PLATFORM PROMISES President Will Urge Congress to Continue Roosevelt Policy.

Determination to Make the Great Corporations Obey the Law - Recommendation That Interstate Commerce Commission Be Given Supervision of Issuing of Stocks and Bonds of Interstate Railroads-No Radical Suggestions on Internal Waterways.

President Taft will begin the preparation of his message to congress soon after his return to Washington Wednesday. He has indicated in his speechas what that message will be. It will recommend an unusually long program for congress and one that is likely to revive a good deal of the hostility shown to the Roosevelt administration on the score of the railroad rate legislation. That the president has been looking forward to the possibility of serious opposition within the ranks of his own party is indicated by his recent speeches. On several occasions he has warned the public that congress, not the president, is to be blamed for failure to enact laws

clinching the Roosevelt policies. The president has indicated the idea on which his coming message will be found in this statement: "The administration was elected on a platform that proposed to carry out the policiea Theodore Roosevelt, and we proof pose to keep that promise."

There will be a recommendation in the message that the interstate commerce commission be given supervisory power over the issuing of stocks

and bonds by interstate rallroads. The president will recommend also that no interstate railroad after a cer tain period be allowed to own stock any other railroad. As a further step in his so-called program for clinching the Roosevelt policies, Mr. Taft will suggest a reorganization of the bureau of corporations, the interstate commerce commission and the department of justice. The three under present conditions are constantly crossing each other's trail and duplicating each other's work. The president will seek to bring order into the present system. The president in all his speeches has made it clear, however, that the legitimate corporations have nothing to fear from him, that he proposes no campaign against them. His message will contain something reassuring along this line, as in his addresses.

The narrowing of the scope of the Sherman anti-trust law is another recommendation that will be charged with the possibility of trouble in congress. Mr. Taft will recommend that

Will Be Demanded of President by Some New York Importers. Merchants and Importers who are disgusted with condition in the New York custom house are planning to ask President Taft to remove William Loeb, Jr., from his job as collector

REMOVAL OF LOEB

of the port. The Sun has learned that representatives of a number of large Importing concerns have held a meeting to talk over how the matter shall be put up to the president when he returns to Washington. It was stated authoritatively that more conferences will be held on the same subject.

Representatives of mercantile concerns that have been squeezed by dishonest officials in the appealser's department as well as by grafters in the surveyor's division have made up their minds to ask for a square deal from the president of the United States, At the same time they want congress to send a commission to New York which will comb the customs service out and not permit its reports to be pigeonholed in the treasury department.

The merchants who think that the only chance of securing permanently improved conditions in the New York custom house is by letting Mr. Loeb out of the collector's office intend to tell Mr. Taft a number of things which have been concealed from him hitherto-matters that have not reached the president either through the stupidity of some officials or the excessive friendliness of others to the grafters.

ESTATE OF \$60.000.000

Somewhat Less Than Half Bequeathed to Public Benefit. John Stewart Kennedy's will, which was filed in New York last week, disposes of an estate estimated at \$60,000,000 value, somewhat less than one-half of which is bequeathed for the public benefit, being distributed among various religious, educational and charitable institutions,

The will was made on March 26 last. The executors of the will are the testator's wife, Emma B. Kennedy; his nephews, William Stewart Tod and Robert Eliot Tod, and Mr. DeForest, whom the testator describes as his friend. The executors are also trustees under the will, which directs that no bonds be exacted from them.

The list of legacies number 46. The university of Glasgow gets \$100,000; the Tuskegee institute (Booker T. Washington) \$100,000, and the Syrlan Protestant college at Beirut \$25,000. Seven of the country's colleges receive \$100,000 each, namely: Yale, Amherst, Williams, Dartmouth, Bowdoin,

Hamilton and the Hampton Normal school. fayette. Wellesley and Oberlin col- has been interpreted by the supreme

LAND OFFICE CHARGES

L' R. Glavis Writes of Alaska Coal Field Monopoly.

Member of Taft's Cabinet Is Again Accused of Failure to Take Steps to Save Immense Beds of Fuel from Fraudulent Entry-Deposed Government Employe Says He Was Removed Unjustly by Mr. Taft.

New York, Nov. 9. - In an article rounding a sharp curve the auto ran prepared for Collier's Weekly of Nov. down a ditch. All four were thrown 13 and copyrighted by that publication L. R. Glavis, removed in September death or serious injury. A severe from the office of chief of field division of the general land office, says: injuries sustained. Mrs. Flagler is an invalid and an inmate of Dr. MacDon-

Copyrt, 1909, by P. F. Collier & Sons. "From 1902 to 1909 I was in the field service of the general land office, for the last two and a half years as chief of field division. In September, 1909, was summarily removed from my position without a formal hearing by Richard A. Ballinger, secretary of the interior, by authorization of the presiient of the United States. That removal was accompanied by the publication of a letter of the president to Mr. Ballinger. I believe that my removal was unfair. I believe the president's letter was grievously unfair, be cause in it the president gives weight to a charge against me which I never

had the opportunity to see or answer. The president states in his letter that I withheld from him information favorable to my superiors. I do not know of any such information with-

held by me, nor am I conscious of doing my superiors injustice. Nevertheless, I should not now make any public statement of the matter were it not still possible to save for the government many thousands of acres of coal lands which I believe the land office may in the near future grant to fraudulent claimants.

