WIRE TAPPING COUP

Conspirators, It's Said, Cleaned Up \$100,000 Philadelphia.

Wire Tappers Selected Redeem, the Longest Shot in Fourth Oakland Race, as the Winner — Wagers of the Plotters' Emissaries Were Paid Off Without Suspicion — Fifteen Minutes After Settlement News That Bishop W. Had Won Was Received.
A wire tapping coup of gigantic proportions was pulled off in the Philadelphia pool rooms Saturday. It extended to New York, Chicago and about every large city in the country. The medium was the fourth race at Oakland. One hundred thousand dollars was cleaned up there, but it is stated a million dollars were realized by the tappers through the country.
The wire tappers sent the wrong prices and jockey to the information bureau and selected Redeem, the longest shot in the race, as the winner. Then there was consternation, fourth Oakland to be run, a fake description of the event was forwarded giving Redeem at 12 to 1 as the winner.
Emissaries of the plotters were in all the Philadelphia rooms and their wagers were paid off without suspicion, the result being "confirmed." They had bet on previous races to divert attention.
Fifteen minutes after settlements had been made a true description of the race was received, Bishop W. at 9 to 5 being the actual winner. Then there was consternation but it was too late. The conspirators had departed with the money. The poolroom men think the wire tapping was done in the West, but this is not learned.

ONLY MALE CLERKS WANTED

Baltimore and Ohio Will Hire No More Women For Railroad Work.

The Baltimore and Ohio railroad has decided to hire no more women for railroad work. It has been decided that duties in a railroad office can be handled better by men and boys. The women who are already on the payroll, it is stated, will be retained as long as they desire to hold their positions, or so long as they can do the work for which they were hired, but once they leave their places will be taken by men.
This new condition has been made public through the rejection of several women who applied here for positions. They were told that an executive order had gone into effect all over the system prohibiting the future employment of a woman on the road.
It has been roughly estimated that 80 per cent more work can be gotten from the average young man stenographer than from a girl in the same position and that the work was more carefully handled. The same thing applies to other departments.
In the employ of the Baltimore and Ohio there are many women operators who came in during the strike of two years ago. The executive order is understood to make special mention of these women, for they must be taken care of.

FARM TRAIN TO CROSS STATE

College of Agriculture to Show Model Cow and Other Exhibits.

To educate the farmers of the state in what can be done with an ordinary cow by careful breeding, the professors of the state college of agriculture at Cornell will take one of the forty bovines now quartered at the college barns on the hill along with them on a farm train that is about to cross the state on the Buffalo, Rochester and Pittsburgh railroad.
The cow will occupy quarters in the exhibition car and at every stop will be brought forth to show the virtue there is in breeding properly even the most ordinary species.
Other exhibits will include a spraying apparatus for protecting fruits and good and bad laying hens. A corps of professors will be in the next car to see that the cow behaves properly.

DALZELL ASKS FOR VOTES

Is Opposed by an Astute Politician Who is Catering to the Labor Vote.
Congressman John Dalzell, the great protectionist of congress, is out at Pittsburgh with a personal appeal to voters of his district to vote for him in the coming election. Mr. Dalzell is opposed by R. J. Black, an astute politician, who is catering to the labor vote, and who is also decidedly anti-Cannon in sentiment.
From Dalzell's quarters comes another statement advocating the reelection of Dalzell in preference to a new man on the basis that new members usually get little attention and are unable to push through measures of interest to their district.
Dynamiter Sentenced.
Having pleaded guilty at Philadelphia to the charge of placing explosives on the tracks of the Philadelphia Rapid Transit company, Frank Godda, a strike sympathizer, was sentenced to five years in the Eastern penitentiary. Godda is an Austrian and has been in America only two months. He said he found a dynamite cap and was told by boys to place it on the car tracks.

THOMAS F. WALSH DEAD

Made Millions In Mining; Was King Leopold's Partner.

