—Upon going into the kitchen one morning I saw a newspaper lying on the floor in front of the oven. Starting to pick it up, my maid said, "That is to remind me that I have something in the oven." This idea has proven very helpful to me, especially when I am baking and have other duties to attend to.—Woman's Home Companion.
—A halt has been called on prize-fighting in Titusville since the knockout of a couple of the Queen City lightweights in a "boxing bout" one night last week. One of the pugilists was put to sleep by his opponent, and before he could be "brought to" most of the high-toned audience had left the ring-side without waiting to see whether the blow should result in a tragedy. Prize-fighting by any other name is not a whit more respectable.
—What will be known as the Cereta (Help) Club was organized Wednesday, January 18th, at the home of Mrs. Albert Childs. The club, which will contain not more than twenty members, will be devoted to fancy work and will meet twice a month at the homes of its members. The following officers were elected: President, Mrs. Linus Shriver; vice president, Miss Mary Everett; secretary, Mrs. Albert Childs; treasurer, Mrs. Ralph Henry.
—George Swab, of Hunter Station, has purchased the Andrew McCray farm, adjoining his own, the sale having been closed Monday and the papers transferred. The farm was owned by Seiden McCray and his sister, Mrs. Henry Armburger. Seiden will leave in a few days for southern California, where he will be employed in the oil fields in pipe line work for the Standard. Mrs. Armburger goes to Woodlawn, Beaver county, Pa., where Mr. Armburger has been employed during the past year, and where the family will reside.
—Many business men get slack after the rush of the holiday season is over and do not attempt to push trade. They do not advertise, are indifferent to the appearance of their stores, and in other ways show that they are negligent, all of which is a great mistake. The wise merchant, of course, does not make that mistake. On the contrary he pushes things. By attractive, persistent advertising, and by keeping up his stock of goods he pushes things, has a steady business and reaps the advantage of his enterprise and good judgment.
—Information was made yesterday by George M. Pelton, state pure food inspector, before Justice Perry against a wholesale and one retail dealer in this city, who are charged in the information with having for sale Brazil nuts which were unwholesome and unfit for food. This is the first case in this section of the state brought against dealers for selling unwholesome nuts. The date of the hearing has been set for Thursday, before Justice Perry. If a decision is given against the dealers, the cases will probably be appealed to the higher court.—Warren Times.
—Drink water, says an exchange, and get typhoid fever. Drink milk and get tuberculosis. Drink soup and get fat. Drink whiskey and get jim jams. Eat meat and encourage cancer, apoplexy and appendicitis. Eat oysters and absorb typhoid gastric poison germs. Eat vegetables and give the system Asiatic thin blooded weakness. Eat dessert and die with paralysis or something else. Smoke cigarettes and die too soon. Drink coffee and fall into insomnia and nervous prostration. Drink tea and get a weak heart. Drink wine and get the gout. You can take your choice.
—A Franklin grocer, was tried on Wednesday for a violation of the pure food laws, and the court made a decision that will be of interest to all dealers who rely on certificates printed on labels for protection. He was accused of having sold cherries that had been treated with sulphuric acid and chemical tests made showed the cherries contained such stuff. The grocer put in a defense that he was not responsible and could not be fined as the package contains a label guaranteeing the goods pure as required by law. However, the court held that as these labels were not signed by hand and were printed or stamped, they were not worthy of attention. The jury after being out a short time brought in a verdict of guilty.
—The Sheffield Observer gives this account of the burning to death of an aged lady near that place: The residence of Mrs. Sarah L. Johnson, near the F. M. Church of Saybrook, was burned Tuesday afternoon about five o'clock, and the aged lady perished in the flames. Mrs. Johnson, who was aged seventy nine years, four months and fifteen days, and whose husband died about eight years ago, refused to leave the old home and reside with her daughter, Mrs. August Young, of this place. For some time she has been in poor health, and Mrs. Young and a neighbor woman had been with her Tuesday, leaving the house about four o'clock, but the daughter expected to return for the night. How the fire originated will never be known, and when discovered it had gained such headway that nothing could be done to save the building or the old lady. The remains were taken from the ruins and after being prepared for burial were taken to the home of the daughter, Mrs. Young, where the funeral services were held today, and burial was in the Sheffield cemetery.

