## Desperate Effort to Save Young Wife From Cataract.

Woman Dies In Husband's Arms-Exhausted Man Is Hauled Ashore With Ropes After Holding on to His Wife an Hour-Lost Grip on Dead Wife, Whose Body Was Later Recovered 100 Feet From Brink of the Falls.

Louis Cohen of Buffalo saw his young wife leap into the swirling river between Second and Third Sister islands at Niagara Falls at about 5 o'clock Sunday afternoon, only 150 feet above the brink of the cataract. Without a moment's hesitation he followed her, caught her hand and struggled desperately to save her.

Mrs. Cohen probably died in her husband's arms. Before it was possible to bring efficient help an hour had passed, all of which time Cohen was making frantic attempts to reach the shore. But the struggle against the current-at this point it is about twenty miles an hour-was beyond human muscle. Fortune aided him. With his wife tightly clasped to him he felt himself bump into a grounded tree stump and on this he got a grip with his one free hand.

Cohen lustily shouted for help and word was carried to the reservation police, but it was nearly an hour after Mrs. Cohen jumped into the river that Officer James Martin arrived with ropes. Representative James S. Simons and three other men came with him

Three es they threw the rope before it fell within Cohen's grasp. When he did catch it he was too weak to tie it about his own or his wife's waist. The two were twenty feet away from shore and it was extremely difficult, owing to the precarious nature of the footing, to make a good cast. Pinned against that tree stump by the terrific rush of water, all the struggle had gone out of Cohen. And, too, he had been unable to keep his wife's face above water.

Once Cohen had hold of the rope the men on shore began to pull and Officer Martin, who was in the front, slipped and fell into the stream but quickly regained his feet. When within fifteen feet of the shore Cohen lost his grip on his wife's body and it was carried off down stream and was lost to view.

Cohen was so far gone when the rescuers got him on shore that he could not speak for ten minutes. His first words were: "She is out there, Go and get her. She is dead. She died in my arms."

William Barnet and Hugh Brown. who had joined the searchers, finally spled the body just before 7 o'clock. It was er fast by a rock, about 100 feet ab ve the brink. Without rones Brown and Barnet waded out into the stream and, moving carefully over the slippery rocks, reached the body. Just as Brown touched the body the current caught it again and it whirled around in an eddy. It was with the greatest difficulty that the two men brought the body to land. Life was

#### MAD BUTCHER RUNS AMUCK

Kills Five and Fatally Wounds Three Fellow Employes.

John Murphy, a pig sticker in the plant of the North Packing and Provision company at East Somerville, near Boston, sucdenly became a raving maniac and ran amuck among more than 100 of his fellow workmen, killing five almost instantly, fatally wounding three others and slashing several more to a lesser extent before he was overpowered.

Shortly after 2 o'clock, he suddenly uttered a terrific shriek, and jumped at Dr. Hayes, waving a fifteen-inch, razor-edged knife in his hand. He cut a deep gash in Dr. Hayes' neck, stabbed him over the heart, and practically disemboweled him.

The terrified workmen rushed for the door, but were not quick enough to escape Murphy, who ran after them, slashing right and left. Every man he struck went down with a groan,

The men plunged downstairs with Murphy after them, and at every landing he struck semebody. On the second floor, one of the workmen, an Italian, seized a heavy bar of iron and felled Murphy to the floor, but he was quickly on his feet again and wounded another man.

#### CONVICTED OF CONSPIRACY

Former Councilman and Attorney Sentenced to Prison.

Leo F. McCullough, president of the Boston common council last year, was sentenced to two years at hard labor in state prison, and Attorney James T. Cassidy to serve one year at hard labor in the same institution, both having been convicted of conspiracy to defraud the city of Boston and of stealing \$200 by making out a false

order for a set of law books. At the same session former Alderman George H. Battis was sentenced to serve three years at hard labor in the state prison for the larceny of money in connection with the purchase of prizes for a Fourth of July athletic contest held under the auspices of the city in 1906 and 1907.

