

Calendar for January 1910 showing days of the week and dates.

Announcements.

CONGRESS. ENDEAVOR, PA., Nov. 29th, 1909. My DEAR EDITOR: You are hereby authorized to announce my name as a candidate for Congress in the Twenty-Eighth Congressional District of Pennsylvania...

"GET back to the farm" is the general slogan now. But the trouble is that every man in town thinks his neighbor ought to be the one to get back.

A GIRARD man paid about seventeen dollars in court for having left his team exposed, without blankets. Possibly there are other men equally thoughtless.

A REPORT from Washington, D. C., is in effect that Col. Wesley R. Andrews, Republican state chairman, is seriously ill, though not dangerously so. He is said to be suffering with a slight attack of pneumonia. His many friends throughout this section sincerely hope that his recovery will be speedy and permanent.

IN Cleveland some thirty thousand heads of families have signed a pledge to eat no meat for thirty days, and other thousands are joining the strike. This sort of thing is easily understood by the beef trust, and if it becomes general over the country, there will be a reduction in price which will show that what the trust could not do it will do if forced to do it.

SATURDAY, January 29, will be Carnation Day, a date set apart in memory of the martyred President, McKinley. He was born on January 29th and as his favorite flower was the carnation, a grateful people have taken to the wearing of the fragrant blossom upon that occasion as a mark of esteem and respect. It is indeed a pretty custom and just such a simple show of affection as would please a man of his great heart and unostentatious ways.

AN industry of the United States that has grown with enormous strides is the production of natural gas, the value of which has increased since 1882 from \$215,000 to \$54,940,374 in 1908, the latter figure being 25 times greater than the production of 25 years ago. Pennsylvania, of the 22 gas-producing states, led in the production in 1908 with \$19,104,544; West Virginia was next with \$14,837,150, then came Ohio, Kansas and Indiana. The remaining states' production was below \$1,000,000 each.

THE State Highway Commissioner, Joseph W. Hunter, has issued warning that the new state automobile law, requiring all drivers to be over 18 years of age and to hold licenses, must be observed strictly. The law went into effect on the first of January and has been declared constitutional by Deputy Attorney General William B. Hargest, who says it prohibits anyone except the owner operating a machine unless he has a license granted after proof of his competency. The owners must have licenses also when they act as chauffeurs.

PEOPLE who slake their thirst and cool their internal economy with "soft" drinks will be interested to hear what Dairy and Food Commissioner Foust of Harrisburg has to offer upon the question. He says that eighty per cent. of eight hundred samples examined were found to be adulterated. He says that "many of these preparations are nothing but tap water of uncertain purity, sweetened with saccharin, flavored with an essence, often artificially colored with a coal tar dye and actually made foamy with a tincture of soap bark."

PENNSYLVANIA editors in their state convention the other day "resolved" quite commendably. One of the objects of their disapproval is the insurance graft whereby fire insurance companies wring from the public such enormous profits as to enable them to pay 60 to 90 per cent. dividends. The editors advocated an investigation of the whole fire insurance question by the state legislature. They also adopted resolutions in protest against the proposition to increase the postage rate. Altogether they did a good day's work away from their sanctuaries.

WHAT amounts to the virtual proposal to transplant to American soil the British age pension scheme, is contained in the bill introduced by Representative Conroy of Missouri. If enacted the government would have to pay a weekly stipend to every man above the age of 70 who has lived here 20 years or more and whose income is shown to be not over \$253 a year. To all such with an income less than \$102 a year the pension would amount to \$1.24 a month and that is the maximum, the amount being graded down to 25 cents a week for those having at least \$140 income. This forestalls Congressman W. B. Wilson, who was reported to have an old age pension idea in the warming pot.

It has been discovered in the office of the secretary of the commonwealth that an omission in the newly amended section 21 of article 4 of the constitution will in all probability, result in giving Auditor General-elect E. A. Sisson, of Erie, a term of five years. The amendments provide that the terms of the secretary of internal affairs, the auditor general and the state treasurer shall be each four years. But in order to conform with section 2 of article 8, which provides that elections for state officers shall always be held on even numbered years, an exception was made in the case of the state treasurer elected in 1909. In this case it was provided that he shall serve three years and that his successor shall be elected in 1912. No exception is made in the case of the auditor general and it is contended that Mr. Sisson will have to serve until 1914.

Two More Get Pensions.

From the Greenville Evening Record, under date of January 13, the following is taken, which shows that our Congressman may break the special pension record in his determination to continue this good work for those who need and are entitled to receive his aid: Congressman N. P. Wheeler has scored again on special pension bills and has succeeded in getting two more favorably reported by the pensions committee and both are for Mercer county men: John W. Campbell, of Grove City, \$24.00 a month. Timothy Sullivan, Jamestown, \$24.00 a month.

