The work shows up well from this side of the river and adds much grandeur to the new "city of the dead." The weight of the new shaft is over 16 tons, and its height 11 feet, 8 inches.

 —A number of friends and neighbors formed a wood chopping party at the home of Mrs. J. H. Dickraeger, of Hickory Township, last Saturday and a large supply of wood was cut and hauled to the house. Mrs. Dickraeger, desires to thank the good people for their kind help. "Friends in need are friends indeed."

 —The Foster Oil Co., composed of Tionesta and West Hickory parties, seem to have a good well in their No. 1 on the Strain farm, two miles west of Fagnodus, on the road to Neilltown. The well was shot Thursday and after being pumped a few hours made a fine showing. The oil is found in the third sand at about 550 feet. A power is being installed this week and drilling will be continued on the lease.
 —Thursday last was a veritable winter day, and about the first that we've had so far. Snow to the depth of 6 to 8 inches fell in the forenoon and remained pretty well along toward Saturday noon, when the sun and a balmy south wind licked it up in a short time. Snow, like the buffalo of the plains and the deer of our native forests, is becoming such a rarity in these parts that it's really worthy of more than a mere mention.
 —The brick paving is now down beyond the REPUBLICAN office, and like the other selfish people in front of whose property the job is completed, we're breathing easier. The curb and concrete foundation is finished as far out as A. B. Kelly's home and it is hoped to have the brick laid before real winter overtakes the contractors, a consummation devoutly to be wished. Messrs. Anderson & Putnam have been wonderfully favored with weather conditions so far.
 —G. W. Meader was awarded the contract yesterday for lathing and plastering the interior of the new Commercial Bank building. There was considerable competition for the work, as it is of sufficient importance to be worth while. There will be between 8,000 and 9,000 square yards of plastering. All of it has to be done in the best possible manner. Mr. Meader will commence the work as soon as the contractors are ready. It will take him in the neighborhood of three months to finish.—Tionesta Herald, 20th.

—Lewis Songer the blacksmith is making a rifle that is something out of the ordinary. Mr. S is a fine mechanic and has the equipment to do fine jobs. The steel portions, barrel, trigger and sights are now completed and the stock is being made of as fine a piece of curly maple as the writer ever laid his optics on. Mr. Songer has had the wood which has been dried more than 20 years and is of Forest county production. The gun when completed will be his own handiwork and well worth seeing.—Marienville Express.

—Aaron Segerstrom, formerly Street Commissioner in Ridgway borough and now living at West Hickory, Forest county, and employed as outside foreman at Smith's Tannery, sustained a broken rib on November 4, by falling while engaged in pushing a bark car. He was at the rear of the car and in some manner slipped, falling upon his chest upon the track. Mr. Segerstrom did not know at the time that he had broken any bones, and though he was considerably shaken up, he did not give up work until November 8, when his side gave him so much pain that he decided to consult a physician. The latter found that a rib had been broken and Mr. Segerstrom has been off work since. He has many friends in Ridgway who will be very sorry to hear of his misfortune.—Ridgway Advocate.

—W. G. Rodgers, the representative of the Kerr Monumental works of Oil City, has been in Tionesta during the past week engaged in setting some monuments which his firm put out. He is ready at all times to consult with any who have need of anything in his line and is prepared to give the closest figures on the finest line of material and perfect workmanship. A postal card request will always bring a response from him, or a call at your home or place of business.

—The snow and rains of the past few days have brought the long desired rise in the river, sufficient to allow the running of a number of boats and barges from Nebraska and Hickory. The fleets are ready to start on the downward voyage as soon as the high winds subside sufficiently to permit of safe navigation. The Forest Barge company has ten barges and a steamboat built to run, while the Nebraska company has several barges and three or four fleets of flatboats on the way. Albert Lawrence and Lewis Cook are the respective jobbers in charge of the running of these craft.
 —Editor Baker of the Ridgway Advocate, who spent a month in New Mexico and came home shortly with that "satisfied look" beaming on every part of his countenance, is writing some mighty nice articles descriptive of his trip to that land of climatic salubrity for his paper. In summing up he says: "It is also great for the restoration of the nerves and the most delightful place to rest and recover from overwork. I have tried it and I know it helped me even in a sojourn of only three weeks in the delightful climate, for I could sleep, and eat and rest as I never could anywhere else."

—The Foxcatcher Spirit of a recent date tells of the successful hunting trip of the Oakmont Hunting Club in the wilds of Canada, the thirteen members of which brought home 25 deer and two bears. Walter S. Brown, a brother of Mrs. A. C. Brown of Tionesta, was a member of the party and with a friend brought home four deer and the two bears, a mother and cub. Mr. Brown killed the old bear, while his friend got the cub. Two other cubs escaped. The Poxsy hunters state that the train which brought them to Toronto carried 300 hunters and 500 deer. Mr. Brown is the gentleman who caught big fish here last year.

—At Tidouthe the telephone question is now uppermost in the minds of the people. It is the same old question which every considerable community of people has been called upon in recent years to decide. The Central District and Printing Telegraph company, as the Bell is known in this section, owns and operates a system in Tidouthe. It has a franchise, granted free by the borough quite a good many years ago. Lately promoters of an independent company, composed of Oil City men and others, have been in Tidouthe and asked for a franchise in the streets for the purpose of establishing an exchange, later to be connected with the lines of the Forest Telephone company doing business in Tionesta, Hickory and other places in that territory. The town council has been considering the subject and at a recent meeting received an application for the franchise. At the same time there came a communication from the Bell company, advising council to require a goodly sum for permission to use the streets. It is understood that at the next meeting which will be held in December, the franchise will be granted upon the same terms under which the Bell is operating.—Tionesta Herald.