Thomas F. Walsh, the Colorado mine owner, died at his home in Washington Friday night. Mr. Walsh had been ill for more than six months with heart trouble that followed an attack of pneumonia.
When it was found Mr. Walsh was not improving in Texas he was brought back to his beautiful home in Washington.
Mr. Walsh moved to Washington in 1899 and his home there is one of the show places of the capital. "Clonmel," his estate in Colorado just outside of Denver, is one of the finest country places in America.
Mr. Walsh's wealth has been variously estimated at from \$10,000,000 to \$100,000,000. His daughter married Edward McLean, a son of John R. Edwain, the publisher. Mr. Walsh was a partner of the late King Leopold of Belgium, and at the time of the king's death was one of the few men in this country to come forward with a statement in his behalf. The present King of Belgium only recently presented to Mr. Walsh's little grandson a solid gold cradle.

CHEAP NEW YORK FARMS

Ways and Means Discussed to Attract Immigrants to Rural Sections.

At a meeting of the New York Republican members in congress arrangements made for a meeting in New York on April 29 to discuss the unused and partly used farms of New York state and the scarcity of farm laborers were approved.
In addition to the New York state representatives there will be present at the meeting President Brown and other presidents or representatives of New York railroad systems, leading bankers of New York city, Secretary of Agriculture Wilson, Secretary of Commerce and Labor Nagel, Superintendent Raymond H. Pierson of the New York state agricultural department, Charles Larson, head of the state immigration bureau and prominent grangers. Presidents of boards of trade in cities and villages along the lines of the principal railroads also will be invited.
The purpose of the meeting, it is said, will be to attract attention to the fact that the farm lands are the cheapest in the country today.
Ways and means will be devised to attract desirable immigrants to abandoned and unused farms in the state.

B. R. & E. HEARING

Business Interests of Buffalo Unanimously Demand the Proposed New Line.

Need of a competing railroad that will cross New York state from Buffalo to Albany was crystallized for the public service commission at its Buffalo, Rochester and Eastern hearings at Buffalo in the testimony of Truman Smith of the Contact Power company. Mr. Smith showed how the Central offers lower rates to cities and towns where other lines also extend than it does to non-competitive points.
The fact that competition reduces rates was brought out as one shipper after another related instances of delays between Buffalo and Eastern points in shipments over the Central, which is the principal opponent to the application of the Buffalo, Rochester and Eastern for a permit to build its line. They favored the B. R. and E. project.
Hundreds of business men, in person and through their associations appealed to the commission to allow the new railroad to be constructed, pointing out the great necessity of better shipping facilities out of Buffalo.

WHAT COLLEGE GIRLS WILL DO

Of 228 Wellesley Graduates Two Intend to Take Up Farming.

Two girls of the graduating class at Wellesley college intend to take up farming as a profession, according to the statistics of 228 members of the class that were interviewed by the editor of the College News. The statistics were gathered on account of the idea that practically all the girls who graduate become teachers.
Only 86 girls, or about 37 per cent, plan to become teachers upon graduation. Seventy-three of the girls, or 22 per cent, plan to stay at home, while 29 intend to study farther. Of the remaining eight intend to be married, nine to do Christian and charitable work, five to do literary work, three to travel, one to write, one to become a secretary, one to take up domestic science, while 19 are undecided.

TONG WAR IN NEW YORK

One of Each Clan Killed; One Man Shot by Mistake.

The rival tongs mixed it up again on Sunday in the New York Chinatown and within four hours two Chinamen were killed and a third seriously wounded. The fighting was between the On Leong Tong and the new organization of the Four Brothers, which has recently risen on Pell street.
One man each of the On Leongs and the Four Brothers was shot; the third man shot met his death by mistake. He sat in a seat at a gambling table which had just been vacated by a Four Brothers man marked for death.

PINCHOT MEETS CHIEF

Former Chief Forester Tells Nothing About the Interview.