This is in addition to the five recently noted in this paper. Seven special pensions with the session scarcely started is a record of which Mr. Wheeler may well be proud.

The Congressman also has a general pension bill to present, with provisions to cover the time and kind of service of the 55th Pa. and other regiments which have been unjustly barred from participation in pension benefits.

RECENT DEATHS.

Delos Slocum, one of the oldest residents of Tylersburg, died at the home of his daughter, Mrs. Victor Wingard, in Tylersburg, Sunday night, January 23, 1910, of ailments incident to old age. He was aged 79 years and had been a resident of that community for about 40 years. His wife died two years ago. He is survived by six sons and one daughter, as follows: William, of Trueman; James, of Lynch; George, of Endeavor; John, of Ohio; Frederick, of Erie; David Slocum and Mrs. Victor Wingard, of Tylersburg. Funeral services will be held Thursday at the Hagen church, near Tylersburg, and the interment will be made in the cemetery at the church.

John VanCamp, of Marienville, died at his boarding house on Cooper avenue, Oil City, at 4 o'clock Saturday morning, Jan. 23, from Bright's disease. He was engaged in drilling water wells on Haddon Heights at the time he was stricken with the illness which caused his death. Mr. VanCamp was aged 31 years. He was a son of the late John VanCamp, of Tionesta. Eighteen years ago he was married to Miss Elsie Silvis, of Marienville, who survives him, together with four children. He is also survived by his mother, Mrs. John VanCamp, of Fryburg, three brothers and two sisters, as follows: J. E., of Lucinda, Pa.; William, of West Virginia, Samuel, of Fryburg, Mrs. Isaac Hepler, of Kane, and Miss Goldie VanCamp, of Tionesta. He was a member of the Free Methodist church of Marienville. The body was brought to Tionesta Tuesday morning for interment in Riverside cemetery, the funeral being held this morning at 10 o'clock.

Porkey.

A child eighteen months old of Mr. and Mrs. Chas. Zerby, died Saturday morning of membranous croup. Interment in the Leeper cemetery. A. L. Weller's teams are busily engaged hauling lumber from Henry's Mills and piling it in the South Penn board yard at Porkey. Mrs. Jas. Welsh is visiting her daughters, Miss Lois Welsh and Mrs. Jas. McMichael, in Sheffield. Mr. and Mrs. Nathan Burdick, of Henry's Mills, are visiting at the home of O. E. Rupert. Bertus Jordan visited friends in town the past week. There was no Sabbath school Sunday, it being impossible for the children to get to the church on account of the heavy fall of snow.

Mr. and Mrs. Elva Brennan are going to spend the winter with his brother, Lewis Brennan, at Minister. The people in our village were quite uneasy Tuesday night when the ice from the Minister pond started, gorging at Green's Island, below Balltown, and causing the water to back up and overflow the banks of the creek. For a time it looked as though the people would have to take to the tall timber. The water began to fall and in thirty minutes the danger was past. Mr. and Mrs. John A. Lore left last week for Prospect, Florida, going first to his former home in New Jersey for a short visit. Mr. Lore has been in the Forest county oil fields for twenty-four years. Our people are sorry to lose them. Little Edward Harrington, who has been suffering from infantile paralysis, is improving very slowly. Wm. Labree, of Minister, departed last week for Coalinga, California. This is the second trip for Mr. Labree in the past year.

ALL NIGHT IN TROLLEY CARS

Snowbound Passengers Suffered Little Discomfort. Erwin, Pa., Jan. 25.—Two trolley cars on the Erwin-Greensburg line were caught in a big snow drift east of town last night and could not move. The big snow plow and sweeper cars were unable to reach them. Those on board suffered little discomfort as a result of being compelled to spend the night in the stalled cars, as warmth was provided by steam heaters.

SMUGGLED CHINESE

Five Were Found Concealed in a Carload of Potatoes. Ogdensburg, N. Y., Jan. 25.—Chief Inspector George W. Ketchum went to Cherubusco and on investigating a carload of potatoes shipped from Burke by D. Johnston to the same name at Springfield, Mass., found five Chinamen snugly ensconced behind a wall made of potato bags. The car was only half filled with potatoes, the Chinks having plenty of room to move about. They had a basket of food, several cans of water and there was a stove, wood, etc. in the car so that there would be no danger of suffering from cold. The officers took the Chinamen into custody and brought them to Malone and locked them up at the detention house.

ACTION BY GOVERNMENT

Department of Justice to Begin Proceedings Against Beef Trust.

