Coroner,

Some of the New Yorkers seem to have an idea that more depends upon the movements of Mr. Harriman than upon the attitude of the president of the United States.

A MAN mute for forty years in Wisconsin suddenly regained speech and his first words were those of protanity. It is such things as this which confound the wise and perplex the godly.

THE official report of the Smithsonian Institute on the Roosevelt collection says: "The specimens were in salt and in much better condition than skins usually are," Tue thoroughness of the colonel's work in skinning has long been known,

THE rapacity of some people can never be satisfied. No sooner has an American discovered the North Pole and claimed it for the United States, than along comes the Punxy Spirit with a proposition that some fellow start at once and gobble up the South Pole. Editor Smith thinks we should own both poles.

No YERY large additions will have to be made to forest lands of Pennsylvania in order to bring the total up to 1,000,000 acres, which it is the ambition of Commissioner Conklin to attain. The present holdings amount to 925,000 acres, and negotistions now pending with owners of pleted, give the state titile to more than the desired total.

A KEY to Libby prison, the famous Confederate jail in Richmond, where many Union prisoners were kept during the Rebellion, was forwarded by Foster and Walter Jarrett of Sunbury to the Confederate Memorial Museum at Richmond Friday afternoon. The key was stolen by their uncle, William Jarrett, who was a Union prisoner, during an exchange of captives, while he was passing out of the door. The key has been kept recently in a safe deposit vault. It will be exhibited at the museum.

A MISUNDERSTANDING existed between an Iowa editor and one of his subscribers, the subscriber called upon the editor with a view to having the matter satisfell. We got up. Turning upon our antagonist, we succeeded in winding his arms around our waist, and by a quick maneuvre threw him on top of us, bringing our back, at the same time, in contact with the solid bed of the printing press. Then, inserting our nose between his teeth, and cleverly entangling his hands in our hair, we had him!"

THE Franklin News says: "On September 11 the fast trains on the Buffalo division of the Pennsylvania railroad will be removed from the service. They may be brought back for the summer traffic next year, but no plans of the company have been made public in this respect. It is stated with some certainty of truthfulness, that the Pennsylvania has never been able to make the old W. N. Y. & P. road pay operating expenses. That is probably the reason why no effort will be made to keep these trains on the road during the coming fall and winter," The W. N. Y & P. road referred to is the road from Oil City to Buffalo, and especially from Corry to Brocton, or the old Cross Cut road. Under many managements since Matt Bemis built it, it has always been a losing proposition. But the upriver end of the P. R. R. has paid, does pay, and has had the poorest accomodations, rolling stock and service. Its earnings have gone into the Pittsburg-Buffalo money absorbing operations,-Tidioute News.

#### Mayburg vs. Kellettville.

The Mayburg and Kellettville ball teams crossed bats again at Kellettville, Saturday, August 28, resulting in a victory for Mayburg, the score being 10 to 7. A large crowd of fans from both towns was in attendance, as the game promised to be very interesting, it being the fifth finished game of the season played between the two teams and each side being desirous of winning the decisive game. Kellettville made a desperate effort to win the goal, but their admirers were forced to sit up and take notice while Mayburg made 19 hits off Kays, and their "old hoodoo," Green, struck out ten of their best batters. After the fourth inning Green held Kellettville down so that only one man succeeded in reaching first base. The game was well played by both sides and Kellettville certainly did good field. tion on the Pennsylvania railroad a few work behind the bat, while Hoy, Klepfer Glass Company has erected a \$50,000 plant Commissioner of Forest county for seven and Bisir made good the score in running bases. The company has secured the third inning and a two sacker by Shawkey in the eighth, Johnny Moore's Allegheny river and begun active operaexcellent work on first base and the field-ing of Burch were special features of the

We wish to correct an error in last week's account of the ball game in Kellettville items, between Kellettville and Mayburg. Mayburg struck out 13 men, Kellettville 6. Mayburg made 9 bits, Kellettville 6. The score when Kellett-ville left for the train home was seven to eight in favor of Kellettville, with the game unfinished and a Mayburg man on have been written by one not at the game, as the managers of both teams any many others knew the game was unfinished. \*

TIONESTA 4, KELLETTVILLE 2. A large number of the fans followed the team to Kellettville last Saturday, where the team of that hustling town was waiting to do things to us with a crack battery from Kane, All pitchers look alike to our boys and when the mists had rolled away towards evening the "doings" were found to be on the other side. The game started in a drizzling rain which made good fielding difficult, but notwithstanding this the game was remarkably fast and clean, none of the errors being very costly. Pitcher Worley powerful physique and great strength, of Polk, Pa., was on the mound for Tionesta. His work was gilt-edged and he had a shade the best of Burkhart all the way through. Despite the rain a large crowd witnessed the game. The score: TIONESTA. Lawrence, C ...

The game was enjoyed by a large crowd. Thos. Duncan of Oil City was on the firing line for Tionesta and twirled a good game. Shawkey also did well. The feature of the game was a lightning double play by Weaver and Haslet, which retired Slesnick and Green in the eighth, and the boys were just one step short of entered the employ of the W. N.
