Guaranteed Hosiery.

There are so many conditions attached to the guarantee of most guaranteed hosiery that most people are excluded from taking advantage of the guarantee.

Not so with Linen Wear Hosiery. The guarantee of this line of hosiery is satisfaction to the wearer. You need not buy six pairs. You are bothered with no coupons. If the hosiery you buy does not give satisfactory wear, all you need do is inform us. We will give you new for the old and the manufacturer will make it right with us.

Linenwear Hosiery

Is not coarse like other guaranteed hosiery. It is made of the best staple of Egyptian and American cotton. It is strengthened, not by clumsy thickness, but by linen reinforcements at the wearing parts. The dyeing is done by the new sulphur process—insuring a perfectly fast and sanitary color.

For boys, girls, men and women, 25c and 35c a pair.

Our Idea of Store Service is Unmatched Values in Good Qualities.

"You ought to do the underwear business of Oil City," said the representative of the largest underwear mills in the whole world. "You give better values than ninety per cent. of my trade." We replied to the effect that that probably explained our satisfactory sales. If we did not give any better values than the other stores do we wouldn't do the enormous business we do. We search the markets to procure the very best values we can get to give our customers at the price. In Hosiery and Underwear particularly we strive to give you the best numbers that most careful buying can procure.

Tall Queens and Short Kings.

It is a curious fact that nearly all the present Queens of Europe are taller than their consorts. The most graceful woman among European royalties, Queen Alexandra, would perhaps come an easy first; our Queen is six inches taller than King Edward. The Czar is also much smaller than his beautiful consort, and according to the same authority, the German Empress has a greater height than the Emperor. The King of Italy is known as one of the smallest rulers of his time, and scarcely reaches to the shoulders of the truly regal Montenegrin Princess whom he married about seven years ago. The Queen of Portugal also, we are told, is taller than King Carlos, and likewise the Queen of Denmark. Queen Louise is a Swede, and belongs to a nation of big people. The Queen of Rumania and the Queen of Spain also equal, if they do not exceed, their consorts in height.—Westminster Gazette.

Ghost a Bookworm?

One of the most curious "hauntings" occurs in a northern castle of great antiquity where Mary Queen of Scots rested when she was being conveyed a prisoner through England. It is manifested in the library and takes the form that the books cannot be kept in order. They move about, or are moved about, from shelf to shelf. If you arrange the works of Shakespeare in correct order on one shelf by next morning the volumes are scattered anyhow on different shelves. This has gone on for years. At different times the library has been searched, and locked, watches have been set all night, servants have come and gone, but the mysterious occurrence goes on, and is vouched for not only by the family but by the guests who have stayed in the house. There is no legend to account for it.

Appeal for Force.

In 1817 one Richard Thornton, called to the bar of the King's Bench in England, charged with the murder of Mary Askford, in open court threw down the glove and defied his accuser. Whereupon there was a pretty to-do. Wager of battle, it was supposed, had died a natural death in the dark ages, but Lord Ellenborough, after much consultation of precedent, held that it was still the law of England and ordered a field to be prepared. Thornton's accuser thereupon declined combat, the prisoner was discharged. Next year Parliament passed an act abolishing this privilege of appeal to the strong right arm.

Medical Training.

As a school of character it is doubtful if any better could be devised than the routine career of a medical student. It is not claimed that every medical student at the end of his five years' curriculum will be found to have become a saint. But if he has not developed many qualities of self-restraint, courage, gentleness, and forbearance it is not for want of opportunity of practicing these virtues.—Lancet.

Research Workers.

In some German factories more than a hundred university graduates who are specialists are employed in research work. Concerning this policy, Professor Ostwald says: "The organization of the power of invention in manufactures on a large scale in Germany is as far as I know unique in the world's history, and is the very marrow of our splendid triumphs."

The Graft Instinct.

A business man of New York City, with broad experience, calls attention to a marked difference that exists between Federal and city employees. "While you find the graft instinct at a minimum among the Federal employees," he says, "it is at a maximum among the city servants, whose minds and methods at once reach for it at the first opportunity."

School Fund of Texas.

The permanent free school fund of Texas amounts to more than \$50,000,000 in value, and the revenue derived comes in large part from interest on bonds of the various counties, and much of it from rent of lease of school lands for grazing purposes and from interest on notes taken for deferred payments or land sold.

Towns Named Alike.

There are 27 cities and towns named Troy in the United States. 19 named Athens, 17 Uticas, 15 Alexandrias, 15 Romes and 12 Carthages, not to speak of seven Atticas and seven Syracuses. Only two States, Indiana and New York, contain towns bearing all eight of the names. Ohio and Missouri contain seven each.

C Major for Indigestion.

Where the trouble is physical, such as failure of an organ, indigestion, congestion of the liver and so on, strong, firm, martial music will give best results, according to Dr. Latson, editor of Health Culture. For this class of treatment the key of C major is particularly recommended.

