-Mrs. Gertrude Dunn Shamburg, in her fiftieth year, wife of B. Frank Shamburg, died at the family home in Titusville Saturday morning, after an extended illness of cancer. The husband, who is well known to many of our readers, will have the heartfelt sympathy of a host of friends in this great bereavement.

-J. R. Squire, whose farm adjoins the County Home farm on the south, brought in a raddish the other day that has them all skinned a mile, we should say. The nonster measured 26 inches in length by 13 inches around the waist at the bulge, and if any gardner can beat that, or even

tie it, we'd be pleased to see the fruit. -A friend writes us from Buckley, Pierce county, Wash., that Mr. Orion E. Friends of the young couple in the community which was their former home send joyous greetings upon this happy occasion.

-Owing to the continued illness of Mr. Sibley at his home in Franklin, Judge Criswell has granted a further postponement of the audit of the campaign expense accounts until the second Monday of May next. -Last Wednesday while Mr. and Mrs. J. A. Small of Nebraska were driving to Tionesta, Mrs. Small had the misfortune to lose her handbag somewhere on the way. It is a new one, of black leather, having a gold band, and containing a one and a ten dollar bill. A letter bearing Mr. Small's name was also in the bag. Mrs. Small hopes that it has fallen into the hands of some honest person who will return it, either to this office, or to the owner in person.

-The Forest Barge company, with J. A. Lawrence and A. W. Stroup as pilots, started two fleets of four barges each for the lower market Monday morning. This cleans up the company's output of forty barges this season. The Nebraska company started a number of barges Saturday, but the low stage of water in the creek and the high winds were almost too much for the unwieldy craft, but by dint of hard scrabbling Manager Lew Cook and crew landed 12 barges and 4 flats at the river bridge, which have since started Pittsburgward. Six more barges are grounded in the creek, but it is thought they will come off with a pondflood behind them.

-DuBois has been given the distinction of having been selected by the board of trustees of the postal savings bank system as the one town in Pennsylvania in which a savings bank is to be located. One bank will be established in each state and territory. Owing to the smallness of the appropriation for the first year, \$100,000, it has been impossible to establish banks during the first year in the large cities. It is not likely that banks will be established in Pittsburg until after the beginning of the next fiscal year, July 1, 1911. Most of the cities selected are industrial centers where, according to the trustees, wage earners will be especially benefited. -On Saturday, October 29th, not being

wise of what might be going on, Miss Edna Cropp, of Cropp Hill, went to Tionesta to receive her instructions in music from her able teacher, Miss Edith Hopkins, and in her absence eleven of her girl friends gathered at her home, it being her fourteenth birthday. When she arrived home and entered the sitting room she was surprised to find them all sitting there with broad grins on their faces. It being the noon hour, Edna took her seat at the piano and played a few fine selections, while her mother and friend, Mrs. Wm. Wolcott, prepared a lunch, of which all partook to their satisfaction. After lunch they all repaired to the sitting room again and played interesting games until later in the day. Before departing they all gave her a little gift and departed wishing her many more Tionesta Boro; ten rooms and bath; lot such birthdays. -Tionesta celebrated Hallowe'en in fine style Monday night. The town was out en masse, and fully four-fitths were in costume and masque. Marshal Eden, with Geo, Henshaw's drum corps headed a procession numbering about 200 and marched through Eim street to Haslet's corner and back to the starting point, where ranks were broken and the evening was given up to all sorts of hilarity and fun-making. It would be hard to find a jollier crowd, free from any kind of roughness or coarseness, but all having the best time imaginable and every minute of the time. One of the pleasing features of the evening was provided by the Ladies Aid society of the Presbyterian church in the form of a lunch and market in the church dining room, which was well patronized by the merry makers. home in genuine Hallowe'en style, a large number of her friends, in costume, partaking of her hospitality. The Last Supper.

The lesson for next Sunday, Nov. 6th, 1910, is one of the most important in this series. It is a memorial. The culmination of Jesus' three years' course of instruction and training. It requires careful study and thought. The pupil or teacher in preparing this lesson should not only carefully study the lesson text as found in Matt. 26:17-30, but also read, study and carefully compare this text with Mark 14:12 31, Luke 22:7-38, and the 13th, 14th, 15th, 16th and 17th chapters of John, and read 1st Cor. 11:23-26. Neither one of the gospels gives a full account of this very important event and hence the necessity of reading and studying the above references. The lesson of humility taught by Jesus on that occasion in washing his disciples' feet is given by John only. Between yerses 29 and 30 of the lesson text comes Matt. 26:31-35, Mark 14:27-31, Luke 22:31-38, John 13:36-38, and also all of chapters 14, 15, 16 and 17, of John, After Jesus told his disciples in the 20th verse, "I will not drink henceforth of this fruit of the vine until that day when I drink it new with you in my father's kingdom," the facts recorded In the last references took place, the last being the farewell prayer of Jesus as reorded in the 17th chapter of John. Then
"They sang a hymn and went out into
the Mount of Olives." If the Bible student would, in reading the foregoing references, have a tablet and pencil and make a note as he reads of the important facts and where they are recorded, it would aid greatly to remember the less

Miss Bean, of Warren, made her usual trip to our village and found her pupils in readiness to play the lessons given the week before. This shows that they had been practicing during her absence. The heavy fall of snow on Thursday

night made our country look like winter and everybody was looking for heavier clothing. Mrs. L. H. Brennan, of Minister, spent

Sunday with her mother at Kellettville, returning on Monday. Richard Stover, of Kellettville, spent

Sunday with the Stover family at Minister and will spend a few days in the woods next week. Several of our fellows have been hunt-

ing lately, but not much game has been brought in. It looks as if there was little game left in these parts. The children of the village called on

Miss Elinor Blum on Saturday evening and gave her a pleasant surprise, as it was her birthday. They took with them candy and birthday post cards and spent the Court House, in Tionesta Borough, a very enjoyable evening.

Fire Losses in Western Timber.

A rough estimate of the fire loss upon the National Forests in Montana and northern Idaho, upon which the Forest officers of the U. S. Department of Agri- 3158. culture have been engaged since the fires were put out, puts the total amount of 3151 timber killed or destroyed in this one district at over 6 billion board feet, while the area burned over is put at over 11 million acres. The heaviest losses were 5191 in two Idaho Forests, the Coeurd'Alene, where over 3 billion board feet of timber are reported killed or destroyed and over | 3173 450 thousand acres burned over, and the 3801 Clearwater, where I billion feet of timber acres burned over. On the Helena National Forest, in Montana, the loss in timber is believed to have been 500 million feet, on the Cabinet Forest 400 million, and on the Loio Forest 300 million. It is believed that last summer's fires either burned up or killed between one and two per cent of the total stand of National Forest timber. At the present 5184 rate of cutting from the National Forests. 6 billion feet is equal to 12 years' supply: but it is less than one-sixth of a single year's cut in the entire country, or enough to keep all our lumber mills busy for something under two months,