Newest Citizen of Porto Maurizio Enthusiastically Greeted in the Villages Through Which the Ex-President Drives—Police Arrested Young Man Who Had Forced His Way Into the Garden Attached to Miss Carew's Villa.
Porto Maurizio, April 12.—Gifford Pinchot, until recently chief forester of the United States, has had his day with Colonel Roosevelt and each was positive in the statement that they had "nothing to say." Both seemed greatly pleased and in high spirits when seen by the representatives of the press.
When told last evening of the exchange of congratulatory cablegrams between the syndic of Porto Maurizio and President Taft, Colonel Roosevelt expressed himself as appreciating highly the courtesy of both officials.
Former Mayor James Phelan of San Francisco, who is looked upon as one of the leaders of the reform movement on the Pacific coast, was here today, having come from Monte Carlo to see the ex-president. Phelan is a Democrat but for years has been a close friend of Colonel Roosevelt.
Pinchot Evades All Questions.
Pinchot remained here overnight. He talked freely of ordinary matters but could not be induced to utter a word as to his conversation with the colonel. He evaded all questions relating to it.
After his long and mysterious talk with Pinchot Colonel Roosevelt received a call from a couple of Franciscan monks. After luncheon Colonel Roosevelt, accompanied by Mr. Pinchot and Mrs. Roosevelt and Miss Ethel, went for a long drive. They proceeded about six miles along the Villa Caramagna halting at one place to inspect an old chapel, which is hung with seaweed votive offerings. The colonel had a long chat with the aged priest in charge, who was much interested in the little gold medal of St. Joseph which Colonel Roosevelt carried during his entire African journey. The party then walked a half dozen miles up hill to a point where they were rejoined by the carriage.
Enthusiastic Greeting of Villagers.
The villages through which they had passed comparatively unobserved on their outward trip had identified the newest citizen of Porto Maurizio by the time he returned on his way back to Miss Carew's villa and as a result of the enthusiastic greeting of the villagers the colonel's hat was more often in his hand than on his head. The carriage was finally pelted with flowers. As a matter of the triumphal progress of Sunday was repeated on a somewhat limited scale.
When the party returned to the villa it was found that the police had arrested a young man in the garden attached to the villa. He had been admitted to the grounds by the gardener, whom he had told that he was a police agent. This seemed quite natural as there are nearly always a number of such officials around. After the young man's arrival a real police agent came along and hearing the gardener's story, took the man into custody. He was searched before being locked up and on him was found a passport bearing the name of Maguano. It had been issued at Bologna. The prisoner had no weapons. He spoke English, however, and said that he was seeking employment with Colonel Roosevelt. The police believe he is a harmless crank.

STOPPAGE OF SUNDAY WORK

Curtailment of Trains on Roads Controlled by Steel Corporation.

Pittsburg, April 12.—Following the stoppage of Sunday work in all mills of the Carnegie Steel corporation, the United States Steel corporation has turned its attention to stopping trains on all roads controlled by it. The movement of coal, coke and other material on Sunday on roads controlled by the corporation like the Pittsburg, Bessemer and Lake Erie railroad is to be stopped.
The first move in this direction was put into effect this week when not a wheel carrying material for any of the corporation mills moved. Only two trains, both passenger trains, moved over this line, which is one of the subsidiary corporations of the big steel company.

ABERNATHY WANTS DIVORCE

Famous U. S. Marshal Charges Desertion and Neglect of Duty.

Guthrie, Okla., April 12.—John Abernathy, United States marshal, famous as man who catches wolves alive with his hands, and is a personal friend and guide of former President Roosevelt, has filed suit for divorce from his child wife at Oklahoma City. He has a four-week-old babe.
Abernathy's grounds are desertion and neglect of duty. Mrs. Abernathy is about 20 years old, the daughter of James Purvine, a wealthy farmer living near Guthrie. She eloped with Abernathy and they were married in Oklahoma City in June two years ago. His first wife died a year prior to that date.

BURGLAR SLAIN WITH CLUB

Reddy Gallagher, Notorious Crook, Meets Death in Philadelphia.

