Women's Tailored Suits

In a Showing of the New Fall Styles.

Several days ago we called attention to our earliest arrivals. Recent shipments enable us to invite your inspection of a showing that is nearly thoroughly complete and up-to-date in every detail.

Coats are mostly 40 and 42 inches long and are strictly tailored; fitted styles predominate. We invite special attention however to the skirt models and the linings. They are made special to our order and will be found nowhere else in the vicinity. It is such points of difference together with the excel- trate. lent workmanship and finish that have made this store so well known as the

Headquarters in Western Penn- in 190 report. sylvania for Women's High Grade Ready-to-Wear Garments.

German Manufacturers to Lose Lucrative American Trade.

Berlin, Sept. 7 .- The German printers and publishers of picture postal cards already are beginning to feel the effect of the new American tariff law. Heretofore they controlled this industry, and even the illustrations of American views were "made in Germany" and shipped to American dealers. All is changed now, and the art printers of Berlin, Leipzig and Munich are seeking other channels for a large part of their productions. It is a hard blow for the German postal card in-

AGRICULTURAL STATISTICS

Census Director Durand Asks Co-Oper

steps are being taken by the census bureau, the farmers themselves will be called upon to help push the statistical plow over the country-wide field of farm data. It will be suggested by Director Durand to the farmers that the work of securing accurate returns at the coming census of agriculture, which will be taken April 15, 1910, at the same time as the count of the population, will be greatly facilitated if the farmers will keep or provide some sort of written record of their farm operations during the year 1909.

This effort to secure the farmers personal co-operation is but one of a number of ways and means chosen in the effort to secure an accurate, ex peditious and economical census con cerning population, agriculture, man ufactures, mines and quarries, which are the subjects of inquiry defined in the census law.

WEEKLY TRADE REVIEW

Bradstreet's Report on the Condition of Business.

Bradstreet's state of trade says: As the season advances trade tends to show further expansion, and indus trial lines are becoming more active Outputs are being increased by plants already in operation, and frequent reports come to hand of resumptions by concerns that have been shut down for some time past.

Under the circumstances employ ment is more general, payrolls are larger and more money is available for spending.

In a nutshell, trade is good; industry particularly iron and steel, is active and prospects are pleasant, the most notable drawbacks being reduced yields of cotton and a smaller than earlier expected corn crop.

Currency is moving to the country in larger volume, demand for money for general purposes is increasing and naturally rates tend to stiffen. Collections are fair to good, the undercurrent being in the direction of improvement.

Business failures for the week ending with Sept. 2 were 160, against 201 last week, 210 in the like week of 1908, 130 in 1907, 121 in 1906 and 137

ANOTHER HOLDUP BY BANDIT

Believed to Be Same Man Who Robbed Pennsylvania Train.

A lone highwayman, believed to be the man who robbed the Pennsylvania railroad train near Lewiston, Pa., several nights ago, held up a prominent citizen of that town and his family late Friday afternoon on a public road not far from the place where the train robbery was committed.

The latest holdup occurred on the same nountain range as the train robbery and more than a half hundred detectives have the mountain surrounded. All roads are under guard and the search for the bandit will be continued

The man held up was Robert F. Little and it occurred while he was driving with his wife and child. Besides securing \$10 and a watch the robber took Mr. Little's hat. The hat worn by the man who robbed the train is in the possession of detectives.

It is reported that a former Pennsylvanta railroad employe is under sus-

LAST HOPE OF LIQUOR GONE

Seizure Law Drives South Haven Pharmacists Out of Business.

South Haven, Mich., has been dry for the last eighteen years, but it is now even dryer than it has been at any time during that period, for this week the search and seizure law enacted by the last legislature went into effect. Local drug stores, which reaped a harvest by selling beer, and other liquid refreshments for 'medicinal purposes," cannot do this unless the doctor issues a written prepription, and this none of the physiclans cares to do.

