PERHAPS the motion-picture problem could be solved by showing Johnson's proceedings in the ring with his antagonist left out. That was about the way it happened.

Tionesta Borough.

COAL lands belonging to the United States and withdrawn from entry amount to 71,000,000 acres, valued at \$440,000,000. This is one of the assets whose value will be greatly improved by good manage-

PRESS dispatches state that James Boyle who is serving a life sentence in the Western penitentiary for kidnapping Willie Whitla, the Sharon boy, has taken a new position, having been promoted from a kitchen helper to a library attendant. Boyle expressed much satisfaction at the change. Attorneys for Helen Boyle serving 25 years for aiding in the theft of the child, are completing preparations for the argument of her appeal for a new trial before the superior court early in October,

THE Superior Court, in special session Wednesday at Philadelphia, banded down a decision of importance to every municipality in the State of Pennsylvania. Under the decision the constitutionality of the eight-hour day law, which regulates municipal work, was affirmed, the case having been appealed from Allegheny County. Under this decision it will be illegal for contractors on municipal work to require their employes to work more than eight hours a day. Heretofore the length of the working day has been up to the contractor. Under the new law, the laborer employed on a municipal contract may recover overtime for every minute he works over eight hours in a day.

RESIDENTS of Sheridan Center, N. Y. believe they have found a cheap and effective means of bettering the roads in that section in the use of a sait solution. The idea originated with Henry Shelly, the postmaster, who also runs an ice cream emporium there and who discovered that where he dumped the salt water from his ice cream freezers on the road passing the postoffice the dust is laid and the road improved. As a result of his enthusiasm a carload of salt has been purchased and the experiment will be water from oil wells, but at any rate it the good movement that has resulted in a in so many states.

THE government's chemists have been conducting an investigation into the contents of a large number of concoctions which are sold as remedies for the ills of man and find that there are over 200 which contain alchol. The sale of these mixtures by druggists will not hereafter be permitted unless they take out a government license costing \$25 per year. The booze contained in these decoctions is out of proportion to the other ingredients, and it is the purpose to probibit the sale of them except as alcoholic liquors, as it is believed by the treasury officials that many of the decoctions are thus compounded in order to evade the stringent liquor laws in "dry" territory, The new ruling will have a tendency to put those persons "wise" who have been in the habit of taking a "little for the stomach's sake," and that they had better take the "straight goods," if they feel the

# The Proposed New School Code of Pennsylvania.

The July issue of The Pennsylvania School Journal is a most interesting and valuable number. It is probably the most important issue of this periodicalnow in its fifty-ninth volume-that has ever been sent out to its subscribers, containing, as it does, the full text of the Proposed New School Code of Pennsylvania, for which the School Authorities of the State desire the widest publicity and the most fair-minded discussion. This Code was prepared by a very competent Educational Commission, appointed by Governor Stuart under a resolution passed by the Legislature of 1907. It has been carefully revised upon the basis of the discussions and suggestions made during the legislative session of 1909, and is believed to be an embodiment of the legislation needed by the School System of Pennsylvania at this time. It should be read and studied with care by every intelligent friend of general education in the State. Persons desiring it or extra copies of it can obtain them by addressing "The Pennsylvania School Journal, Lancaster, Pa." Single copies, postpaid, 15 cents; seven copies, \$1,00.

-The Grove City bible conference beginning August 4 and closing August 14 will offer the best program in the history of this work. Many distinguished divines from this and foreign countries will have a part in it. The class is adapted to both clergymen and laymen, and is a fine school for Sunday school superintendents and teachers. The very best entertainment can be had at reasonable rates. For daßy programs and all information address the president of the college, Isaac C. Ketler, Grove City, Pa.

Tener Disarms Disturbers. John K. Tener, the nominee of the Republican party for Governor of Pennsylvania has given to the voters of the State the platform upon which his administration will be constructed and his proclamation has completely disarmed the discontents who have been endeavoring to muster a third or independent party in the State. The original plan of the discontents was to build an independent movement upon the dissatisfaction provoked by the overwhelming defeat of the Bryan forces in the State at the recent Allentown convention when State Senator Webster Grim was made the Democratic candidate for Governor, The old line Democrats from every section of the State resented the assault upon the work of their convention and the Democratic end of the independent party movement was completely wrecked. Then followed an effort by the self-seekers to attack Mr. Tener, but Mr. Tener has placed himself so squarely and so sincerely upon the platform of the greatest good to the greatest number that the discontents have been driven in desperation to their own scanty following and to all intents and purposes the independent party has died aborning It still seems certain that an independent party will be organized in the State, but its organization is certain to be made up of selfish place hunters, that rag-tag and bob-tail few, who, according to their own way of thinking. are absolutely pure and undefiled and whose main purpose in life is to hold public office to be administered along the lines of some theory removed from earthly things. The candidate or candidates of the proposed third party will include either D. Clarence Gibbony, of Philadelphia, or Former Mayor George W. Guthrie, of Pittsburg, or W. H. Berry, the Bryan representative in this State. These gents are already in a sort of a dead-heat race for the first honor at the hands of the proposed new party and the

