boy, just so he is covered and safe against the changes of weather. This is a mistake. If you dress children in good clothes they will not fail to learn how to take care of them, but if they are handed down from older brothers, made over and multi-patched, or if the shoddy kind of clothes are put on children, or even the kind without regard to style or fit, how can a boy learn to appreciate them?
Boys' Suits.
 Yes, there are some "frills and flourishes" about the cut, the lines and the tailoring of our Knickerbocker Suits for boys of 8 to 17 years. There's originality and snapp about them. There's an unrivaled showing of dresy, fashionable new stripes in greens, olives, sates, grays, tans and light browns—high quality worsteds, Scotch effects and fine, soft angolas at
