SONDER BOAT RACES

Three American Defenders at Top of List In First Series.

Marblehead, Mass., Aug. 31 .- Amer-Short Items From Various Parts ica won a decisive victory over Germany in the first of the series of Sonder boat races for the President Taft and Governor Draper cups. All three

places at the top of the list were captured by the defenders of trophies, while the three challenging boats brought up well to the rear.

The Joyette, owned by Commodor William K. Childs of the Bensonhurst Yacht club of Brooklyn, N. Y., won first honors, with the Ellen, owned by Charles P. Curtis of Boston, second and the Wolf, owned by Caleb Loring of Boston, third.

Next came the Margarethe, one of the German challengers, and following her, more than six minutes astern. was the Hevella, while the Seehund II finished last. The Sechund II. carried away her

throat halyards within five minutes after crossing the starting line and was unable to resume racing fully ten minutes while the damage was being repaired.

Vice Admiral Barandon, chairman of the joint committee of the Kaiserlicher Yacht club of Kiel and Eastern Yacht club of Boston, when asked after the race what he thought of the result said: "Or, your boats are so much faster. It was a great surprise to me for this was real Kiel weather.'

GARDINER RETURNS CHECK

In Letter He Says He Rendered N Bill For Such Amount As

Was Allowed.

Albany, Aug. 31 .- Colonel Asa Bird Gardiner returned to State Treasurer Dunn a check for \$2,000, the amoun allowed him for services rendered dur ing the administration of former Attorney General Jeckson in represent ing the state in opposition to Harry Thaw's attempt to secure his release from Matteawan. Colonel Gardine

presented a bill for \$15,000. In a let ter accompanying the check Mr. Gardiner says he had rendered no bill for such an amount as allowed and did not propose to accept it. He is summering in the Catskills and says he will come to Albany later to see about

his compensation. Mr. Gardiner's bill, with several oth ers aggregating about \$150,000, was left unpaid during Mr. Jackson's administration. The legislature appoint-

ed a special committee to consider these bills and appropriated \$75,000 to meet the bills audited by the com mittee. The committee recommend ed that the expenses incurred by spe cial counsel designated by Mr. Jackson should first be paid. This practically took up all the appropriation except that in the smaller accounts it was possible to make some payment for services.

FIRES FAREWELL SHOT

Dismissed Minister Likes to Tell Congregation Who Are Liars.

Cincinnati, Aug. 31. - In bidding farewell to his congregation at West Chester Sunday night Rev. J. Spencer Smith, the "fighting parson," who recently upbraided the elders of his church for allowing him and his wife to go hungry, took a parting verbal shot at those officials.

"I have been told to leave West Chester by my officials," he said, "and go, though reluctantly. I like to get down to brass tacks every once in a while and tell who of my congregation are llars, gossipers, tattlers and backhiters. It ought to be a good lesson for the guilty as well as the innocent. Some of you have doubtless misunderstood my motive, but I want you to understand that I have tried to be always sincere, always charitable, always honest. You may not hear the truth here again for some time, but you will know it in the end. Now, let us sing, 'Jesus, Lover of My Soul.'" With the closing of this hymn the

pastor bade his congregation goodby.

Democratic Conference at Saratoga.

Albany, Aug. 31 .- Headquarters for the Democratic conference at Saratoga on Sept 9 have been engaged at the United States hotel, Francis A, Willard, secretary of the executive commitee having the conference in charge, said that a big delegation was expected from New York. A list of dele gates from the various countles of the state is being prepared at Democratic state headquarters in this city.

Fall Season, 1909. Women's Tailored Suits.

We're in a position, now, to give entire attention to the New Fall Suits. Not a Suit there but what's new since August 1. That's certainly an ideal condition and one enjoyed by but very few merchants. It's the policy of this store to sell off, at the end of each season, all Suits of that season. We aim to present always, at the beginning of each season, all strictly new Suits.

Now, with reference to the New Suits, of which there is already a splendid assortment. This store's reputation is already established. On a basis of absolute merit this Suit business has been built. The name of "James" has been closely identified with Suit perfection, at moderate prices, from the day the department opened. No depart-ment in this store has made greater progress. This suit supremacy, the standard of suit quality has been most rigorously maintained. That there is a distinctive style to James Suits, is a fact well known. That distinctive style, tailored excellence, and suit quality have been combined with a moderateness of price can be proved by a personal investigation on your part. See what splendid, strictly man tailored suits we present for this fall season 1909 at \$16 50, \$18 50 and \$20.