Right in line with the general movement through the country against high prices of foodstuffs, and particularly meats, announcement was made officially that the department of justice is about to begin proceedings against the beef trust. The department it was said, would proceed against Armour & Co., Swift & Co., Morris & Co. and the National Packing company, all of Chicago.

According to information given out by the National Packing company is controlled by the three concerns named. The companies, it is alleged, control the price of beef through their control of the National Packing company. The proceedings will be begun as soon as possible. The federal grand jury will meet in Chicago next Monday and at that time the government will begin the examination of witnesses in the case.

The prosecution will be criminal. It was said that it was not known whether proceedings in equity to dissolve an alleged combination in restraint of trade would be instituted. The institution of civil proceedings, it was explained, would depend largely on the condition divulged by the witnesses examined by the grand jury.

The action will be taken under the Sherman anti-trust law. It is the idea of the department of justice that there is a combination in restraint of trade between the three packing concerns through the National Packing company.

OFFERS BRYAN \$10,000.

Tom Watson Wants to Debate With Nebraskan on "Foreign Missions."

Thomas E. Watson, the Populist leader, is so eager to meet Mr. Bryan in joint debate on the subject of "Foreign Missions" that he offers to give the Nebraskan \$10,000 if the latter will accept the challenge. Watson has been denouncing "foreign missions" in his magazine and has angered the church people.

William T. Ellis of Philadelphia and Rev. Dr. Broughton of Atlanta have challenged Watson to debate but the latter has refused to meet them. Today, however, he announced that he will meet Bryan and offers \$10,000 to induce the latter to accept. Watson stipulates that the gate money shall go to certain struggling Georgia schools, but he says he will give Bryan \$10,000 out of his own pocket. Watson claims Bryan has never aided any institution in Georgia, though this state has supported him in presidential elections and has handsomely paid him for many lectures he has delivered.

COPENHAGEN OUT OF IT

Statement That Dr. Cook's Original Notebook is No More Valuable Than Previous Papers.

The University of Copenhagen has published an official statement announcing that the investigation of Dr. Frederick A. Cook's original notebook, as well as the papers previously received from him through his secretary Walter Lousdale, not only does not prove that he reached the pole, but show that it is unlikely that he did so. For this reason the university, according to the statement, has now decided to drop the matter.

During the past month the council of the University has made every effort possible to get in communication with Cook but without success. There are many still among the university people who believe that Dr. Cook will be able to exonerate himself and they have requested the council of the university to postpone for a while the question of cancelling the degree conferred on him after his arrival from the north.

SCHUMACHER MURDER

Confession by a Naval Prisoner Held at Portsmouth.

James Hall, the naval prisoner held at the United States prison ship Southern at the navy yard in Portsmouth, N. H., under sentence for fraudulent enlistment, has made a complete confession that he murdered Anna Catherine Schumacher, in the Holy Sepulcher cemetery in Rochester, N. Y., on the afternoon of Aug. 7, but that the killing of the girl was an accident.

Hall's confession was made in the presence of Chief Boatwain C. T. Hill, in command of the prison ship, and District Attorney H. H. Widner and Sheriff Gillette of Monroe county, New York. It was taken down by stenographer W. J. Richter, an expert in the attorney's office.

NO PARDON FOR IHRIG

Violator of Pennsylvania Pure Food Law Must Serve His Term.

The state board of pardons of Pennsylvania has refused to recommend a pardon for William G. Ihrig, convicted in Westmoreland county on two indictments of selling oleomargarine without a license. He was sentenced in the aggregate to six months in jail and \$1,000 fine. Four months have been served.

The heavy penalty imposed is because Ihrig was a "second offense man." The board listened to a 20-minute argument on behalf of Ihrig by Guy D. Wallace of Pittsburgh, Dairy and Food Commissioner James Foust said that refusal to pardon Ihrig was a distinct victory for the state.

A Dull Point.

Robbs-Saphedie is always talking about his point of view. Slobbs-Yes, but unfortunately it isn't sharp enough to penetrate anything.—Philadelphia Record.

Let us watch all our beginnings, and let us manage ourselves.—Clark.

—Have you a weak throat? If so, you cannot be too careful. You cannot begin treatment too early. Each cold makes you more liable to another and the last is always the hardest to cure. If you will take Chamberlain's Cough Remedy at the outset you will be saved much trouble. Sold by Dunn & Fulton.

Kellettville.

