THE FOREST REPUBLICAN.

J. E. WENK, - EDITOR & PROPRIETOR. WEDNESDAY, FEBRUARY 9, 1910

Announcements.

CONGRESS.

ENDRAVOR, PA., Nov. 29th, 1909. My DEAR EDITOR:-You are hereby authorized to announce my name as a candidate for Congress in the Twenty-Eighth Congressional District of Penn-sylvania, subject to the rules governing the Primary to be held Saturday, June 4th, 1910. N. P. WHEELER.

A STATEMENT of mine accidents in Pennsylvania for 1909, just out, shows a falling off in the number of total accidents from the previous year. In 1908 1250 men lost their lives by accidents in connection with coal mining. In 1909 the river and harbor projects, the connumber of fatalities was 1045, a failing off of 205, or about 16 percent.

A NEWSPAPER man's troubles are endless, John D. Wells of the Buffalo News, who is a calm, dispassionate man, said a week ago that he would hug the first sassafras peddler passing his way. Now he has a letter from Sarah Sky, an Indian girl from the Cattaraugus reservation, that she is on her way to Buffalo with sassafras. The art of keeping still is worthy of cultivation, especially if a man has a family.

Is a prosecution under the pure food laws of the state, a Pittaburg jury is endeavoring to ascertain what a sausage is. Lately we had been rather confidently holding to our old opinion that horse meat and an occasional dog found their way into this article of commerce. But in Pittsburg it seems to be different. The sausage was composed largely of starch and flour with very little meat to be found under a chemical analysis.

AN innovation was instituted Feb. 3d when for the first time Uncle Sam began the printing of his own postal cards. The work is done at the government printing office. Until all of the new presses are installed the issue will be approximately 1.500.000 a day; afterwards it will approximate 3,500,000 a day. As soon as the special equipment for printing has been established a new card, to be known as the index or library card, of an excellent quality and of attractive design, will be issued.

THE Society for the Suppression of Unnecessary Noise, of New York city, has gathered statistics which show that in the last seven years Fourth of July celebrations have been responsible for 1513 deaths, 33,073 accidents, and a property loss by fire of \$20,000,000. The society's plans for bringing about a more conservative celebration of Independence Day have already been indorsed by President Taft and the Governors of eighteen states. Copies of petitions will be sent to the presidents of 452 colleges, asking for their co-operation.

A Call For Economy. Farmers' Institute Programs. It is a positive certainty that the Program of the Farmers' Institute to cost of living in the United States be held in the M. E. church, Clarington, will be thoroughly aired by congress. Citizens Encourage Agriculture in Forest

************************ Forest County Has Best "Jug."

On Wednesday County Commissioners Walace and Heasley made a trip to Meadville for the purpose of negotiating with the commissioners of Crawford county in Opportunities regard to a temporary habitation for Venango county prisoners while the new jail is being built. It was learned that the expense would be greater than the

present cost of keeping prisoners here, and that the quarters furnished would not be greatly, if any, superior to those provided by the jail that Venango county is about to discard. On the other hand, Forest county has a new jail, entirely empty, and the cost per prisoner would be the same as now be-

prisoner would be the same as now be-ing paid by the commissioners, without any extra charges for washing, etc., as would have to be paid if the prisoners were taken to Meadville. So it is alto-gether likely, although nothing definite has been decided upon, that the Tionesta jug will be the one used for a temporary place of confinance for Vanance county place of confinement for Venango county evil-doers.-Venango Herald.

THE New York American enumerates thirteen wars in which the United States has engaged, as follows: 1. War of the Revolution, seven years, 1775-1782, 2, Indian war in Ohio Territory, 1790. 3. War with the Barbary States, 1803-1804. 4. Tecumseh Indian war, 1811. 5. War with Great Britain, three years, 1812-1815, 6. Algerine war, 1815. 7, First Seminole war, 1817. S. Black Hawk war, 1832. 9. Second Seminole war, 1845 10. Mexican war, two years, 1846-1848. 11, Mormon war, 1856. 12. Civil war, four years, 1861-1865. 13. Spanish war, April 21 to July 26, 1898.

THE national Sugar Company have agreed, it is reported, to refund \$650,000 to the general government in settlement in full of back customs, dues on importations scaled short of the actual weight. This amount, with the settlements made by the American Sugar Refining Company and the Arbuckle Brothers, vill swell the total restitution by three companies to \$3,500,000. This gigantic trust will hew to the line in the future. President Taft's administration may not look so "easy" as some people intimated it would be, when it gets through with some more of the trusts.

As opinion has been given to Highway Commissioner Joseph W. Hunter by Deputy Attorney General W. M. Hargest in which he declares that he can institute mandamus proceedings against supervisors of second class townships who ignore who had been calling on her. He had requests made under the law for statements as to mileage of roads in their districts. The highysy commissioner asked the legal department what recourse he had when supervisors failed to obey the directions given to them under the provisions of the Jones "dirt road" bill, passed last winter, to file with him reports of mileage. Mr Hargest says the law is very plain and that suits can be started to compel reports. Hundreds of supervisors are delinquent, baving ignored the third notice given to them.

"THAT the state will in the near future abandon water bound macadam in making state highways and substitute brick or some other improved material is the belief of all connected with the state highway department," said G. W. Ensign, deputy state highway commissioner, who has charge of all the engineering work of the department, in Meadville Thursday morning. Continuing, Mr. Ensign said: "People are finding fault with the state making the improved highways from macadam on the ground that it is too

easily damaged by automobiles. They forget that the state is not making roads for automobiles alone, but for the benefit of the greatest number of people. The roads are used by ten horse vehicles to ness is rotten; nobody has any money; one automobile. And roads that will people are gossiping about you; the other one automobile. And roads that will stand up under the strain of fast automobiles would be too hard for horses and wagons. The state is investigating the bread chested, hearty, hale optimist, who whistles and laughs. One such in a commaterials best suited for roads which will in the largest measure meet all requirements.
