

Calendar for September 1909 showing days of the week and dates.

Republican Ticket. STATE. Justice of the Supreme Court, ROBERT VON MOSCHZISER, of Philadelphia.

ARE your taxes paid? If not don't put it off, for next Saturday, Oct. 23, is the limit.

Those airship fellows—bless 'em—they do not waste any great amount of time squabbling among themselves.

Now that there is to be a battleship Arkansas, people might as well get used to pronouncing it as though the last syllable were spelled with a "saw."

REVIEWING the record of the first six months of the Taft administration Mr. Bryan will probably make the reluctant admission that he himself could not have run things much better.

THE high prices which aviators are commanding these days are such as chauffeurs were commanding not so very long ago, relatively speaking.

EIGHT American warships are going out and stretch their muscles in the vicinity of Honolulu, Yokohama, Hong Kong and Manila.

THE voice of the people of Pennsylvania, as sounded through the platform of the party of the great majority of our people, rings out clear and strong for the maintenance of the protective tariff principle.

OUR democratic friends are becoming agitated in spots over their State ticket this year. Inasmuch as the party they will play in the election next November will be largely perfunctory, their sporadic protests against the Republican nominees will not cut much figure in the outcome.

Republican State Candidates Here.

Tionesta had a visitation from the Republican candidates for State Treasurer and Auditor General, respectively Hon. J. A. Stober and Senator A. E. Sisson, on Monday night.

Senator Penrose, in his speech at Altoona Thursday night said:

"Pennsylvania Republicans have nothing to apologize for in this campaign. Our treasury is free from debt and our Auditor General's department has shown a wonderful vigilance in the collection of this money which comes from a tax on corporations.

"Our candidate for State Treasurer has had long service in the legislature and good business training. He is one of the great army of men who offered his life in the preservation of the navy. I am told that he is the most popular individual in Lancaster, the third Republican County of the State.

Mayburg. Mr. and Mrs. F. K. Brown and John Moore spent a few days in Clarion last week.

Against Lengthening School Hours. The following appeared in a recent issue of the Grit, and is written by the principal of the Kellettsville high school:

Brain work is more fatiguing than physical labor. The average boy will shirk school and compromise with an indulgent parent by doing double the amount of physical labor at home that he would do on other occasions.

I am afraid our boys and girls can teach us all lessons in endurance and patience. To compare the child of 10 or 12 with the average worker on the farm, the mill and factory, is odious and ridiculous.

PEARY'S STATEMENT Will Charge That Cook Cannot Produce Shoes, Sledges and Other Equipment.

It has been learned at Portland, Me., from a source close to Commander Peary that the commander justifies his action of refusing to allow Dr. Cook's instruments or records on board the homeward bound steamer Roosevelt on the theory that he had been aware for some time of Cook's intention to claim the discovery of the North Pole, and that Peary, therefore, would sanction nothing to aid this project.

The Pelican. The pelican is not an attractive bird. He offends both the eye and the nose. But he is commendably regular in his habits.

—Many people, says an exchange seem to deem the "girl-of-the-day" of no account compared with the girl of our grandmothers' time that is a mistake.