We are able with this letter to state that the weather man has been doing stunts the past week that entitles one to truthfully proclaim him a very strenuous man, indeed. Beginning with heavy rains, on Tuesday, the 18th, the ice became broken in places in Tionesta creek and caused the banks to overflow in several places where the elevation was low. At the mouth of Little Minister creek, a half mile above town, the water stood three feet in the public highway and remained so for five days. The S. & T. Ry tracks at Balltown flats, Wellers and Hastings were inundated to a depth of from one to 2 1/2 feet, caused by backed water. The passenger train Tuesday succeeded in reaching Sheffield for one trip, being about five hours late. They were compelled to clear the track of ice in several places and it was a novel sight to see a passenger train carrying people who paid for a first class passage by rail, traveling by water. With the exception of Tuesday, the train has been able to make the two trips per day, but usually were considerable behind schedule time. The storm of Friday was simply an introduction of what was to follow on Saturday. Our oldest inhabitants have no recollection of when this section was visited with such a blizzard as arrived here that day. On Friday the winds had shifted to the east, where our heavy storms are mostly located, and with the temperature just right the snow began to come earthward in long metre style. The Tionesta mail, which starts on the journey at 6:00 a. m., made an unsuccessful attempt to deliver the mail Saturday morning but only reached the Whig Hill office, where the wind was blowing such a gale and the snow drifting that it was impossible to go any farther, so the mail was brought back to the Kellettville office. Telephone communication was cut off early in the morning and but a few patrons of the telephone could use their lines. One of the large cross arms on the pole at Watson & Co.'s store was broken and the lines were useless thereafter. Snow shovels were used constantly and the weather was truly an arctic pole. Should the weather turn warmer now or rain so as to remove the ice great damage would surely befall the low points. All the cellars on the bottom lands are filled with water and there are no services at the M. E. church, Sunday, owing to the basement being under water so the furnace could not be used to heat the building. John H. Brozman, the artist, has secured several fine post card views of the ice and water. A number of the cards will be exposed for sale later. Business of all kinds which requires outside labor is practically stopped for the time being, as but very little work can be accomplished. Travel will likely be resumed again on the public roads today, Monday, and it will be some time before the traveling will be good. No measurement of the snow was kept here but it was not less than 1 1/2 feet. At 8:00 a. m. it had snowed just nine inches and from 6:00 to 8:00 a. m. there was a fall of three inches reported. After that time no one thought it necessary to keep a gauge of the depth.

The new mill was shut down last Thursday by the steam feed breaking. The damage has been repaired. Mrs. M. Andrews, whose condition has been improving for the past ten days, was taken suddenly worse on Thursday, but is now much improved. Her son, Charles, was summoned on Friday and reached here Saturday, when he was much pleased to find his mother gaining. Mr. and Mrs. Geo. Harrison, of Hornell, N. Y., the latter a sister of Mrs. Andrews, are here for a short time. John Olson went to Erie, Saturday, where he will attend a meeting of the Brotherhood of Trainmen. A. H. Hunier, of Nebraska, went also. Joseph D. Albaugh, who has been employed at Endeavor for several months, moved his family to that place last Wednesday. Wesley Whitehill has been a sufferer from rheumatism the past week. He is able however to be around. A. L. Weller is mourning the loss of his sidewalk, which disappeared on Tuesday, after dusk. The guilty parties are known and unless they return the property they will be barred from using it again when it is put in place.

CONGRESS has amended the Constitution of the United States, so as to provide for an income tax, and it is now up to the States to ratify that amendment, which becomes a part of our Constitution as soon as it shall have been ratified by three-fourths of the States. The corporations and capitalists of the country are doing their utmost to influence the legislatures of the various States against this amendment. However, it is believed that the amendment will be ratified by practically all of the States.

MARRIED.

GREENEWALT-SULLIVAN.—At Crown, Pa., Jan. 18, 1910, by Rev. J. B. Keegan, James Jeremiah Greenewalt and Miss Elizabeth Sullivan, both of Voinicek, Pa.

NOTICE.

2 " black, " " were 11.50
Now \$7.75 cash.

All others reduced one-fourth for cash.

G. W. ROBINSON & SON

Letters Run into One Another.

Did you ever notice when reading, especially at night, how the letters "run into one another"? Close your eyes a moment; draw on the RESERVE FUND of your nervous energy; the letters "brace up" and you read again with ease. A moment later comes another call for more nerve force. Why not let glasses do this work and use the wasted nervous power to relieve headache, indigestion or dyspepsia? I am prepared to give your eyes not only a most careful examination, but will guarantee satisfactory results in every instance. Absolutely Free Examination. I will be at the Central House, Tionesta, every two weeks, my next visit here being Thursday, February 3d. Also at the New Caldin, Tidioute, Friday, February 4th.

D. PADOLL, Refracting Optician, 438 Holland St., Erie, Pa.
