Mr. Sibley's Trial Postponed.

A dispatch from Warren under date of 20th inst., says: The trial of former Congressman J. C. Sibley, of Franklin; his secretary, Frank H. Taylor, of Oil City; Charles D. Crandall, David M. Howard and George B. Munn, Mr. Sibley's Warren county managers in his campaign for nomination to Congress from the Twenty-eighth Pennsylvania district, who are charged with violating the primary election laws at the primaries last June and which was to have begun on Monday, March 6, was today put over to the June term of Quarter Sessions court by Judge Hinckley upon application of the attorneys for the defendants. The attorneys presented physicians' certificates setting forth that Mr. Sibley's physical and mental condition was such that he could not at this time come to Warren and undergo the ordeal of the trial without endangering his life. The court granted the petition and then the other defendants made a request for a postponement of their trials on the ground that they could not go to trial without the presence of Mr. Sibley, who is to be a material witness for each of them.

Whig Hill.

The people of this vicinity are beginning to come out of their dens, as the sleet and snow had them quarantined in, but the late snows and thaws have been a great improvement on the roads. We hope for better weather.

John Gould and wife, who have been away for a week's visit in the lower part of Clarion county, arrived home Sunday. They report a good time. A little visit and a week's rest is a great preservative sometimes for the body as well as the soul.

Some days ago our friend Charles Clark, of Tionesta, was over the hill talking and selling machinery. Mr. Clark is a hustler and will make a success, as several parties will buy of him.

A machine agent from the lower country was through here selling manure spreaders by the car load and lots of fertilizer by the sack. Twelve machines come in a car. He sold a whole car load, lacking eleven machines. We understand a good thing goes like hot cakes.

UNCLE SAM assisted the first railroads across the continent and got his money back, with interest. Now these roads are talking of double tracks out of their own resources. There need be no fear that the Panama Canal will not pay its way. And it should be fortified to the fullest extent, too.

AS PRESIDENT TAFT is anxious to keep the expenditures within the revenues, and the Sulloway pension bill would add \$45,000,000 to the annual budget, it is thought he will feel impelled to veto it, just as Governor Stuart felt it to be his duty to veto the Cochran bill two years ago. It is certainly not showing any strong symptoms of a self-sacrifice that resembles martyrdom on the part of Congress to take credit from the old soldiers for passing a bill that the President will be damned for vetoing. We have a sort of hunch that, if the Senate agrees to the bill, the President will sign it.

TOWERMAN INSANE ON DUTY

Wild Manipulation of Signals Endangers Train Service.

Philadelphia, Feb. 21.—For two hours early yesterday trains of the Baltimore Central and the West Chester branches of the Pennsylvania railroad were at the mercy of an insane tower operator at the junction of these lines at Wawa.

While manipulating signal lights, William Murlinger, the towerman, suddenly lost his reason, and nearly sent half a dozen trains crashing into each other in the darkness. He did stop two trains so suddenly that the passengers thought they were the victims of a "hold-up."

When the towerman sprang upon one of the flagged locomotives wild-eyed, yelling and cursing, the engineer realized that Murlinger, who is of powerful physique, was insane. The engineer called to the crew of the other train, and the towerman was subdued.

At the grip of fingers about his throat Murlinger collapsed like a child. It was thought that his reason had returned, but once in his home at West Chester, to which he returned obediently and in a sort of stupor, he again became frenzied.

Brandishing a loaded revolver, he drove his wife and her father and mother, who had been awakened by his unexpected return, into the street in their night clothes.

"Coe" Cook, a machinist of this place, has given his friends an agreeable surprise by showing them a steel auto tire which he has invented. He has been working at this for some time, but never let it be known until he found it to be a success. He finds it to be easy running, and experts think it surpasses the rubber tire. NEW MEMBER IN TROUBLE. Doorkeeper of House Thought He Was In Wrong and Was About to Eject Him.

Washington, Feb. 21.—Representative-elect William LaFollette of Washington is giving the doorkeepers of the house a great deal of trouble. Mr. LaFollette arrived in Washington about a week ago and immediately sought the floor of the house where he will perform in the next session.

Last Friday one of the house employees discovered a stranger, clean shaven, saving for a neat black moustache, occupying a seat in the chamber. He was about to throw the stranger out when the latter produced his credentials as William LaFollette member-elect from Washington.

Yesterday Mr. LaFollette appeared at the main door and tried to get in. He was stopped and again had to prove that he had a right to the floor.

"Mr. LaFollette," said the pestered doorkeeper, "how many times are you going to do this?"

"I'm all through," replied the member-elect. I find that whiskers are considered unsanitary in Washington."

PRESIDENT WINS HIS FIGHT. House Inserts a \$3,000,000 Appropriation in Sundry Civil Bill to Fortify Panama Canal.

Washington, Feb. 21.—President Taft has practically won his fight in the house for the fortification of the Panama canal. On this proposition he has routed Representative Tawney of Minnesota and the other watchdogs of the treasury who insisted that it would be useless to expend money for fortification when neutralization of the property would serve just as well.

The sundry civil bill now pending in the house committee on appropriations will soon be reported to the house.

It will contain a provision appropriating \$3,000,000 to begin work on fortifications at Panama. The fortifications when completed, according to official estimates, will cost approximately \$11,000,000.

No doubt is expected that the house will endorse the canal provision in the sundry civil bill.

Playing It Down Low. "I haven't much use for Bill Hershley," said the crowd.