How Prof. Anderson Invented **Foods Shot from Guns**

He was seeking a way to break up starch granules, so the digestive juices could get to them.

Cooking or baking only begins to do that. No old-time method breaks up all of the granules.

So he conceived the idea of blasting those granules to pieces by an explosion of steam.

And these foods resulted-the most delicious, most digestible cereal foods ever created.

CORN

These are the foods invented by Prof. Anderson, and this is his curious process:

The whole wheat or rice kernels are put into sealed guns. Then the guns are revolved for sixty minutes in a heat of 550 degrees.

Each kernel, by the explosion, is puffed to eight times size. It is made four times as porous as bread.

It is made nut-like and crisp, ready to melt in the mouth.

They are made so enticing that children delight in them. Grown folks, too.

They are so irresistible that seventeen million dishes were consumed last month.

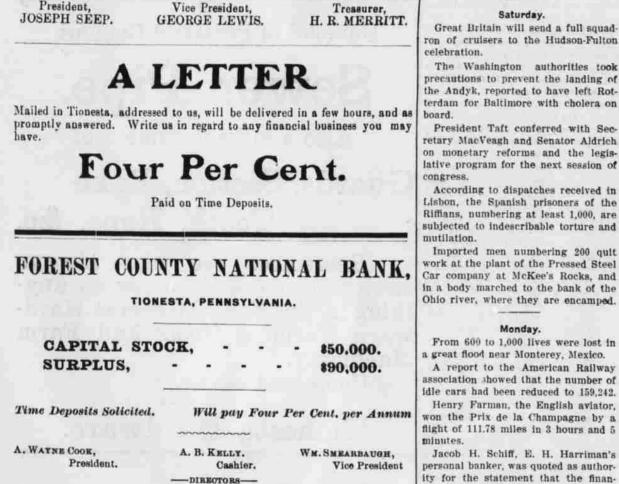

When will you find them out?

Then the guns are unsealed, and the steam explodes. Instantly every starch granule is blasted into a myriad particles.

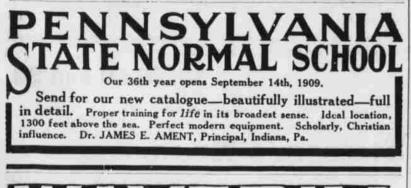

The kernels of grain are expanded eight times. Yet the coats are unbroken, the shapes are unaltered. We have simply the magnified grain.

work at the plant of the Pressed Steel Car company at McKee's Rocks, and in a body marched to the bank of the Ohio river, where they are encamped.

Monday. From 600 to 1,000 lives were lost in

a great flood near Monterey, Mexico. A report to the American Railway association showed that the number of idle cars had been reduced to 159,242. Henry Farman, the English aviator, won the Prix de la Champagne by a flight of 111.78 miles in 3 hours and 5 minutes.

Jacob H. Schiff, E. H. Harriman's personal banker, was quoted as authority for the statement that the financier is not to undergo a surgical op-

dent Taft wanted the Republican leaders to start a vigorous campaign against Tammany.

Tuesday. Governor Hughes ordered the removal of Louis F. Haffen as borough pres-

ident of the Bronx. Mrs. Mary Simons, E. H. Harriman's sister, announced that the financier's only illness was a nervous breakdown caused by indigestion.

Farmers and Dairymen to Receive

Nearly & Per Cent More. New York, Aug. 31 .- Farmers and

York city will receive nearly 8 per cent more than formerly for their product as the result of action taken by the Consolidated Milk Exchange. The cost price was officially advanced from 3¼ cents per quart to 3½ cents. An increase in the price to the consumer is likely to follow according to an officer of the exchange.

Robbers First Take \$74 From G. Rossi In His Saloon.

Chicago, Aug. 31 .- Not content with obtaining \$74, two masked men who entered the saloon of G. Rossi, 29

Chatham court, in broad daylight, put the proprietor in an ice box, locked the door and left the building. Rossi, after he had been a prisoner almost an hour, attracted the attention of James Giblin, who rooms above the

saloon, by pounding on the floor with a beer bottle. Giblin released him. His limbs and back were numb from the cold and his cramped position.

"Out of consideration for your gray hairs," the robbers had said. "we will allow you to have some air," and they opened a small window near the top of the chest to prevent the prisoner's suffocating.

Rossi said one of the men had a black mustache and the other red hair, but beyond this he could give no

description of them.