Severely Injured.
 Jay Range, of Stewart Run, aged 19, was painfully and for a time supposed to have been dangerously hurt Saturday afternoon. He was one of two teamsters engaged in hauling a boiler from Pithole to the Cubbins farm. Range was managing the second team when the wagon tipped and the dome of the big boiler struck a tree breaking it off at the butt and the young man sustained a considerable portion of the force of its fall upon his chest and left shoulder. He was rendered unconscious for a time. He was brought to the home of his father, M. L. Range, and Dr. Dunn called in attendance, but aside from the severe bruises sustained the physician could find no dangerous injuries or broken bones. The young man is getting along quite well and was able to drive to town Monday. Jay is the same boy who was so frightfully injured by getting his left arm and shoulder caught in a gas engine gearing three years ago, and for a time his life was despaired of.

Fatal Gunning Accident.
 I. H. Borland, one of Franklin's prominent and well known citizens, met death in a very pathetic manner on Friday last, while out hunting a short distance from the city limits. He left his home in the afternoon with his hunting outfit, telling his wife he would go up over the hill for a little trip, more as a matter of exercise than for the game he might bring in. That was the last heard or seen of him until the finding of his body Sunday. When he did not return Friday evening his wife, though troubled by his absence, supposed he had remained over night at some farm house. Saturday a searching party of over 200 persons was organized, but they found no trace of the missing man, and on Sunday morning the search was renewed and shortly before 10 o'clock the body was found lying face downward, in a hollow near a small stream. Near him his gun was found and on a paper was written the words: "Accidental. Slip and fell. Take care of things." One barrel of the shot gun had been discharged the charge having entered the leg just below the knee, severing two small arteries and carrying away the calf of the leg. The nature of the wound was such that death from loss of blood must have ensued in 30 minutes. Realizing the gravity of his condition he had evidently taken the papers from his pocket and written the hurried lines. The coroner's jury rendered a verdict of accidental death. Isaac Huston Borland, the unfortunate victim, was aged 50 years. His wife and one daughter survive. His aged father, Dr. J. R. Borland, and one brother, James B. Borland, editor of the Franklin Evening News, also survive. Mr. Borland was widely known in Venango county, which he had served as treasurer for three years. He was a man of generous impulses, kindly heart, devoted to his family and friends, and his tragic death has appalled the community in which nearly his whole life had been spent.

This was followed by a paper on the life of William Shakespeare by Mrs. James J. Landers. These papers were very interesting and instructive. The first act of Shakespeare's comedy, "As You Like It," was then read in character by ten ladies of the club. The afternoon's program was closed by the reading of several current events.

Resolutions.
 Whereas, on the 16th day of November, 1909, it pleased Almighty God in His all-wise providence to call from our midst our beloved brother, William Cropp, whom we held in high esteem and whose loss we most deeply feel. Therefore, we bow in humble submission to Him who doeth all things well, considering that our loss is his gain.
 Resolved, That by the death of our beloved brother our order has lost a faithful member and the community a faithful friend.
 Resolved, That the members of Forest Grange, No. 533, P. of E., extend to the bereaved family their sincere sympathy and consolation in this, their hour of sorrow and bereavement, commending them to Him who doeth all things well, which is the only source from which redemption and comfort can be obtained.
 Resolved, That as a tribute of respect to our departed brother, our charter be draped in mourning for sixty days; that these resolutions be placed on the minutes of this Grange; a copy be presented to the bereaved family, and also to each of the county papers for publication.

 Mrs. Mary Walters, wife of Henry L. Walters, of Tionesta, died at the Oil City hospital, Monday evening, Nov. 22, 1909, following an operation. She had been ill for more than a year with cancer and was admitted to the hospital Saturday. Mrs. Walters, whose maiden name was Craw, was born at Kitzia, Pa., June 8, 1837, and in early childhood was adopted into the family of Mr. and Mrs. James McIntyre, former residents of Stewart Run, Harmony township, where she grew to womanhood. In September, 1901, she was united in marriage with Mr. Walters, who survives her, together with two daughters, Bernice and Vivian, and the family thus bereft of a loving wife and mother have the sympathy of the entire community. The pie social held by the school was largely attended and proved to be one of success and much merriment. A plum pudding, home made candies, sandwiches and hot coffee were on sale during the entire evening. The sawdust plum pudding caused lots of fun and the plums went like hot cakes. Each lady brought a pie and then sold a toe to the highest bidder. The sun rose to a high pitch when the toes were thrust from beneath a large curtain and then the bidding commenced. The pupils of Room No. 1 sold their pies for 15 cents straight to the smaller boys. The guess cake, which contained a geranium leaf, was a stickler for the guessers and was finally walked off. The proceeds, which amounted to \$24.00, will be used for various things needed in the school room.

A sewing bee was held at the home of Mrs. Frank Gorten last Thursday from 1:30 to 5:00 p. m. Mrs. Gorten, who has been in poor health for the past year, was unable to dispose of a large amount of sewing which she had on hand, so the ladies of Highland avenue used this means of helping her. By two o'clock four sewing machines were whirring away and a half score of busy hands kept these machines supplied with the garments. A large amount of sewing was soon completed. During the afternoon Mrs. Gorten served a very dainty lunch, which spoke well for her skill in the culinary line. Lunch was served to the little folks in the hall, where they were enjoying themselves to their heart's content. Those present were, Mesdames Dunkle, Horner, Peterson, Stakley, McCullough, Brewster, Atkins, Paul, Lindsay, Colby, Walter, Fitzgerald, Rayborn and Miss Kifer. Mrs. Barber and daughter Geneva of Epstein were out-of-town guests.