Already two drug stores have gone out of business and several more are expected to follow, for it is said that the strictly legitimate drug business will not pay the cost of lighting the

A Home For Indigent Oil Men. Hon, John J. McKinney of Titusville has offered to give 130 acres of Terrace farm near that city as the site of a home for indigent oil men, and contribute to its maintenance and building. The proposition will be made to the committee which meets at Fexburg

Typographical Unions Led by Band of

Esquimaux In Labor Day Parade. New York, Sept. 7.-The return of prosperity and industrial peace was the text for a quiet and conservative celebration of Labor Day here. Labor showed its strength with a parade down Fifth avenue in which more than 40,000 persons participated.

A feature of the parade was the presence among the marchers of many women workers. The newly organ ized stenographers and typewriters union, attired in picture hats, white shirt waists and black skirts, won much applause.

The Typographical unions were led by a band of Esquimaux, who carried a tall "north pole" with huge cotton snowball and a sign reading "Dr. Cook was a printer too." The paraders were reviewed by John Mitchell and other national labor leaders.

Grains Crisp and Gigantic-**Eight Times Size**

Puffed Wheat and Puffed Ricethe foods shot from guns-are eight times natural size.

They are four times as porous as bread.. They are nut-like, crisp and And they are digestible, for every

ed to pieces. That's about all we can say. Cold type cannot describe them. There is

nothing with which to compare them.

starch granule has been literally blast-

You will think the foods queer, and they are. But don't think that you will not like them.

Last month, there were seventeen million dishes served in homes that have found them out.

The folks who once taste them, demand them. The folks at your table are just like the rest.

Serve them one package and all will say, "Let us have those puffed foods always."

Puffed Wheat-10c Puffed Rice-15c

These are the foods invented by Prof. Anderson, and this is his curious process:

The whole wheat or rice kernels are put into sealed guns. Then the guns are revolved for sixty minutes in a heat of 550 degrees.

That fierce heat turns the moisture in the grain to steam, and the pressure becomes tre-

Then the guns are unscaled, and the steam explodes. Instantly every starch granule is blasted into a myriad particles,

The kernels of grain are expanded eight times. Yet the coats are unbroken, the shapes are unaltered. We have simply the magnified

Pennsylvania Railroad.

HUDSON-FULTON CELEBRATION NEW YORK CITY. Three hundred years ago, Henry Hudson, an English-

man in command of a Dutch expedition, with eighteen

men, explored the Hudson River from Sandy Hook to Troy in his small craft, the "Half Moon." One hundred and ninety-eight years later, Robert Fulton established, with his steamboat, the "Clermont," a regular water service between New York and the towns

along the Hudson river to the North. This year, New York City, with sister cities and towns along the Hudson, will celebrate these two achievements by a series of imposing observances, religious, historical, military, naval, musical and literary, extending

from September 25 to October 9. Replicas of the "Half Moon" and the "Clermont" have been built and will play a large part in the celebration. They will be the center of attraction in the great naval pageant on Saturday, September 25. The United States Government will have fifty-two warships anchored in the Hudson, and Great Britain, France, the Netherlands, Italy, Germany, Argentine, Guatemala, Mexico, and Cuba

will be represented by war vessels. Two great parades of water craft will escort the "Half Moon" and the "Clermont" in triumphal procession past the war leviathans, first in the morning and again in the evening, when all the vessels will be illuminated.

On September 28 there will be a grand historical pageant, and on September 30 a big military parade in New York City. On October 1, the "Half Moon" and "Clermont" will

proceed up the Hudson to Troy escorted by hundreds of river craft, including torpedo boats. A magnificent carnival parade will be held in New York on Saturday evening, October 2, which promises to

eclipse all previous attempts, The Pennsylvania Railroad, the direct line to New York, with its unsurpassed service of fast express trains, will sell excursion tickets to New York for this period at

reduced rates of fare. Full details concerning specific fares, dates of sale, return limits, and train service may be obtained of Ticket

The Republican, \$1.00. Try it for a year.
