### Garden Seeds in Bulk.

It is a well known fact that threefourths of the Garden Seeds catalogued and sent out in packets are not desirable varieties, suitable for that particular climate and section of country in which they are to be sown. We have been experimenting for 20 years along this line, during which time we have made a thorough test of nearly every kind of Garden Seed known, with the result that we now make a selection of only the choicest varieties from the different seed growers, and the seeds which you buy from us will be varieties that will give the best results, and we know they will grow, H. RECENT DEATHS.

Mrs. Jane Elizabeth Martin Scott, wife

6:10 p. m. Wednesday, March 16, 1910, from paralysis after an illness of three years. She was the daughter of the late Mr. and Mrs. Michael Higgins and was orn in Snydersburg, Clarion county, February 4, 1842, and was married June , 1859, to Joseph Weaver at Fryburg, Her husband died in that place April 9. 1895. Three years following his death Mrs. Weaver removed to Oil City which dict's convent, Erie, Pa; Charles F. Weaver, of Tionesta; Mrs. Walter Spangler and Miss Eva Weaver, of Philadelphia; J. A. and Norbert Weaver, of Franklin, and Mrs. Peter Stubler, Mrs. John Davis, Mrs. Russell Fisher and Arthur Weaver, all of Oil City, also by the following brothers and sisters: John Higgins, North East, Pa.; Laughlin Higgins, Cleveland, O.; Mrs. Susan McCauley, Pittsburg; Mrs. Margaret Logan, Bakersfield, Cal ; a step brother, William McDonald, Kane, Pa., and step sister, Mrs. Agnes Cyphert, of Dubois. Thirty-six grandchildren also survive. The deceased was a member of St. Joseph's church, Oil City, and was a splendid type of Christian, wife and mother, neighborly and kind with all and of a patient character that was shown at its best during her long illness borne without complaint or repining. The funeral services were held at St. Joseph's church at 8 o'clock Saturday morning, the assistant rector, Rev. A. A. Fischer, celebrating a requiem mass.

George B. Carr died at his home at 150 Chestnut street, Bradford, Pa., March 14, 1919, from the effects of pneumonia. His age was 73 years. He was a native of Albany, N. Y., and in 1862 he was a volunteer in the War of the Rebellion, serving three years and six months. After the close of the war he went to Titusville, where together with George Gillmore, now of Pittsburg, he engaged in a partnership meat business. Later he followed the oil excitement to Pithole, Plumer and other places then in the boom stage. For many years Mr. Carr and his family resided in Tionesta, where he conducted a meat business, and where he was respected by all as a good and industrious citizen. He left here more than lifteen years ago and had resided at Endeavor and West Hickory, going from the latter place to Bradford, last fall. He had been ill for nearly a month and everything possible was done for him. Mr. Carr is survived by his wife and three sons, as follows: Andrew Carr, of Franklin; Frank B. Carr, of Bradford, and Jay Carr, of Smithville, W. Va. He was a member of Eli Berlin Post, No. 629, of East Hickory. The funeral took place Thursday afternoon at 2 o'clock from the residence of his son, Frank, at 271 South avenue, and was largely attended. Rev. Mr. Bigelow of the Seven Day Adventist church officiated. Burial in Oak Hill cemetery. The floral offerings were many and beautiful. Members of John S. Melvin Post, No. 141, were honorary pall bearers and members of Co. C, 16th Regiment N. G P, were the active bearers. A firing squad from the same company fired the last volley over the grave at the close of the services and altogether the funeral had a very military aspect.

### Health.

Good health is more desirable than riches. The time is about at hand when a general cleaning up is necessary. Dur ing the winter refuse is often permitted to accumulate on premises, it is thrown out promiscuously, covered with snow and ice and for the time being not seen. This refuse if let remain when the snow and ice melts is very likely to breed disease germs, which the warm air and winds will scatter broadcast and become very dangerous to good health. Freezing does not kill germs. This is the time o year that special efforts should be made by every householder to carefully remove all refuse, especially decaying vagetable matter, and old tin cans that have been thrown out and probably not cleaned. Such cans are breeders of disease, entice flies that gather up the germs and carry them into your house and perhaps directly on the dining table and in the victuals you daily eat.

We have a comparitively clean town and the citizens are to be commended for their efforts to make and keep it clean and healthy. The Health Board finds some that are not careful enough about cleaning up the garbage that accumulates around the kitchen door. We ask the cooperation of all to secure good sanitary conditions. We shall be glad to receive reports of any place that is not in a proper healthy condition. Such reports will receive immediate attention. The Health Officer has been instructed to make an examination of all premises, including cellars, and report to the Board. We hope he will find all premises in good sanitary condition, so that we may not be nuder the necessity of enforcing any of the re-