things about Pennsylvania will no doubt receive and merit the highest honor at their own hands and, being on the "holier than thou" order, the voters of the State will be asked and expected to join them in their campaign of villification now more politely termed up-lifting. The blow delivered to these pretending disturbers by the indignant Democrats fairly staggered them, but the knock-out was delivered to them in Pittsburg last Saturday, when the Republican workers from every county in the Commonwealth gathered at the Americus Republican club rooms and formally notified Mr. Tener and his colleagues on the Republican State ticket of their nomination by the recent Republican State convention at Harrisburg. The gathering was large and decidedly enthusiastic. The several candidates were present. They are: John K. Tener, of Charleroi, for Governor: John M. Reynolds, of Bedford county, for Lieutenant Governor; Charles F. Wright, of Susquehanna county, for State Treasurer, and Henry Houck, of Lebanon county, for Secretary of Internal Affairs. Both Mr. Tener and Mr. Reynolds are members of the United States Congress. tried. This may open a new use for sait Mr. Wright is State Treasurer by appointment of Governor Edwin E. Stushows the general interest manifested in art, which in itself is a sustaining in-

interest in their proposed movement

seems to be confined wholly and en-

tirely to themselves. They will be

their own delegates to their own con-

vention and they will be the candi-

dates of their own selection.. The one

capable of shouting out the meanest

dorsement, and Mr. Houck is the cangeneral use of oil on highways this year didate to succeed himself. Mayor W. A. Magee, of Pittsburg, was the master of ceremonies and among the visitors of prominence was Henry F. Walton, former speaker of the Pennsylvania House of Representatives and at present chairman of the Republican committee of the State. The gathering was probably the most notable ever held in Pittsburg and Republicans from every part of the State took a hand in the interesting proceedings. The popularity of the ticket as a whole was best told by the cheerful confidence of the party workers who were present. In introducing Mr. Vare, of Philadelphia, who made the notification speech, Mayor Magee, amony other things, said:

"It will be the pleasure of the Republicans of this city and this State to do their duty by these candidates and the party which nominated them." The several candidates made short speeches upon accepting their nominations, but the speech of Mr. Tener probably best covered the issues in the campaign and supplied the keynote of the contest which will be taken up in earnest early next month. Mr. Tener, after telling of his appreciation of the honor bestowed upon

him, made these declarations: "Without a single exception I fully approve this platform and declaration of principles. If I am elected I will do all in my power to put into full operation its recommendations by proposing and urging the enactment of the neecssary legislation to accomplish the same.

"I appreciate the importance of good roads. Much progress has been made in that direction. Much more

remains to be done. "The preservation of the purity of food, water and the public health are of vital importance, and the most careful consideration demands the strict enforcement of all laws relating there-

"I agree with the declaration of our platform that our school code be revised and simplified.

"The government of a State like ours is a great business proposition and the several accounts should be so guarded and audited that no loss or leakage of any character shall be possible.

of the present executive, Edwin S. Stuart. It shall be my earnest endeavor to see that the course pursued by him shall be carried forward."

# Two Dead From Gasoline Explosion.

Mrs. Samuel J. Nurss and her twoyear-old son Charles, of Meadville, Pa., are dead as the result of a gasoline explosion in their home last Friday morning. Mrs. Nurss was not feeling well and she laid down in the bedroom shortly after finishing her housework. The baby, in its play, found a match and lighted it, the flame communicating to a pan of gasoline in which the mother had been washing some fabrics. The child was instantly enveloped in flames and its screams brought Mrs. Nurss to the room. She made an effort to put out the fire with her hands and in doing so her clothing ignited. With the baby in her screams brought Mrs. Nurss to the room. arms she ran from the house and her cries for help brought several neighbors to the yard. They succeeded in smothble and family attended campmeeting on ering the flames with quilts. Both the mother and child were frightfully burned and were removed to Spencer hospital, where the baby died Friday night. The mother died Saturday morning. Mr. Nurss is an employe of the Meadville Electric Traction Company. Mrs. Nurss was a niece of Hiram Norton, of West Hickory, this county, and was a frequent visitor there. She was aged 55 years and besides her husband is survived by three children.

# Killed in Daylight Hold-up.

Horton H. Craig was shot and instantly killed by a highwayman last Saturday morning about 10:00 o'clock while acting as guard to paymaster F. M. Brown, who was driving to the Widnoon Coal Co.'s mines near Lawsonham, Clarion county, having in his possession nearly \$4,000 with which to pay off the miners. James Corbet was also a member of the party and was in a buggy with Brown, the victim, Craig, following in another rig a few rods in the rear. As the party was passing over a wooded portion of the road a masked man stepped from concealment and ordered a balt, at the same time firing a shot from his revolver. The two men iumped out of their buggy to the opposite side of the road. The highwaymen then opened fire on Craig, who was approaching, and who returned the fire after the day of August, 1910, at 2:00 o'clock p. m., first shot at him. The bandit then shot at his office on the second floor of the again and disappeared in the woods. again and disappeared in the woods.

Craig fell liteless out of his vehicle, being nia, when and where all parties interestshot through the heart. No adequate ed are required to appear and prove their description of the murderer could be claims or be debarred from coming in given by the men. Bloodhounds were put on the track but without avail. A detail of the State constabulary is scouring the country, but the chances of effecting a capture are not encouraging.

Craig leaves his wife and six children. His residence was near Mahoning, Armstrong county, and he was aged 43 years.

State Forest, Fish and Game Commissioner Whipple, of New York, has issued the following notice to people who go into the Adirondacks for their vacation; it will apply equally to vacationists in the Pennsylvania woods: "I wish that every person going into the forests of this state this summer would have in mind every moment the terrible destruction caused by forest fires in Canada and already reach into the millions this seaforests and destroy thousands of acres of the 24th day of June, 1910. our great preserve. I hope that every visitor to any place of woodland in the state will remember to be as careful about fire as he would be in his own house, and even more so, for a forest fire is easily started and hard to subdue. Let every man, woman and child think of this when in the woods and help us to July 11, 1910.
