White English Madras

All 35 cent quality at 19 cents. All new patterns, and all of a quality to make you wonder that they could be sold at any such price. They are full mercerized, 35c is what we are asking for same grade over our counters. These should not last long at 19c a yard.

Black Voiles, Plain and Fancy, 55 Cents.

Goods that were \$1 and \$1.25. When we advertised these for last Saturday's selling there were upward of 20 pieces. In one day's selling this has been reduced by one-half. In one day's selling we got rid of over 500 yards. Must be pretty good values to effect that result.

Grey Mixed Suitings, 55 Cents.

Another line of dress fabrics, worth \$1 and \$1.25. 45 and 48 inches in width.

Spring Styles in New Dress Fabrics.

Only three weeks now to Easter and many a new dress and many a new suit must be in readiness then. One's good judgment would seem to say do not longer delay the selection of the material. We have endeavored to meet your every requirement and have provided liberally of the new weaves that are to be so much in evidence in the spring appareling.

Your attention is invited to a dozen of the new styles which Dress Goods counters are now showing in popular priced fabrics, including the entire repertoire of new shades. Materials vary from 42 to 54 inches. Prices are 75c to \$2 a yard.

Smart Shoes.

Each component part of a "Smart Shoe" must be perfect in quality and proportion.

If the foot is pinched or appears large the last is at fault. If it loses its original lines the materials are not good or the shoe was not built by craftsmen. These faults are eliminated in our shoes.

Pennsylvania Railroad.

Bulletin. DREDNAUGHT CARS.

The nub of railroading is first-class equipment and reliable service. The Pennsylvania Railroad provides this for the public. For many months big all-steel coaches, built like Dreadnaughts, have been operated on all through trains. Their easy-riding qualities and steadiness of motion have been widely praised. The all-steel dining cars too have distinct advantages over the wooden ones. They are stronger and steadier, and the act of eating is made more enjoyable by the smoother movement.

There are also some steel Pullman Cars—Combined Parlor-Smokers and Baggage—in the service now. Travelers like them. They have plenty of elbow room and they glide over the rails. The Sleeping Cars are coming. Some four hundred parlor and sleeping cars will be in use by Summer.

These steel coaches and cars are the strongest vehicles ever built for passenger transportation. They are fire proof, break proof, and bend proof. They represent the climax of safety and the perfection of comfort in railroad travel.

The Pennsylvania Railroad has always been the leader in all manner of improved equipment as well as in all methods of making their patrons more comfortable. This is why it is known and honored as the Standard Railroad of America.

A Southern Gentleman

adopted the following plan to provide a fund for his children when they should reach the age of 21 years. When each child was born, he deposited a dollar in the savings bank in its name. The next year he deposited two. He kept this up each year, depositing the number of dollars the birthday represented in years.

\$306.16
was the amount at the child's credit when he became of age. It had a good effect because it taught the children the value of money.
