ARE MARTIN says: "You kin judge the disposition of a woman party well from the way she scrapes a pan."

AS THE individual deposits in a postal savings bank are to be limited to \$500, the new law will not be of much service to us country editors.

IT may be only a coincidence that two white men have been lynched in Dixie since Johnson whipped Jeffries, but it is a remarkable fact.

SOME of the aviation flights of the day have a resemblance to thrilling circus feats. It would be better to master first the art of plain sailing.

IF country boys could be taken through the congested district of a city on a hot night they would decide to stay on the farm and try for a share of the \$8,000,000,000 crop.

"REPEAL the rotten law," yelps an exchange, referring to the primary election law. No, don't do that, but observe the law, and see that every body else does the same.

MR. CORBETT'S assurance to the public that he will not rest until he finds a white man to beat Johnson is gratifying. The public has no objection to Mr. Corbett taking a rest and also giving it one.

IT is predicted that New Mexico will be Republican by a majority of from 5000 to 10,000 in a total vote of 90,000. In other words, New Mexico proposes to look to the important duty of being born well.

ON articles of food the duty under the present tariff law is lower than under the Dingley law, and in no case higher. An advance in price is therefore not due to the tariff. The search for the reason or reasons must be made elsewhere.

THE threatened strike of the Pennsylvania Railroad trainmen was happily averted at a conference of officers of the company and representatives of the employees held at Philadelphia, Monday. A basis for a settlement was arrived at and the details will be worked out later. The matters in dispute seem to have been the result of a misunderstanding.

"WHY didn't you shoot?" asked Governor Harmon when Mayor Atherton of Newark, Ohio, explained to him how the mob assaulted the jail and took out a prisoner for the purpose of lynching him. That was a very pertinent question. If officers of the law, under such circumstances, could be relied upon to shoot, the frenzied mob would abate its rage. It would not be half so keen to trample upon the laws and commit outrages upon justice and authority.—Pony Spirit.

DISCOVERY of a new counterfeit \$10 gold certificate has been announced by John E. Wilke, chief of the secret service. The certificate is represented to be of the act of July 12, 1882, series of 1901, and bears the check letter "D," plate number 150, the signatures of W. T. Vernon, registrar of the treasury, Lee McClung, treasurer of the United States, and the portrait of Hillages. The note is from a photographic plate, printed on bond paper, in which the coloring of seal, serial numbers and back appears to be a brownish-red water proof ink. The silk fiber is imitated by red and blue ink marks. The counterfeit made its first appearance in Kentucky.

THOUGH never a belligerent in any sense of the term, being cut out of the usual "editorial courtesy" railroad pass, and being unable to work it like Mutt and Jeff did, our amiable friend Smith of the Pony Spirit is still in no mood to be deprived of the small satisfaction of looking at the big "nigger-white man" fight through the agency of the fluttering motion pictures. And so he administers this round-about kick at the attempt to curtail his vision when the films are put on in his locality: "The big fuss being raised about the energy expended in trying to suppress those fight pictures, when there are so many great opportunities to attack giant wrongs, is a plain case of straining at gnats and swallowing camels." Don't blame you, Bill. 'Tisn't fair to deprive a fellow of all the rights of an American citizen.

As Brother Smith Views It.

EX-Congressman Smith of the Pony Spirit has notions concerning the much "knocked" primary law that sound pretty good. Here they are: "It must be obvious to any ordinary observer that our primary election law needs careful revision. No good citizen solicitors of the purity of the ballot and the patriotic zeal of the voter for clean and competent public service, can doubt that the present facilities for bribery under the clause permitting unlimited expenditures for 'the dissemination of information,' is vicious and corrupting in the extreme. This should be remedied before the populace of the Commonwealth becomes a reeking mass of bribers and bribe-takers. To prevent such a catastrophe it would be infinitely better for the state to pay the

expenses of all candidates, limiting such expenses to what is absolutely necessary. Or, if this should be deemed impracticable on the ground that it might emburden the ticket with candidates who had no chance of success, the candidates could be assessed to the amount of their legitimate expenses, which should be clearly defined, and the bills paid, after being properly examined by the county treasurers of the several counties.

