OUR : JUNE : WHITE : SALE !

Undoubtedly the Greatest List
White Goods Values We
Ever Presented!

A strong statement—but fully supported by the facts. Cotton is going to be scarce—a short crop means higher prices. Because of contracts made months ago with manufacturers, we were enabled to assemble these vast stocks and price them on a lower scale than will probably be reached again in months.

Everything White in Underwear and Outerwear, and Staple White Goods of all kinds for your Household and Personal use are Offered at Prices Permitting Liberal Buying Within the Limits of Most Rigid Economy. Certainly this is the one best opportunity to stock up in White Goods for all needs. Don't fail to profit by it.

JUNE ON THE GREAT LAKES.

Restful, delightful, interesting, and instructive, there is no trip like that on the Great Lakes, those inland seas which form the border line between the United States and Canada. And June is one of the most charming months in the year in which to take the trip.

For comfort the fine passenger steamships of the Anchor Line have no superiors. As well appointed as the palatial ocean greyhounds which plow the Atlantic, their schedule allows sufficient time at all stopping places to enable the traveler to see something of the great lake cities and to view in daylight the most distinctive sights of the lakes, and the scenery which frames them.

The trip through the Detroit River, and through Lake St. Clair, with its great ship canal in the middle of the lake, thence through Lake Huron, the locking of the steamer through the great locks at the Soo, and the passage of the Portage Entry, lake and canal, across the upper end of Michigan are novel and interesting features.

The voyage from Buffalo to Duluth covers over eleven hundred miles in the five days' journey. Leaving Buffalo, the steamships Juniata, Tionesta and Octorara, make stops at Erie, Cleveland, Detroit, Mackinac Island, the Soo, Marquette, Houghton and Hancock, and Duluth.

The 1910 season opened on May 31, when the Steamer Tionesta made her first sailing from Buffalo.

The Anchor Line is the Great Lake Annex of the Pennsylvania Railroad, and the service measures up to the high standard set by the "Standard Railroad of America."

An illustrated folder, giving sailing dates of steamers, rates of fare, and other information is in course of preparation, and may be obtained when ready from any Pennsylvania Railroad Ticket Agent, who is also prepared to book passengers who may desire to take this trip through the Great Lakes and back.

Something New In Kitchen Ware

The "1892" Pure Spun Aluminum Ware is rapidly coming into use for cooking purposes. It is taking the place of agate and enamel ware because while its first cost is a trifle more than ordinary ware, it is really much cheaper in the long run, as it is guaranteed for twenty-five years and will last practically a life time.

The genuine "1892" Ware, made only from pure SPUN (not cast) Aluminum, will not crack, scale, peel, break, scorch or burn.

It looks like silver but weighs only about one-quarter as much, is easily cleaned and handled, and will not rust, corrode or tarnish. Absolutely pure, non-poisonous and wholesome; saves money, time and doctor's bills.

Be sure you get the original and genuine ware stamped with the Maltese Cross. At your dealer's.
