—The serious drought of a month was broken in this section by a fine rain last Thursday night. All sorts of crops were greatly benefited but the rain did not continue for a sufficient length of time to help the streams.
—If your liver is sluggish and out of tone, and you feel dull, bilious, constipated, take a dose of Chamberlain's Stomach and Liver Tablets tonight before retiring and you will feel all right in the morning. Sold by Dunn & Fulton.
—In the case of the Forest Gas Co. against J. S. Vail of West Hickory, recently tried before Justice C. A. Randall, involving a horse deal between the parties, a decision was rendered on Monday, the verdict being in favor of the defendant, Mr. Vail.
—Wm. Richards, for many years manager of the Cook Oil Lease at Mayburg, this county, has resigned his position on account of failing health. No successor to Mr. Richards has been named and the owner of the lease, T. D. Collins, will look after the property for the present. Mr. Richards' host of friends will hope that a few months of rest will completely restore him to health.

—The annual reunion of the old 83d Pennsylvania Regiment, which was to have been held in Meadville, has been changed to Gettysburg, Sept. 27th or 28th, on the occasion of the dedication of the state monument. Co. G, of this famous regiment was recruited here by the late Capt. Knox, and there are still a number of the surviving veterans residents of this community.
—The A. Cook Sons Co. have been very busily engaged the past several weeks installing a new mill at the mouth of Mill-creek, where their old mill burned, and it is expected that in a very few weeks at most the new mill will be ready for operation. The mill now being erected was bought from Wm. D. Shields, of Clarion, and is a number one mill. When completed and running it will be first class in every particular.—Clarion Democrat.
—Squire G. K. Tyson, of Big Run, Jefferson county, was presented with a fountain pen by the late Rev. C. C. Rumberger, on his birthday three years ago, and shortly after he received it he was unfortunate enough to lose it. Recently Martin Muth found the pen in the rear of the squire's residence, and returned it to the owner. The latter was agreeably surprised to find on cleaning and attempting to use it that both pen and ink were in as good condition as when lost, the three-year exposure to the elements having no ill effect upon either.
—The jury in the case of Mrs. Emma Strail, charged with the murder of her husband, Harry Strail, of Rousseau, on July 2, 1910, rendered a verdict of acquittal at Franklin on Tuesday last, after being out but two hours. It is evident the jury believed the woman's story that she fired the shot in self-defense that killed her husband. She testified to the events of the day of the murder in a cool and collected manner and betrayed no emotion when she told of the discharge of the revolver. She said she believed when she saw her husband coming toward her that he meant to kill her. Mrs. Strail also testified to her belief that her husband had attempted to poison her a few weeks previous by putting poison in her coffee, and recited other attempts on her life.
—The Butler, Warren and Forest county oil producers who are engaged in the effort to organize a refining company which shall put up the price of crude oil to \$2 a barrel, held a lengthy meeting in Pittsburgh last week and announced that they had succeeded in selecting four of the directors of their proposed company, although they will not be formally elected for some weeks. They announced as directors the names of Homer Elliott, of Wellsville, N. Y.; M. W. Everson, of Pittsburgh; Joseph Schofield, of Warren, and A. N. Sutton, of Steubenville, O., none of whom except Mr. Schofield was present at the meeting. The information was made public that the company is to be called the High Grade Oil Refining company, and that it has a charter obtained in Arizona.
—Irvin F. Mong and John B. Mong, of Ashland township, Clarion county, were business visitors in Tionesta last Wednesday for a few hours. The former gentleman is the Republican nominee for Assembly in his county, and we are pleased to learn, not from him, however, that his chances for overcoming the Democratic lead in that county at the November election are mighty good, and with a united party back of him he will swing the county into the Republican column on the Assembly question. Mr. Mong is very highly spoken of, even by those on the opposite side of the political fence, as a man of good, clean record in every respect, and who would represent his county in the legislature with credit to himself and his constituents. And if he measures up with his brother, John B., who was one of Clarion county's most efficient census enumerators, he's all right, and we can conscientiously recommend him as the right man for the place.
—Tionesta Lodge, No. 309, I. O. O. F., will celebrate its sixty-first anniversary by holding a harvest home basket picnic in the Court House grove, Tionesta, Saturday, Sept. 10, 1910. Elmer E. Craumer, of Pittsburgh, Grand Master of Pennsylvania, has been especially invited to be present, and other good speakers have been secured. In addition to this there will be amusements to suit all tastes, the chief feature of which will be a grand free balloon ascension and parachute leap by Prof. Robert Jewell, of Philadelphia. There will also be a ball game and other events. The I. O. O. F. Band, of Youngsville, Pa., will furnish music all day. Parade at 11 o'clock, picnic at 12. There will be no cakes. The committee does not want your money but desires to show a good time to Odd Fellows and their friends. The committee desires us to state that everybody, whether an Odd Fellow or not, is invited to this picnic. Odd Fellows are urged to meet the secretary at C. M. Arner's office, register and receive a souvenir badge. Baskets will be checked free of cost and cared for until called for on the grounds. Come.
—On August 17th the W. C. T. U. of Nebraska and a number of other guests met by invitation at the home of Mr. and Mrs. Joseph Hinderer, near Newmansville. The occasion being the birthday of Mrs. Hinderer, also of her friend, Mrs. Reed Weaver, many of the neighbors from nearby farms were there to help them celebrate. Both ladies received the hearty congratulations of their friends and also several nice gifts. The picnic dinner was spread on long tables placed in the orchard and fully one hundred enjoyed the elegant repast. After visiting some time and watching a ball game in which the fair sex seemed to be the champions, the party was invited to visit our hosts' other farm, as they are the fortunate possessors of two fine farms situated about one-half mile apart. Here arrangements had been made for some temporary addresses, but as no ready speakers were present, we contented ourselves by singing a few songs and soon all were homeward bound. Mr. Hinderer had provided transportation for quite a number and everyone present was pleased with the outing thus afforded by the kindness of Mr. and Mrs. Hinderer and sons Howard and Wesley.

—Earl Yetter returned to his home in Kane last Saturday from a two years' stay in the oil fields at Coalinga, California, which he reports in a flourishing condition. He lost no time while there, having been idle but four days in twenty-two months, including Sundays and holidays, and 12-hour tours at that. Coalinga has grown in the past five or six years from nothing to a population of 8,000 or more, and has all the elements of the typical eastern oil town of 20 years ago, and then some. It is four years since Earl first landed there, this being his second visit home in the meantime. After a month or two of rest he will return to the land where the thermometer usually shows up for 115 degrees in the shade, and where a tuft of grass would be treasured as a bouquet of rarest beauty. The last well upon which Earl drilled came in as a paying proposition, being a 10,000-barrel spouter.

—Earl Yetter returned to his home in Kane last Saturday from a two years' stay in the oil fields at Coalinga, California, which he reports in a flourishing condition. He lost no time while there, having been idle but four days in twenty-two months, including Sundays and holidays, and 12-hour tours at that. Coalinga has grown in the past five or six years from nothing to a population of 8,000 or more, and has all the elements of the typical eastern oil town of 20 years ago, and then some. It is four years since Earl first landed there, this being his second visit home in the meantime. After a month or two of rest he will return to the land where the thermometer usually shows up for 115 degrees in the shade, and where a tuft of grass would be treasured as a bouquet of rarest beauty. The last well upon which Earl drilled came in as a paying proposition, being a 10,000-barrel spouter.