## PATRICK'S APPEAL DENIED

Court Holds That Degree of Punish ment Is Not Determined by Preference of Convict.

Albert T. Patrick's appeal for "lib erty or death" was denied by the appellate division of the supreme court in Brooklyn.

In the opinion of the court, which was written by Justice Jenks, the most striking paragraph is one holding that the "degree of punishment is not determined by the preference of the convict." This was in answer to Patrick's declaration that life imprisonment was a greater hardship than death. The opinion says in part:

"I find no force in the contention that there cannot be a commutation of the punishment of death to that of life imprisonment, because commutation implies a less punishment, but life imprisonment is a greater punishment than death. The degree of punishment is not determined by the individual preference of a convict. It is the common judgment of man to deprive the criminal of his life is the greatest punishment known to modern times.

"The people of this state have in effect determined that this penalty is the most severe by prescribing it as the punishment for the highest crimes only-murder in the first degree and treason-and by prescribing that in the former case only the appeal is direct to our highest court. There can be no question that, as regards the offender, our scheme of punishment regards that punishment which leaves life as less than that which ends it.

"The relator argued that he had never accepted the commutation, but he concedes in his printed points that commutation does not require his acceptance. Such I think is the law."

#### **BURNED WOMEN'S FEET**

Brutal Outrage by Five Masked Men In a Mining Town.

A brutal outrage perpetrated by unknown robbers Sunday at Belmont, Pa., has aroused the community and a lynching is threatened in the event the men are captured. Five men, all that is at your door." masked, broke into the home of Mrs. Minnie Ashe, aged 90 years, in the outskirts of the mining village and ransacked the place.

With the aged woman were her daughter, Mrs. Mary Ober, 60 years old, and her granddaughter, Miss Minnie Ober, 22 years old. The men found only \$3,50 in the house, and believing there was more, they tore cords from the pictures hanging on the walls and fastened the three women to otherwise abused. Before leaving the house the burglars released Miss Ober, who late in the afternoon recovered sufficiently to summon help. The entire mining village is search-

This is the first instance of the kind in the history of the South, and a conviction in the very first case tried under Alabama's new constitutional provision which seeks to lay upon sheriffs the responsibility of protecting prisoners under their control.

After the lynching of the negro the grand jury acquitted Cazalas of blame. At once a mass meeting condemned the action and a well-signed petition was sent Governor Comer urging Impeachment. He ordered the proceedings before the supreme court.

#### DAVIS' BIRTHPLACE

A Memorial Park Was Dedicated With Simple Ceremonies.

Among the trees which have grown up about the birthplace near Fair view, Ky., of Jefferson Davis since the year, early in the nineteenth century, when the Davis family removed to Mississippi, the Jefferson Davis memorial park was dedicated with simple ceremonies. Northeast across the state is Hodgenville, near which Abraham Lincoln was born eight months after his great opponent.

The plan is to raise \$30,000 more with which to build a memorial temple to contain all the records of the Confederacy and to remodel a twostory residence upon the Davis farm to house the widows of Confederate

#### Gov. Hughes Spoke of Growing Demand For Technics.

Dr. Richmond After Being Formally Installed Announced Policy He Intended of Pursue-Usefulness of a College Is Not Measured by Its Foot ball Record, Still It Is a Good Thing to Know How to Play Game Well. College Man Should Be Leader.

Schenectady, June 8 .- In the presence of Governor Hughes and representatives of many of the important universities and colleges in the East, Including President Woodrow Wilson of Princeton and President Woolsey Stryker of Hamilton college, Rev Charles Alexander Richmond, former pastor of the Madison Avenue Presbyterian church of Albany, was formally inducted into office as president of Union college and chancellor of Union university.

The ceremonies began with an academic procession in cap and gown, which formed at the college and marched to the First Presbyterian church some distance away, where the installation took place. The members of the graduating class led the procession, followed by President-elect Richmond and Governor Hughes, the college representatives, members of the board of trustees, the faculty and the alumni.

