The Choicest of New Millinery.

We do not believe you can go into any other millinery show rooms in Venango county and have spread before you so vast a number of head pieces in so wide a variety of styles. We have not confined our showing merely to the whims of the season, but have selected many models because of their general beauty and novelty. Most hats are large, but this needn't discourage the accustomed wearer of a small hat, for where hats are small, crowns are high, giving the effect of largeness.

We show along with the imported models no end of clever conceptions that are the handiwork of our own designers, and being made here, are necessarily much lower in the price.

There is an exquisite showing of new models at \$5, and from this figure the prices raise by gradual stages, \$7.50, \$10, \$12.50, \$15, \$18, \$20 and so on. One thing is certain—you will pay no more here than a hat is actually worth.

The New Trimmings and Laces

Unusual in design and character are the new Trimmings and Garnitures. They are shown in combinations of Pompadour, Persian and Byzantine colorings; also appliques in metal and jeweled effects; Bands in self, pompadour and Oriental colorings; many of them being in medallion and Van Dyke effects. Not to be missed too are the new trimming cloths and nets in silver and gold, or with Persian colorings; embroidered nets in self or Persian colorings. Chiffons in all shades and Persians; Allover Laces in White, Black and all colors.

Do not miss the showing. There's none other like it hereabouts.

The New Fall Showing of Silks.

This season's showing embraces more novelties and a wider range of colors than we have ever carried up to now.

In the forty-four inch Poppins, for instance, there are several dozen shades in plain and brocaded effects, enabling you to procure just the shade you want most.

Plain and Fancy Crepe de Chenes are shown in widths of 24 to 44 inches and are in particularly desirable colors and patterns for scarfs, waists and evening gowns.

CHEER TENER IN TOUR OF TRIUMPH

Thousands Greet Republican Nominee For Governor.

MEETS ISSUES SQUARELY

Frank and Manly Statements Command the Respect and Confidence of the People.

As John Kinley Tener, nominee for governor of the Republican party, continues on his tour of Pennsylvania, meeting the people face to face, grasping them by the hand and looking every man squarely in the eye and not afraid to meet any issue or question that may be raised, he is growing in popularity in every direction. The more the voters see of him the better they like him, and upon every hand he is being commended for the frankness and candor with which he is discussing the needs of the commonwealth, the policies of the Republican party and his personal aims and ambitions to insure an administration that will command the confidence and the admiration of all of the citizens of the state.

Mr. Tener and his colleagues on the Republican ticket, John M. Reynolds, Henry Houck and Charles F. Wright, nominees for lieutenant governor, secretary of internal affairs and state treasurer respectively, are enthusiastic over the receptions that have been accorded them in every county they have visited. Their meetings in the anthracite coal regions were especially well attended and afforded Mr. Tener an opportunity to demonstrate his keen interest in the wage-earners. His experiences as a lad employed in a steel mill in the great Pittsburgh region may in a measure explain his keen interest in the toilers of the state.

In commenting upon Pennsylvania conditions, Mr. Tener a few days ago said:

in many cases where they would not have the right to sue under the laws of many states.

"However it is a regrettable fact that under any system of liability the workmen must engage in long and costly litigation, and that the waste of money by workmen and employers in prosecuting and defending suits of this character would go a long way if paid immediately to the injured workman, to relieve him of his distress.

Pennsylvania Should Lead

"We believe that the commonwealth of Pennsylvania, the greatest of all industrial states should be among the first to put in operation advanced legislation in respect to this subject, and as a measure to that end it will be our purpose to recommend the appointment of a commission of representative workmen and employers, whose duty it shall be to investigate every phase of the question and recommend to the legislature a bill in accordance with the result of their investigation."

SOUND WARNING TO WAGE EARNERS

What Democratic Victory Would Mean to Pennsylvanians.

VAST INTERESTS AT STAKE

Prosperity Under Protection and Dress and Free Soup Houses Under Cleveland Regime.

A boastful and blatant Democracy throughout the country is not only declaring that the next house of congress will be Democratic, but is predicting that the successor to President Taft will be a Democrat.

Late election returns have unquestionably given the Democrats great encouragement, and reports from certain states until recently reliable Republican put the result in November in doubt. Thoughtful men, while dreading the outcome, are at a loss to understand how the great American people could return to a party which has caused so much misfortune and distress, both to the business interests and the wage-earners of the Union.

