 -Another heavy frost Sunday night did considerable damage to the corn and buckwheat crops in the surrounding country. The damage seemed to fall in spots-two fields adjoining, the one being taken and the other spared.  -The Oil City Derrick of last Friday gave a splendid account of the "golden anniversary of the beginning of petroleum history," which event occurred at Titusville on Friday of last week. The paper on which the edition is printed is of an extra quality so that it can be filed and preserved for future reference, an invaluable accession to any library relating to things petroleum.
 -"Cooling" time is here, and the cunning little corn thieves have set up business in many a field already. To get out on a night when the moon is at her best, the air crisp, and a never-failing covey dog on the trail, is one of the delights of country life that will remain like a pleasant dream and in the memory of those who have tried it, long after other joys have been forgotten. Try it if you don't believe it.

 -We find this pleasant reference to an event which concerns a gentleman who is well known and has many friends in Tionesta, in the Oil City Blizzard of last Thursday, and we are sure all these friends will join the REPUBLICAN in extending congratulations and best wishes on this auspicious occasion: "This morning, at 6 o'clock, at St. Michael's Church, Buffalo, Miss B.