Private Sale of Farm Machinery, Livestock, Etc.
S. L. Keighley, who, two years ago acquired and has occupied the Peter Young farm, in Green township, has determined to make a change and will shortly remove to the city. This means that he will dispose of all farm machinery and implements, most of his household effects and utensils, a large amount of livestock, such as horses, cows, hogs and chickens, at a great sacrifice—"almost at your own price," as the saying is. He prefers to do this at private sale, rather than at public auction, and he invites any who have in mind the purchase of anything in the line mentioned to call at his premises and see what bargains he has to offer. Remember that all machinery, tools, etc., are yet practically new, but nothing like "new" prices will be expected. Here is a rare opportunity for those in need of anything in this line. Remember the place, known as the Peter Young farm, about two miles from Nebraska.

Railroad Extension News.
A goodly number of our citizens gathered at the court house Tuesday evening to hear the report of Messrs. F. R. Lanson, R. M. Herman and S. S. Sigworth, the committee appointed to ascertain the cost of the right of way for the proposed extension of Mr. T. D. Collins' railroad from Nebraska to Tionesta. After carefully going over all the ground with expert railroad men, the committee reported that the approximate cost of the right of way from the Green township line to the lower end of the brick pavement would be \$1,500. From this point to the ball ground, via the Back Channel route, the approximate cost of the right of way and grading would be \$1,500, making \$3,000 which it would be necessary to raise, as it is proposed to offer this route graded and ready for the ties to Mr. Collins, in lieu of the route proposed by him up Elm street and down Bridge street. A letter from the Tionesta Borough Council defining their attitude in the matter was read and the consensus of opinion of all present was that the attitude of the Council was eminently right and fair, considering all the circumstances. The report was received with a vote of thanks but the committee was not discharged. There was the best of feeling all around and the meeting adjourned to meet at the call of the Board of Trade. Mr. Collins being in California for two weeks, the matter will rest until his return. Now boost, and we'll get our railroad. The letter from the Council follows:
To the Tionesta Borough Board of Trade: GENTLEMEN:—The committee on some misapprehension among some of the citizens of the Borough as to the attitude of the Borough Council toward the proposition of Mr. Collins to build his railroad to Tionesta. We therefore wish to define our position.
The Borough has expended a large sum of money and assumed a considerable burden of debt to secure the paving and beautifying of Elm and Bridge streets and the Council does not feel inclined to grant a franchise for the laying of tracks on these streets except as a last resort. The Council is of the opinion that the interests of Mr. Collins and of the Borough will be best promoted by the adoption of the Back Channel route and that every effort should be made to secure the adoption of this route. If, after thorough investigation, it should prove impracticable to find a suitable right-of-way along the banks of the Back Channel and the river, then the Council will consider the grant of a franchise for laying tracks on the paved streets under such restrictions as will protect the interests of the Borough in the future.
The Council does not desire to place any obstacle in the way of the acceptance of the proposition of Mr. Collins, but, on the other hand, will furnish all the assistance in its power to bring the matter to an issue satisfactory to the citizens of the Borough. At the same time, the members of the Council feel that it is their duty to protect the interests of the Borough and to refrain from entering into any engagements which might, in the future, be detrimental to its citizens.

Basket Ball at Clarington.
A large crowd turned out Friday evening to witness the basket ball game, in which the local team trounced the strong Brookville High School five to the tune of 36 to 16. Although one-sided the game was fast and exciting from start to finish. The locals set the pace from the sound of the whistle and the boys from Brookville were never in the running, the locals scoring nine points before the visitors could locate the basket. The first half ended 13-6 in favor of the home team. The game was cleanly played throughout, being devoid of all roughness. The work of Capt. Burnham at forward, the guarding of the locals, and the team work of the visitors, although beaten, were the features of the contest. The score:
Clarington 36. Brookville 16
Burnham F. T. Agnew
Hewley-Crossman F. Plyler
K. Henderson C. W. Agnew
Braden C. M. Agnew
Hoy G. Evans-Brennemann
Field goals—Burnham 10, Braden 2, Crossman 1, T. Agnew 2, Plyler 2, Brennemann 2, W. Agnew 1. Foul goals—Burnham 10, Brennemann 2. Time of halves, 15 minutes. Referee, Wilber Henderson.
