THE railroad lines in Illinois say that they are not making money under the 2-cent rate, but are resigned to it since there is no way of getting rid of it. What's the matter with Missouri? asks the Giobe Democrat. The law seems to work satisfactorily in that state and the roads are making money at 2 cents per

And any automobilist with a fair quality of brains and even a limited amount decency will do so.

A DISPATCH from Sharon in the Pittsburg papers last week contained the rather interesting news that James P. Whitla had announced his candidacy for Congress in this district at the election next year. The district is composed of the countles of Eik, Forest, Mercer, Venango and Warren, and is at present represented by Hon. N. P. Wheeler, whose second term began on the 4th of March. Three years ago Mr. Whitla was a candidate while the district was still working under the old conferee system. At the meeting of the conferees at Franklin, after several ballots had been taken, and Forest county's three conferees had voted for Mr. Whitla, that gentleman threw his strength to Mr. Wheeler, who was nominated with the aid of two votes from Elk county. Naturally Mr. Wheeler feels very grateful to the Mercer county man for this favor, and as he is not one of the forgetting kind, would doubtless prefer Mr. Whitla as his successor should be decide to retire when his present term expires. However, the story of Mr. Whitla's candidacy lacks confirmation so far as we have been able to see, and until be himself says so, it is not necessary to speculate on the question of who his opponent will be, if indeed he should have one. Mr. Whitia, who by-the-way is the father who suffered the torture of having his little boy stolen from him, is one of Mercer county's most popular citizens, an able lawyer, a good man in every respect, and would make splendid Congressional timber should be decide to enter the field. | the thinnest on the ground this year that The matter is yet a great way off, how- it was ever known to be in this section. ever, and will easily keep until the gentleman makes the announcement over his own signature.

THE dismissal because there is nothing for them to do of four revenue agents and seventeen inspectors who had been employed by the Bureau of Internal Revenue to supervise the production and distribution of denatured alcohol, says the Philadelphia Inquirer, calls attention to the fact that denatured alcohol has been a great disappointment, Congress was induced to remit the tax of \$1.10 per gallon on alcohol intended for use in the arts and industries, and which had been rendered unfit for consumption as a beverage upon the ground that to do so would provide the farmer with a new source of revenue and supply the public with a heat and light producing element which would have both cheapness and superjority to recommend it. Alcohol can be produced from a lot of things which ordinarily go to waste upon the farm, such as corn stalks, unsalable apples and undesirable potatoes, and the argument was that the farmer would set up a still somewhere on the premises and convert all this waste into a marketable product. And he wasn't going to have any trouble about selling it. It was asserted with confidence that denatured alcohol would be in great demand. People would use it as an illuminant instead of oil to their own advantage in every way and it would soon displace the explosive and evil smelling gasoline as the motive power for automobiles. The fact that all farmers could make a lot of denatured alcohol if they wanted to did not make them want to. They appeared to have no particular affinity for the business, Hence gasoline, kerosene, benzine and vaseline appear to hold sway very much as here-

It is the trypanosum and not the tsetse fly which threatens the life of Mr. Roosevelt in Africa. The name is larger and more sonorous, and what is better, is more convenient to spell. And if we are to lose Teddy at all, we would prefer the trypanosum to the tsetse, on all accounts.

PENNSYLVANIA is in the position of being practically out of debt, the only state in the Union so situated. This was demonstrated at the meeting of the Sinking Fund Commission, when it was shown that the net debt of the state is \$2,684,614, and to pay this there was in the sinking fund \$2,656,379, the net state debt being figured at \$18,237. In the next few months there will be due the sinking fund \$26,486, and that wipes out the debt.

RECENT DEATHS.

WENTWORTH.

Mrs. Charlotte S. Wentworth, widow of the late J. H. Wentworth, died Tuesday morning, July 20, 1909, at the home of her son, J. D. Wentworth, in Tionesta township. Mrs. Wentworth had been in good health until about four weeks ago, when she suffered a stroke of paralysis, from which she never rallied. She was a daughter of the late Ira Church, and was born in Hickory township, near where the County Home is now located, September 1, 1840. There she grew to womanbood and in 1856 was united in marriage with J. H. Wentworth. To this union were born seven children, five daughters and two sons, of whom the son, J. D., is the only survivor. Since ber marriage Mrs. Wentworth bad spent her whole life on the old homestead on Smokey Hill, where she bore the respect and esteem of all who knew her. After the death of her husband, April 18, 1908, she made her home with her son.

Funeral services will be held today at two o'clock p. m., in the Tionesta M. E. church, and will be conducted by Rev. W. O. Calhoun. The remains will be laid to rest beside those of her husband in Riverside cemetery. SUTTON.

David F. Sutton was born in county, N. J., Dec. 2, 1842. His parents ton, both natives of New Jersey. He attended the public schools in his native state, and worked for his father, with whom he lived until he enlisted at his country's call in Co. E, 7th Regiment New Jersey Infantry Volunteers. His company commander was Capt. H. C. Cooper. The colonel of his regiment was Col. J. W. Revere. Mr. Sutton enlisted on Aug. 24, 1861, at Trenton, N. J., and served his country and received an honorable discharge on the 7th day of October, 1864, at Trenton, N. J., by reason of the expiration of his term of enlistment. This is surely an honorable record. After his discharge he lived for some time at Hackettstown, in his native state. Afterwards in Brooklyn, N. Y., where he first went to housekeeping, living there between two and three years. From thence he moved to Sandcut, Luzerne county, Pa., where he worked at a lumber mill; then removed to Ridgway, Pa., where his father joined him. He moved from there to Fort Pitt mills, Kingsley township, were lumbering for G. W. Dithridge. After that he worked at Newtown Mills for Wheeler & Dusenbury. Purchasing a small farm on Youngk Hill he resided on it some years and reared his family. Selling his farm he moved to Tionesta in

1904, where he has resided ever since. He became a member of the Free Methodist church about 25 years ago, since which time he has always been an earnest advocate of prohibition and was regarded as a leader by that party.

In 1908 he received a bronze medal in recognition of his gallant services in the defense of the flag. On the front side is a figure of a veteran standing arms port in attitude of defense beside a cannon and the words in a circle, "Ready to die for the honor of our country." On the other side these words; "Presented to Veterans of Union forces in Civil War 1861-1865,"

The subject of this sketch passed away Sunday evening at 4:00 o'clock, July 18, 1909, after an illness of several months of cancer of the stomsch. He was a good soldier in the war for the preservation of the Union, and he has been a good citizen in peace. Surviving him is his widow, three sons and one daughter, Richard J., of this community; James, of West Virfeet long and containing nine rattles.
