Porch Fittings.

The most summery looking porch covering is the original Crex rugs which have proven a most practical floor covering by reason of its durability, cleanliness, economy and attractiveness. Being very closely and solidly woven, it lies compactly on the floor without curling. It does not hold germs or dust, and is absolutely sanitary.

Made in plain green and key border by the yard for runners 27 and 36 inches wide with binding on both sides.

Also in rugs with green center and gold border, green center and key border on end to match yard goods.

Heedless Waste makes woeful want.

The man or woman who heedlessly squanders even small sums on trivial things is guilty of heedless waste. And lacking a reserve fund for a rainy day woeful want is their sure portion when trouble or sickness comes.

Hosiery at Wholesale

That's a statement not often seen at the head of a retail store's advertisement.

This store has never before had occasion to use it. It is used now advisedly. We have contracted with a prominent manufacturer of hosiery for five cases—300 dozen—of Women's Gauze Silk Lisle Hose.

That was the quantity we were required to buy in order to secure them at "jobbers" prices and in this case we bought as jobbers. Now 300 dozen hose is a considerable quantity to buy even for a store that sells as many as does this store.

So we're going to sell at least two cases at "wholesale" The price is to be the same the merchant usually pays for a 25c hose. But you are to have a still greater advantage; he must buy them in not less than dozen lots—in this instance by the case—while you buy these by the half dozen.

\$2.25 a dozen. \$1.13 a half dozen. 18½c a pair.

You Can Be a Better Cook

It isn't all in the "knack." The utensils you use go a long way toward making your food fine and appetizing or ill-cooked and indigestible.

It's impossible to make the best cookery in utensils that quickly scorch or crack and scale off, rust and corrode. And such utensils are dangerous. Authorities say that cancer comes of eating particles of glass chipped off from ordinary enamel ware when hot.

The heat expands the iron frame but the coating of glass—which is all enamel ware is—does not expand so fast, consequently it breaks and gets mixed with the food.

There is no such danger from food cooked in up-to-date

"1892" Pure Spun Aluminum Ware

It can not crack, peel nor chip. It will not rust, corrode, nor spoil food, and with harder use it lasts years longer than any other ware.

We Guarantee It for 15 Years

"1892" PURE SPUN ALUMINUM is the ideal ware for all kitchen utensils—permanently bright and beautiful as silver, but many times lighter—making it convenient to handle. Heats quickly but does not quickly burn dry. Easy to clean and care for.

"1892" Pure Spun Aluminum utensils have all the advantages of every other kind besides several that are exclusive.

And with all these added advantages over all other utensils "1892" Pure Spun Aluminum Ware costs but a trifle more.
