#### LETTER WRITING

Is what you make it—for better or worse. If you write on cheap flimsy paper you are no welcome correspondent. If you use a substantial and stylish writing paper—one that is easy to write upon and always correct, you create a good impression and please your correspondent. Letters written on bad paper are seldom saved—they convey none of your personality. A good up-to-date paper is just as essential as the composition of a letter. All **Eaton's Fine Papers** can be entirely depended upon—the size, the style, the price and the manufacture are strictly correct. Come in and see them. If not satisfied—your money back.

—A horse belonging to Henry Winegard of German Hill and driven by his son, took fright at an automobile on Elm street Saturday forenoon and ran away, demolishing the buggy to which he was hitched quite badly. The horse was caught on the road leading to Cropp hill, about a mile from town. He was not injured.  
—Thoughtful readers sometimes pause to consider the cause and effect, or what occurrence suggested certain ideas to the writer. Something of this kind was called to mind by reading, in the New Castle News, that "it takes an artist to tie up a half dozen bottles of beer in a newspaper and make it look like a ham."—Blitzard.

—Are you going to take in the big picnic at Monarch Park tomorrow? A special train leaving Oil City at midnight will bring you home after the day's festivities are over. Lunches and meals served on the ground, but the nicest way is to take your lunch with you. Everybody invited. The management is looking for a 15,000 crowd.  
—From all sections come reports of drouth which is assuming serious proportions. More than four weeks have passed without rain of consequence, and every form of vegetation is suffering seriously for lack of moisture. Crops will be badly damaged and some ruined unless we have a change of weather very soon, and the signs do not indicate it.

The exhibition, which is under the auspices of the Jefferson county agricultural society and driving park association, is billed for Sept. 14, 15, 16, and 17, at Brookville. Applicants must reside within the territory supplied by the post office named. Application forms and full information concerning the requirements of the examination can be secured from East Hickory post office.  
—The Carpenter-Morton Co., Boston Mass, were the first paint concern to offer Varnish Stain to housekeepers. Campbell's Varnish Stain is the original, first made in 1888, and today recognized as the most satisfactory article of the kind upon the market. Bovard's Pharmacy carries a complete stock. Color card for the asking. For sale in Kellettsville by Frank E. Harkless and Mrs. M. Andrews. It  
—H. T. Rose Jr. and others of Rouseville, have leased several hundred acres in Tionesta and Green townships, and expect within a few days to begin operations for testing the territory thoroughly. The probabilities are that the first well will be drilled on Simon Whitman's farm, which lies to the northeast of the Tylersburg road five miles from Tionesta, as does all the territory which the parties have leased.  
—Alfred Salsgiver, the 16-year-old son of Daniel Salsgiver, of Tionesta, whose sudden decision Monday to leave home, caused considerable anxiety to his parents and friends, was located here last evening by his brother Earl, who is employed in a south side livery barn, and whom the runaway supposed was somewhere in Ohio. Mrs. Dougherty is well known in this county, having been a public school teacher in Kingsley township, and this year has been elected second assistant principal of the Marienville schools.  
—The law requiring the township authorities to remove loose stones from the highways once a month is still in vogue, although one would hardly think so from the appearance of the average public road. In many localities the law is apparently a dead letter, and stones are allowed to remain in the roads the year around. The work of removing the loose stones is so easy of accomplishment that it would seem scarcely necessary to call attention to the law so frequently.  
—It was reported that G. H. Lowe & Co. had struck a good gasser in the well they are drilling on the farm of Mrs. E. H. Fredericks, in the extreme northern corner of warrant 5138, Green township, near the Golliza oil and gas field, but the report could not be confirmed, owing to the distance of the well from any telephone communication. The Forest Gas Co. are drilling a deep well at Bull run, about a mile above Golliza. It is expected to go to a depth of 1,800 feet.  
—Wm. Hall, who has been employed with the Wheeler & Dusenbury firm for many years, at Endeavor, returned last week from a trip through Venango county in search of a team of horses for use about the premises. William made good on his trip, securing one of the best teams that has come to the locality in many years. The horses weigh an even 3,000 pounds, and after they have been driven exclusively by Mr. Hall for a few weeks will be second to none in the country. The team is from the Arcade stock farm, near Franklin.  
—A sample of the Standard Oil company's new "petrol butter" has been received by State Dairy and Food Commissioner James Foust, at Harrisburg. The sample looks about as much like butter as common vaseline. What is true of the looks is true of the taste. The sample came from New England, where the product is sold widely as a substitute for lard. It consists, says Food Commissioner Foust, of 80 per cent vaseline, 2 per cent salt, and 10 per cent corn-starch. Under the Gerberich lard law, passed last winter, the petrol butter can be sold in Pennsylvania under the plain label of "Imitation lard," or "lard substitute."

The opening of the Flathead reservation of about 700,000 acres for settlement has caused a great stir in that region, and the Government office is a very busy place. Mayburg.  
A crowd of loyal Mayburg fans watched their ball team play the second game with West Hickory on the latter's grounds on Saturday, August 7, and defeat them by a score of 6 to 2. It was rather an uphill game owing to Hickory's inability to secure the down-town grounds, which they intended to play on. But Hickory played a good game and need not feel hurt over their defeat at the hands of the Mayburg boys, as both teams did good playing. Our pitcher did some excellent work and received great support from the other members of the team by pulling off double plays and stops when most needed. A crowd of Tionesta boys watched "Toady" Foreman stop Green's magic benders and whip them to second in time to stop the fleetest sprinters. Foreman is a good catcher and will make a strong addition to the Mayburg team and with him behind the bat we expect to make the best of them "go some." Hickory gave a good account of themselves, making Mayburg work for what they got, and the third game, which will be played at Mayburg in the near future, promises great interest. Our boys were well treated by the Hickory boys and expect to return the hospitality on the return game.
