THE New York man who killed a boy in Sing Sing. The judge who sentenced him gave warning that the next case of Of the Forest County Republican Prith-kind might result in a first-degree maries held Saturday, June 5, 1969 verdict. At times the public has its day in court,-Franklin News.

According to estimates made by the Philadelphia Inquirer, Russel Sage sccumulated his millions at the average rate of \$3,500 a day during fifty years of active life. Mrs. Sage is spending the millions for the benefit of mankind at the rate of \$25,000 a day, and in three years has disposed of \$25,000,000. At this rate she will have placed the whole of the great fortune intrusted to her by the financier in five years more. Her philanthropies so far are general and mainly in the line of education and religion, and her apparent desire is to expend her fortune so as to bring the greatest good to the greatest number.

The farmer may therefore cultivate potatoes with the full assurance that he will not be undersold by foreign producers, and that none will be imported excepting in the event of a lows: veritable potato famine in this country. The American potato is the best in the world, anyhow, as the potato is indigenous to this country, and was unknown prior to the discovery of America. It was first extensively cultivated in Ireland, on which account it became known as the Gilbert; Fogle Farm, H. C. Yarnell. Irish potato.-Punxy Spirit.

"LAWLESSNESS feeds upon itself," says the Washington Herald, "and waxes fatter and fatter as the diet is furnished in even more generous measure. It cankers the soul of the rich and the poor impartially. It produces a lyncher in Florida and a millionaire thief among the sugar trust kings in New York. The one breaks one commandment by taking human life without undisputed justification and the other breaks another commandment by employing false weights and measures in dealing with his fellow-man and supplying his bodily wants and necessities. And both are the victims of Pineville, themselves and the taint of disrespect for the law of the land,"

THERE is a great place in history for sanely and safely celebrating the Fourth of July. We all know that this annual woods, or even to the reading of the need is something harmless to take the cracker and the toy cannon. Newspapers all over the country are now advocating a different celebration of the day but they are not offering anything to replace the barbarous methods at present employed. -Titusville Herald.

THE Detroit Free Press volunteers this timely advice: "Too much vigorous exercise is bad in the hot summer. So is too much heating fuel-means, alcholic drinks, and other dietary articles that belong properly to cool months. They drive the bodily temperature up the scale, Close cicthing, too, prevents the heat from escaping. Take things easier these coming months. Dress as befits the conditions. Eat moderately and of a summer diet. If possible get out in the country often. If you have to stay in town see that you carry no extra weight in work, worry or any other way. Keep in the open air all you can, especially at night. Listen to the safety alarm's warning. A long, hot spell may be coming in spite of the icefields in the North Atlantic."

THE Cleveland Leader takes this optimistic view of coming business conditions. "There are many other signs of good times, coming and in large part alogo times. ready here. The farming population, which is half of the country, is enjoying extremely favorable markets. Wages are tending upward again. Real estate is rising. The financial resources of the country were never before so great. Gold accumulates and bank reserves are ample. There is much confidence in the future of trade and industry, and there was never less danger of evil in government issues or political unrest. Clearly, the country is moving onward into a period of great business growth and pros-perity. It is going to mark up new rec-ords by wholesale and keep on doing that

men aforesaid voluntarily withdraw this decide which shall be the candidate.

Another peculiar feature of the election was the nomination for Associate Judge on the Democratic ticket of Mr. Aul, who is the nominee of the Republican party. The Democrats had no regular caudidate in the field and several persons received complimentary votes throughout the county, the highest number being cast for Samuel Aul, 20, and the next highest for G. R. Johnson of Kellettville, 19. F. E. Allison, the Prohibition candidate, received 14 Democratic votes, and votes were also cast for four other gentlemen. It is due to all of these men to say that none of them solicited votes; on the contrary none of them were aware that their friends were voting for them on the Democratic ticket.

On the Prohibition ticket Dr. F. E.