It has only been within the last few weeks that the citizens of Pennsylvania have apparently begun to realize the serious nature of the situation, and there are evidences upon every hand that the voters of the Keystone State will not be carried away with the tide of heresy and fanaticism that is sweeping over the country.

Warnings are going out in every direction that Pennsylvania must stand firm; that this bulwark of Republicanism must remain unshaken and that every vote must be polled, so that the election returns shall sound a trumpet blast to the world that the sane and sober citizenship of the Keystone State has rallied again around the banner of true Republicanism and protection.

Pennsylvania as the foremost industrial state has more at stake than any other commonwealth, and her vast army of wage-earners, the workers in the mills and the mines, realize the interest each and every one of them has in a continuance of Republican domination of the affairs of the state and the nation.

MARKET REPORT

New York Provision Market.

New York, Oct. 3.

EGGS—State, selected white, 32¢@33c.

POTATOES—White, choice to fancy per bu., 50¢@55c.

Protecting Wage-Earners.

"The Republican party of Pennsylvania has to its credit a long history of legislation for the benefit of the people and the honor of the commonwealth.

"Their laws have been enacted for the protection of the working people, most of which were placed upon the statute books at the request and with the advice of the organized workmen. Of this record we are justly proud, and we point to our action in the past as a guarantee of our intentions in the future. We recognize the fact that the development of our industries has brought with it new problems, new dangers, and altogether complex conditions that demand and deserve consideration and treatment by the law making and law administering powers of our commonwealth.

For Safety Appliances.

"Among the many subjects affecting the wage-earners which it will be our duty to consider in the future none is more important than the enactment of laws for the protection of the life, health and safety of the men and women who are engaged in industrial pursuits. The first requisite of a progressive community must be the safety and security of these people who are least able to protect themselves, and the prevention of industrial accidents is a problem that must appeal to all patriotic citizens of the commonwealth.

"In connection with this question, mine and factory inspection has been developed steadily in the state of Pennsylvania, and many laws have been enacted requiring employers to safeguard the lives and the health of the wage-earners. Further legislation upon this subject will be enacted just as fast as experience points out the necessity thereof.

Responsibility of Employer.

"Closely related to the subject of industrial accidents and their prevention is the question of compensating workmen for losses by such accidents. The Republican party of Pennsylvania is responsible for the enactment of an employers' liability law the provisions of which afford to workmen the opportunity of securing damages

abroad in every state. They are preaching Democracy and disseminating false and misleading doctrines, and especially are they holding out false hopes to the workmen, upon whom they count to swing the elections in every debatable district. To the Democratic politicians they are holding out promises of postmaster ships and other federal patronage.

They make no mention of the sorrows and sadness that followed the last national Democratic triumph in this country. They do not tell of the popular distress and the destruction of manufacturing, commercial and all other lines of business brought about through the enactment of the Democratic tariff bill.

They show no pictures of the free soup houses that had to be established by charitable individuals and, in some cases, by municipalities where thousands of men, women and children were out of employment for many months, many of them in a starving condition, children without shoes or clothing, and families evicted for non-payment of rent.

Pennsylvania voters will be called upon at the coming election to send men to congress who will stand by the Taft administration and resist every effort to change or amend the tariff especially those provisions inserted to protect Pennsylvania capital and Pennsylvania wage-earners.

Elect Republicans to Congress

Pennsylvania must elect Republican congressmen to block the schemes of the Democrats, who will without doubt be sent from many doubtful districts in other states.

Pennsylvania must, by the size of her Republican majority for John K. Tener, nominee for governor, and his colleagues on the Republican state ticket, emphasize the reality of this state to the cause of Republicanism and the loyalty of the Republicans of the state to the national administration.

Should the Democrats be successful in November in electing a majority of the members of the next national house of representatives, a disastrous period of two years to the mercantile and manufacturing interests would inevitably ensue, and if this period be followed by the election of a Democratic president a calamity would befall the country far greater than was experienced following the last Democratic presidential victory.

Warnings now going out to wage-earners from the most intelligent of the men affiliated with labor organizations point out that now is the time to avert the disaster.

Business men, appreciating the commercial and industrial heights this country has reached during the last twelve years, and the scope and magnitude of our foreign trade, demand that Pennsylvania shall remain steadfast to the cause of Republicanism for their own protection and the safety and salvation of the millions of citizens of this prosperous commonwealth.

Pennsylvania, the Gibraltar of national Republicanism, it is predicted, will roll up a tremendous Republican majority on Nov. 8 and will send practically a solid Republican delegation to congress.