Shark Migration.

Submarine explosions in the war in the Far East are supposed to have driven sharks to European waters. The sharks have passed through the Suez Canal into the Adriatic, and may even invade the Black Sea.

Vicarious Osculation.

BIDS FOR BIG FIGHT

Coffroth and Gleason of California Each Determined to Land the Match.

New York, Nov. 2.—Jeffries has decided to remain in this city until the 1st of December, when bids for the fight with Johnson will be opened and the battleground decided upon. Johnson says he will also remain East until this important question has been settled. Two rival promoters, James Coffroth and Jack Gleason, who can deliver the goods, will have the inside track when it comes to outbidding individuals outside of California, but from all accounts they will indulge in a bitter struggle to land the match. Gleason arrived here last night. He said Coffroth would have to play very high to beat him.

Gleason, who is a close friend of Sam Berger, Jeffries' manager, has secured a license to conduct glove fights in Alameda county, thirteen minutes ride from San Francisco. He has secured an option on property just beyond the city limits and says, if he gets the match, he will build the biggest arena in the world, to be operated by the Ocean View Athletic club, duly incorporated.

It is a foregone conclusion that other promoters in various places will make large offers. It is accepted as a certainty that Coffroth and Gleason will have to fight it out to a finish.

RED FIRE ADJUNCT TO BIG REVIVAL

Evangelist Said to Have Netted \$3,000 in Three Weeks.

Norwich, N. Y., Nov. 2.—A religious campaign which has swept the upper Chenango valley for the past three weeks terminated at Sherburne last night in what was a fighting, if not a fitting close. Evangelist Davis asked Holland Y. Burlingame, a prominent jeweler, to attend the closing meeting. Burlingame refused and stated his objection to the subject matter of certain self and sex lectures the evangelist has been giving during his three weeks campaign. The jeweler cited his wife as a witness and her veracity became an issue.

Fred Benedict and Edwin Sweet, a mill superintendent, intervened just as Burlingame was starting a right upper cut to Davis' nose. The altercation was general for a time until Burlingame went his way, leaving Davis and his two allies fighting mad.

Two churches have lined up against the revival and the town is much wrought up.

The revival just closed was a spectacular affair and one evening a red fire parade was held in which 2,000 persons participated. Sherburne's population is only about 3,000 and the amount netted the evangelist in three weeks is reported to have been \$3,000.

GRAFT IN CUSTOM HOUSE

Importers Want to Know if President Will Back Collector Loeb.

New York, Nov. 2.—Importers who have been connected with the graft ring in the customs service are planning to send legal representatives to Washington to find out whether President Taft and his advisers intend to back Collector Loeb in the policy of protecting confessed customs thieves.

There are a number of importers who have received the tip that they are to be prosecuted for participating in or conniving at fraud. They have heard that the government has in preparation more than 100 cases dealing with organized thievery. Their attitude is that if they are to be brought to court they want to see the crooks within the service punished, not rewarded.

One of the government's special counsel who has been hard at work collecting evidence in graft cases for five months said today that the corruption in the New York customs house was more widespread and vicious than has yet been described in the Sun's exposure. He knows all about the system that has its inspiration in the custom house building and its agents in every division of the service. He knows that there are big officials as well as weighers and inspectors who have been stealing. His work is to find out just who these men are. He thinks he is in a pretty fair way to do just that.

Masked Highwaymen Held Up Stage.

Vancouver, B. C., Nov. 2.—Two masked highwaymen held up the Cariboo stage at One Hundred and Fifty Mile House in Cariboo early in the day and stole several sacks of registered mail. The robbers were armed with rifles and met with no resistance from driver or passengers.

We Shoot Out 75 Pounds Nearly Every Minute

Each mammoth gun, at each discharge, shoots out 75 pounds of Puffed Wheat or Puffed Rice.

And a gun, to meet the present demand, must be shot about every minute.

For, last month, seventeen million meals were served of these new, enticing foods.

If your folks like what most folks like, they'll enjoy these gigantic grains.

Puffed Wheat—10c Puffed Rice—15c

These are the foods invented by Prof. Anderson, and this is his curious process:

The whole wheat or rice kernels are put into sealed guns. Then the guns are revolved for sixty minutes in a heat of 550 degrees.

That fierce heat turns the moisture in the grain to steam, and the pressure becomes tremendous.

Crisp and nut-like—four times as porous as bread. Grains that melt in the mouth.

There is nothing else to compare with them. No cereal food half so good.

When you try them, you'll be glad that we told you about them. And your folks will be glad.

Don't wait longer. Order one package. Submit it to a vote of your table.

Then the guns are unsealed, and the steam explodes. Instantly every starch granule is blasted into a myriad particles.

The kernels of grain are expanded eight times. Yet the coats are unbroken, the shapes are unaltered. We have simply the magnified grain.

One package will tell you why people delight in them. Order it now.