Dr. Silas B. Brownell, president of the board of trustees of Union college, presided and after prayer by Dr. Stryker introduced Governor Hughes The governor lauded Union for what it has done in the educational field and predicted even greater achieve ments under its new leadership. He spoke of the growing demand for teaching technical subjects at Union, due to the big industries in Schenec tady, and added that "Union can't let go of the standards of liberal culture or the demand for technical subjects

The governor said that the best contributions a college can make to a young man is to "give him as his lead er or instructor a true man of honest convictions and sincere desire to uplift the life of fellow men. Such a man is Dr. Richmond."

Dr. Wilson discussed the problems and duties of a college president, "It is characteristic of our school systems," said he, "that they lack system. America is very eager just now chairs. They then bared the women's for disinterested counsel and it is befeet and held lighted candles to them. cause they think they will receive it Partially unconscious the women were from colleges that college presidents

Dr. Wilson declared that the "real enemies of the country are the men who do damage and do not know it, The men who know the interior secrets of life are the men whom the modern country needs,"

Dr. Richmond after being formally installed announced the policy he intended to pursue. "I should welcome the day," he said, "when all questions of discipline should be matters to be dealt with by the students themselves. I believe that day will come.

"The time and thought given to college sport will be limited only by the prior demands of college work. The contribution of a college to the nation is not measured by its football record; nevertheless it is a good thing to know how to play the game well. Every man should have at least one drop of sporting blood in his veins.

"A college man has no right to be an idler or a selfish scholar or a mere money-getter. He is to be the guide, the friend, the teacher, the liberator; if need be, the martyr.

Addresses were made also by Simon W. Rosendale of Albany, president of the board of governors of Union university, and Rev. Dr. George Alexander, president ad interim of Union college.

Solicitor General Upsets Previous Ruling of Agricultural Department.

Washington, June 8. - Lloyd W. Bowers, solicitor of the United States, submitted to President Taft his opin ion as to what the term "whiskey means in law.

In effect Solicitor General Bowers holds, after discussing at great length what the term "whiskey" meant at the time of the passage of the pure food law, that the public does not consider that added coloring or flavoring can make whiskey out of what otherwise is not whiskey. Whiskey is regarded generally and naturally as having a flavor and properties of its own

"There is no more reason for say ing that alcohol becomes whiskey be cause colored or flavored like some true whiskey than for saying that alcohol becomes brandy because colored or flavored like some brandy." he says. "On the other hand the mere addition of coloring or flavor ing matter does not destroy its whiskey character unless such addition un duly dilutes or otherwise affects the

# **Every Possible Means Employed** In Murdering Rodobskie.

Scranton, Pa., June 8,-Peter Rodobskie, a Polish miner, was found slain on the railroad tracks Sunday morning by a trackwalker. Rodobskie left his home about 6 o'clock Sunday afternoon after drawing his pay and was not again seen alive by his wife and

Rodobskie's killing was a most brutal crime. His skull was fractured, he had two knife wounds in the right side of the face and he was shot through the kidneys. A part of one of his suspenders was found twisted around his neck, so that strangulation would have resulted in a short time, while a heavy beam of oak was let fall on him from a height, the man's breast being literally caved in. He had also a knife wound on the night hand. The county detective is of the opinion that the man was running away when the shots were fired, and that the other injuries were inflicted after he fell from the bullet wound

#### STEEL STOCKS IN PARIS

## Are to Be Admitted to Official Quota-

Paris, June 8 .- Herman Harjes, Jr. of the firm of Morgan, Harjes & Co., pointed out the inaccuracy of certain reports cabled from New York which place the present arrangement with regard to steel on the same footing as the recent efforts to secure the introduction of certain rubber and copper and other American stocks on the Paris market. The position of these securities, Mr. Harjes declared, is in no wise analogous to that of steel. They seek admission only to the "couliss," which corresponds roughly to the curb market in New York, whereas steel is to be admitted to official quotation upon the parquet or floor of the exchange with the sanction of the agents de change, the 95 governors of the exchange, the bureau d'enregistrement and the minister of