Philadelphia, April 12.—James, alias "Reddy" Gallagher, a notorious burglar with a long prison record, was killed with a club after a desperate struggle by a householder whose home he had attempted to enter.
Samuel Zeannquian of 2241 North Third street was awakened shortly after midnight by his wife, who said a man was trying to get into a neighbor's house. Looking out Zeannquian saw the man in a yard several doors away. Hastily dressing himself he went to his cellar and picked up a long heavy club.
By this time the intruder, falling to effect an entrance in the other house, had appeared at Zeannquian's cellar window. Running in his back yard Zeannquian sprang at the stranger and a desperate struggle ensued. The burglar managed to secure possession of the club, but before he could use it Zeannquian closed in on him and recovered the weapon.
The burglar then ran to the street followed by Zeannquian, who, swinging the club, struck the intruder with such force as to fracture his skull. The burglar died soon after being taken to a hospital.
General office detectives identified the body at the morgue as that of James Gallagher, alias "Henry Walter," alias "William Walter," alias "John Hannigan," a notorious burglar, who since his first conviction in 1887 has served four terms for burglary. Zeannquian was held to wait action of the coroner.

CANOEIST DROWNS

While Changing Places Two Men Are Thrown Into River, One Losing His Life.

Pittsburg, April 12.—While attempting to change positions in a canoe in which he was rowing with his brother-in-law, Ernest M. Johnson of 7028 Fleury street, William Knipe, aged 17, of No. 1 Lyman street, Williamsburg, was drowned in the Allegheny river, near the filtration plant at Aspinwall.
At 3:50 p. m. the two men went to the boathouse of J. C. Hahn, at Aspinwall and asked to hire a canoe.
When they were about twenty feet from the shore, opposite Ross' tower, James Manning, chief engineer at the filtration plant, saw Knipe get up to change his position. Almost immediately the boat was overturned and both men were thrown into the water. Johnson managed to get hold of the canoe, but Knipe, who could not swim, sank.
Persons on the bank who had witnessed the accident secured boats and rescued Johnson. A search was immediately made for Knipe's body, but up until a hour last night it had not been recovered. At the place where the accident occurred the river is about fifteen feet deep and full of sand holes where dredge boats took out material for the filtration plant. Knipe was employed as clerk in the Westinghouse works in East Pittsburg.

PRISONER WRITES POEM

Sentiment Brings Recommendation For Parole.

Steuensville, O., April 2.—Harry Schaffer of Pittsburg, who is serving a six months' term in the Stark county workhouse at Canton for a robbery committed in this city, has been recommended for parole by the prison management. Schaffer's term will expire April 21.
The reason for recommending the parole is a sentimental poem written by Schaffer since his incarceration. "A Convict's Dream of Home, Sweet Home," it contains 17 verses. The poem reviews the convict's early life and tells about his childhood days and his home life. Schaffer was arrested for the robbery of Carrie Thomas, formerly of Pittsburg, who came to this city some months ago.

DEAD BODY ERECT

Strange Accident to Railroad Passenger at Massillon.

Massillon, O., April 12.—Propped against a telegraph pole, where it is believed he had dragged himself after falling from a passenger train, the dead body of an unknown man was found today near the Pennsylvania railroad tracks by section men. The accident occurred some time during the night.
The man's hat bore the mark, "Taylor & Puryear Jonesboro, Ark." The tinsmith's mark on his clothing shows it was made by Lann & Co. of Chicago for J. Maddrell, and the authorities are working on that clue. The man's ticket was from Canton to St. Louis.
10 Per Cent Increase Asked.
Butler, Pa., April 12.—An increase of 10 per cent has been asked by the conductors, engineers and trainmen on the Bessemer and Lake Erie railroad, controlled by the United States Steel corporation. A conference will be held late today with J. H. Reed, president of the road, in Pittsburgh.

Died From Fall Down Stairs.

Pittsburg, April 12.—James Cruickshank, a very wealthy manufacturer, died early Sunday morning at St. John's hospital from injuries received Saturday night in falling down stairs.

NEWSY PARAGRAPHS

Summary of the Week's News of the World.

Happenings From All Parts of the Globe Put into Shape For Easy Reading—What All the World is Talking About—Cream of the News Culled From Long Dispatches.
Wednesday.
All lines of the New York Central system show increase in earnings so far this year as compared with 1909.
