CONGRESS.

ENDEAVOR, PA., Nov. 29th, 1909. My DEAR EDITOR:-You are hereby authorized to announce my name as a candidate for Congress in the Twenty-Eighth Congressional District of Pennsylvania, subject to the rules governing the Primary to be held Saturday, June 4th, 1910. N. P. WHEELER.

CUBA is reported to have a crisis due to disappointed office seekers. A republic subject to revolution from this cause can never hope to settle one emergency without running into another.

SALT is now finding its medical advocates, even at the season of the year when it is the principal agent in salting down the things which are to work mightily for indigestion during the coming year.

THE Unitsd States courts will do the country a valuable service if they can make competition take the place of combination in affairs of business. Let freedom reign again, is a popular slogan.

THE holding of farmers' institutes throughout Pennsylvania for the winter season under the auspices of the Agricultural Department has already begun, says the Punxy Spirit. Instructive programs are arranged and competent lectures are provided. These institutes are not only very instructive, but highly beneficial in a social way. The farmers are beginning to look forward to them with pleasure, and many of the ideas and suggestions there received are put to practical use. Every farming community should have at least one of these institutes during the winter season.

AFTER December 31 the new state law as to automobiles will go into effect in Pennsylvania and its provisions will knock city and borough ordinances endways, so far as speed limit is concerned. After that date it is permissable for the machines to run 24 miles an hour except where signs are erected bearing the word "Dangerous," when it will be imperative to run the machine not faster than 12 miles an hour. As these signs must be placed on every street and painted in large letters to compel the observance of the lower speed law, it will be realized that very little will be done in this line,

The two cent International card will bear a portrait of General Grant. The double or reply card will contain a new feature. On the original message half will appear a likeness of General Washington, while the stamp on the reply will contain a

THE health officer of the District of Columbia wants to abolish the Chautauqua salute because the waving of handkerchiefs may throw germs into the air. This shows just how crazy a man can get over an idea. The handkerchiefs waved by Chautauqua audiences belong to dainty little school ma'ams, neat old ladies whose delicately perfumed lace squares would not carry any germs, studious young mothers who are as neat as surgeons and would not take germ-laden bandkerchiefs to lectures. The man who is making the fuss about the salute ought to go over to the Capitol at Washington and make a protest over the germs that come with every train to Washington in palace cars, some visible and some invisible, and over the way the germs get into the tainted money that passes around down there. He is not doing the country any good by fussing about the Chautautauqua salutes.-Franklin News.

Mr. Wheeler a Candidate.

Formal announcement of the candidacy of Hon. N. P. Wheeler for Congress, from the 28th district, appears in this issue of The Breeze. Mr. Wheeler, who is seeking a renomination, has proven a trusty official, worthy of his party's support, and has no opposition for the place as yet. -Sandy Lake Breeze.

It is generally held throughout the eastern half of the county that Mr. Wheeler's record during the past four years in office has demonstrated his fitness for the position, and the indications are that Mercer county will go solid for him inasmuch as there seems little. probability that another candidate will enter the race from this county .- Sharon Evening Telegraph.