"Another abuse, of which the Spirit has frequently spoken, is that of permitting Democrats, in counties where the Republicans are in the majority, and Republicans where Democrats are in the majority, to participate in the nomination of candidates for the majority party. This could be prevented by requiring every voter to declare his politics to the register, having his party designated after his name, and making it the duty of the proper election officer to provide him only with the kind of ballot indicated by his party designation.

"Another amendment needed is one providing that only a physical disqualification, such as blindness or the loss of both hands, should entitle a voter to receive assistance inside the booth.

"There are a number of other improvements that might be made in the way of perfecting the election laws that would tend greatly to elevate the standard of citizenship and preserve the integrity of the ballot.

"The people would not for a moment tolerate the suggestion of repealing the popular vote system of making nominations, for, with all its faults, it is better than the old delegate and conferee system."

—From Harrisburg comes the statement that the state authorities are this summer going to enforce the provisions of the pure food law which makes it unlawful for any person to expose food for sale in such manner as to render it liable to become contaminated, and that means that food must not be exposed to flies. Food products offered for sale must be covered to protect from flies. Agents of the state are authorized to make arrests on sight where food is kept in an unsanitary condition. It behooves grocers and dealers generally therefore, to make their preparations now to protect their goods from flies if they don't want to be prosecuted.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous lining of the Eustachian Tube. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

MURDERER'S VICTIM

Late Mrs. Crippen, Whose Body Was Found in Cellar.

ROOSEVELT TO HELP NEPHEW

Will Speak For Him If He Secures the Nomination.

Oyster Bay, N. Y., July 19.—Colonel Roosevelt has issued a formal statement, the first one he has written since he got back from Africa. It was in regard to the candidacy of Theodore Douglas Robinson, an avowed candidate for the congressional nomination in the 28th district, which is composed of the counties of Herkimer and Oneida. While Mr. Roosevelt would not endorse his nephew as a candidate he said that he had hoped that he would go into active politics and that he has high regard for his judgment and ability. He concluded by stating "he and I are in accord in our views of public questions."

The colonel felt that in the light of stories being printed in the newspapers concerning his attitude towards his nephew's ambitions, he ought to say something. Both young Mr. Robinson and his father Douglas came to Sagamore Hill to talk things over. Colonel Roosevelt did not ask his uncle to take a hand in the nomination, but he did request him to come up and speak for him in case he gets the nomination. The colonel agreed to this very willingly. So far as Mr. Robinson's residence in Herkimer county goes, Colonel Roosevelt brought that out early.

When the newspaper men put the matter up to the ex-president, he handed out this statement:

"My brother-in-law Douglas Robinson and his son, my nephew, Theodore Douglas Robinson, were down to see me. My brother-in-law has a big farm in Herkimer county which he inherited from his mother and which has been in the family for generations. He is a member of the Herkimer county grange, which is arranging for the grange picnic to be held in Utica at the end of August and became to extend me the committee's invitation to speak at the picnic. I accepted."

COLONEL'S NEPHEW TO STICK

Mr. Robinson Will Fight For Nomination For Congress in Oneida-Herkimer District.

Utica, July 19.—Theodore Douglas Robinson, nephew of Theodore Roosevelt and candidate for member of congress from the Oneida-Herkimer county district, accompanied by his father, Douglas Robinson of New York and Jordansville, left Little Falls Saturday night and took a trip to Oyster Bay, where they spent Sunday with ex-President Roosevelt.

The candidate returned to Herkimer county and stated that he was in the fight to win.

He would not say anything further in regard to his trip to Oyster Bay, but the political wisecracks insist the big stick will be a feature in the political warfare in this district this fall.
