Cigar dealers and tobaccoists have been informed of a new law that will be in effect after the first of July. The revenue tax on cigars will be nearly doubled. High priced cigars will be still higher. This new law is causing many manufacturers to increase their stock as much as possible before July 1st, as the law does not apply to goods manufactured before that date.

Of course we all take a crack at Rocke feller occasionally, because he has been financially more successful than the majority of us. But, seriously, how many of us, if we had a billion dollars, would not make asses of ourselves that, in comparison with Mr. Rockefeller, would make the Wooden Horse of Ulysses look like a Shetland pony? We all want wealth, but does not experience show that most people are better without it? Luxury runs a thousand to one it renders happy, and it is fortunate for us that we cannot all be as big fools as we would like.—Punch-outstaway Spirit.

The Prohibition conferees of the 28th Congressional district met in Warren on Tuesday last week and named John E. Gill, of Franklin, for Congress, subject to the ratification of the voters at the primaries in June. Only Mercer, Venango and Warren counties were represented, the conferees from Forest and Elk counties failing to appear. At the same time J. Waldron Miller, of Warren, was named for the State Senate in the Venango-Warren district. The Socialists of the 28th Congressional district have agreed upon John R. McKeown, of South Sharon, as their candidate for Congress.

More attention is being paid to wheat culture in this state than in former years. Wheat from last fall's planting is now sprouting in 111,500,000 in Pennsylvania farm land, which is at least 100,000 acres more than this state has ever planted in any single year. The crop represents an area of 2500 square miles. These statistics were given out by Deputy Secretary of Agriculture, A. L. Martin, who made careful observations during the season of farmers' institute that has just been concluded. An additional encouraging feature is that the winter has been very encouraging for the wheat, and last month was especially so. Mr. Martin therefore anticipates an excellent crop of wheat.

STATE TREASURER JOHN O. SHEATZ will not be ousted. The Supreme Court Monday refused quo warranto proceedings in behalf of Charles Fred Wright, Governor Stuart's appointee, of Susquehanna. Sheatz has contended that the death of Treasurer elect J. A. Stober did not give the Governor the power to appoint a successor. He claimed that the law is plain in giving him right to occupy the office until his successor is elected by the people. The application for quo warranto was filed in Philadelphia. The Supreme Court holds that no contest can arise legally between Sheatz and Wright until that time, and holds that the application is premature.

ONE of the most cruel wrongs in the present reign of high prices is the swindling that is being done in the loaf of bread sold to the people. In almost every instance it is under weight. In most cases there is a loss of from 25 to 50 per cent. The whole thing is an outrage, and it hits hardest those who can least afford it, the poor. There should be a movement to standardize the loaf of bread, and it should be sold by weight. We understand that in some States there are laws, and we also understand that these laws are very imperfectly enforced. In New York City the loaves vary by as much as seven or eight ounces. In Chicago, we are told that the conditions are as bad if not worse. In all sections where we have made inquiries the evil is general and acute. It is well that attention should be given to this matter at once. Consumers should see that the laws which protect them are put into effect. And if the laws do not exist they should move upon their State and Municipal Legislatures and compel the action that will give to them the value of their money. Surely there is no form of graft or bribery so mean as that which takes a brigand's toll from those who must get full value for the little money they have in order to live decently. The people of the United States consume almost 600,000,000 bushels of wheat each year. The average food cost of the workingman's family in America is under \$60.00. Put these big facts together—the enormous bread consumption and the modest means of family support—and you have an appalling showing of what it means to steal half the poor man's loaf.—"The World About Us," in The Ladies' World for May.

Hottelville is a very picturesque little town situated in Barnett township, Forest county, Pa. It is noted for its fine scenery and fertile farms. There is also a church, a good school six months in the year, and a postoffice. Anyone desiring to live in a good quiet neighborhood would do well to locate here.

Horner, was united in marriage with Samuel Harrison Sheffer, of Franklin, Pa., Rev. M. B. Miller officiating. The young couple left soon after the ceremony, for their newly furnished home in Franklin. Their many friends join in wishing them a long life of happiness and prosperity, as both are well known and liked in our little town.

"It has long been my opinion that every one who lives in town or city should have a country home of his own in which to spend his vacation," says W. A. Keys in Woman's Home Companion for May. "It may not be a mansion at a fashionable summer resort, but I believe that every one who really wants it can manage to buy some cheap tract of land of two or three acres, on river, lake, seashore or mountain-side, and build there a camp which will give him comfort and relaxation during his two or four weeks' leave of absence. There is an unlimited amount of good times and good health in this amateur pioneering. The children of the family will love it and be benefited by it, and the women folk will rejoice in its simplified housekeeping."

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only medicine known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Hall's Family Pills are the best.

ROOSEVELT IN PARIS

Daily Increasing Warmth of the Parisians Toward the Visitor.

Paris, April 26.—The passing days are effecting a change in the external appearance of both Paris and Colonel Roosevelt. The somewhat cool reception which Paris gave the colonel on his arrival here is now being atoned for by daily increasing warmth. More flags, American and French, appear daily on public and private buildings, larger crowds gather to see the colonel arrive and depart, while the flock of camera bearers who dodge his footsteps is increasing.

The change on the colonel's external is equally marked. The black sombrero and the cavalry colonel's overcoat have been laid by altogether. "The rather untidy looking gentleman" that the correspondent of a London paper described as landing in Naples has been steadily shedding the free and easy style of the sportsman of the jungle for the lightning tourist of European capitals, and today it was a perfectly groomed boulevardier, immaculate from the glistening topper on his smooth brushed head to his no less brilliant shoes, that arrived at the Hotel De Ville, shortly before noon to be received by the municipal council of Paris.

At luncheon at the Hotel De Ville the president of the council proposed the health of Colonel Roosevelt and his family and the prosperity of the United States. The bands of the Garde Republicaine played the Star Spangled Banner while the company remained standing. Colonel Roosevelt replied in French saying he was profoundly touched by this welcome at the center of civilization. He drank a glass to Paris and the French nation.

After luncheon the colonel visited the Carnavaux Museum, where his family joined him in looking at the order given by Louis XVI. on the day the Tuilleries was sacked. He quoted afterwards the remark that if Louis had not had the attributes of a medieval saint there would have been a large community in the cemetery in Paris.

From the museum the colonel went to make a call upon Edith Wharton, the novelist. —Boys! How about planting some of the vacant lots about town this summer and seeing how much you can earn during vacation. The work will do you good, besides keeping you off the streets, which is a good thing to do. We believe that a snug sum could be made in this manner. There are many vacant lots that the owners would be only too glad to have cultivated. Try it once. Get the habit of doing something for yourselves while you are young. See how much you can save and you will be surprised at the "nest egg" you will have by the time you leave school. Do not idle away your time in useless pursuits that bring you no return for time and energy spent.

—One croaker makes more noise than a dozen quiet workers. For the love of your town and its surroundings, and to maintain a little degree of respect for yourself, if you belong to a class of pessimistic doubters, leave off your doubts and get busy for your home community.

—Prompt relief in all cases of throat and lung trouble if you use Chamberlain's Cough Remedy. Pleasant to take, soothing and healing in effect. Sold by Dunn & Craig.