Coal Lands of Inestimable Value.

"The coal lands of Alaska owned by the government amount to over 100, 000 acres. They are the future coal supply of the nation, of almost inestimable value. Possession of them by private individuals means great wealth. A monopoly of them would be a national menace,

"On Nov. 12, 1906, President Roose velt withdrew all coal lands in Alaska from public entry, but previous to that time there were about 900 claims filed, covering about 100,000 acres, nearly the whole of the coal fields. The law attempts to prevent monopoly of such claims by limiting the amount of each claim and providing that each claim-Ten educational institutions ant must take up the land in his own receive \$59,000 each, these being La- interest and for his own use. the day at the Steinhell trial was given over to the testimony of experts. On the whole the ovidence adduced favored the accused woman. They made it seem almost certain that no narcotics had been auministered. M. Achery, the Steinheil family physician, whom the presiding judge announced as "the doctor and friend of Madame," quickly corrected the statement by remarking that he was mera-

ly a friend of the family. M. Balthazard proved himself a ver-Itable Sherlock Holmes. In his deductions with regard to the distance between inkstains on the floor extending from the upset inkstand to the bed, he reached the conclusion that they were made by the set of a woman's pettlcoats or a dressing gown, as the intervals corresponded with a woman's pace. He believed the spot on Madame's knee was not ink but came

from a pastel such as Mme. Steinhell was in the habit of using. The first touch of comedy in the trial came when Burlingham gave his

evidence. It is not to be understood that there was anything funny in what he said, but when a foreigner attempts to speak their language the French are always amused intensely no matter how complimentary they may be to the speaker.

Much has been heard of a mysterlous automobile which was seen on the night of the crime, but it was testified that no trace of it has been found.

LOCK FOUR IN ICEBOX

Arrest of Trio Identified as Marauders Follows Saloon Raid.

Chicago, Nov. 9. - Three hold-up men entered the saloon of Charles Sissman, 2101 Carroll avenue, shortly after 11 o'clock Saturday night, locked the bartender. Peter Jacobs, and three customers in the ice box after they had taken \$40 from Jacobs and \$1.10 from two of the customers. The robbers then emptied the cash register,

taking \$15. Jacobs and the customers gained their freedom later by climbing through the upper doors of the ice box. The Warren avenue police yesterday arrested three men who were positively identified by Jacobs as the robbers.

According to the police, the men are ex-convicts who were released from Joliet penitentiary several months ago.

TAMMANY LOST ITS GRIP Elected Gaynor but Board of Estimate

Is Fusion-Republican.

The forces of fusion will be in practical control of New York city's government after Jan. 1 next, although Tammany Hall's candidate for mayor, William J. Geynor, was elected by 73,000 plurality.

With the exception of mayor, the fusion sweep was complete. Not another Tammany candidate on city or county tickets won.

The success of the fusion forces in electing their candidates for comptroller and president of the board of aldermen, together with the victories of the fusion and anti-Tammany candidates for the presidencies of all five boroughs, will give the opposition to Tammany 13 out of 16 votes in the important board of estimate. This board will have in its hands, during its term of office, the expenditure of

practically \$1,000,000,000. On the county ticket the fusionists elected their candidates for district atthe coarsest and guarantees his work to give perfect satisfaction. Prompt atten-tion given to mending, and prices rea-tion given to mending, and prices reaother victories, will place nearly every bit of patronage in the greater city in their hands.

Below mayor, the fusion candidates on the city ticket won by substantial pluralities, that of W. A. Prendergast, for comptroller, being 74,559, and that of John Purroy Mitchell for president All work pertaining to Machinery, En- of the board of aldermen was 71,031.

WILL NOT TAKE SIDES

State Department Not Interested In Peary-Cook Controversy.

The state department at Washing ton declined to take any action In the polar controversy between adherents of Commander Peary and Dr. Cook. A delegation representing the National Geographic society called on Mr. Wilson to enlist the good offices of the department in an effort to have the authorities of the University of Copenhagen allow the society to inspect Dr. Cook's polar data,

The members of the committee se terted by the Geographic society to go to Copenhagen will be given the usual letters of introduction by the state department but no other assistance will te extended to them.

Telephone System of Train Dispatching The telephone system of train disnatching is about to be used on the New York Central between Albany and Syracuse.
