—A vacuum horse cleaner is the latest. Where heretofore the hostler had to scrub the horse's back vigorously with comb and brush, he need now only pass the implement lightly over the animal, the suction raising the coat and extracting loose hairs and dirt much more effectively and expeditiously than it could ever be done by the old method. This cleaner also saves the man from much hard work and the horse from much hard scraping.
—The meetings in the Methodist Episcopal Church will continue each evening this week. Mrs. Crawford will speak on this (Wednesday) evening from the text Robert G. Ingersoll believed in. On Sunday evening the subject will be "The White Life for Two." Other subjects which she will use are, "Excuses," "Hell and Who is Going There," "Heaven and How to Get There." A cordial invitation is extended to all to attend these services.
—The farmers' institute held here Wednesday and Thursday last week was well attended at all sessions, the evening sessions being especially well patronized. In point of attendance the occasion was perhaps the most successful of the many that have preceded it. The lecturers and instructors furnished by the state agricultural department kept their audiences well entertained, and imparted much knowledge that will doubtless bear fruit in the coming seasons. The music, which was especially good, was furnished by the Shriver and Blocher schools of Tionesta township, the members of the chorus being as follows: Olive Wolf, Wm. Wolf, Ella Daum, Floy and George Zuck, Tula Mealy, and Archie, Russel, Melvin, Mary and Hallie Wolf.
—From the Galveston (Texas) Daily News of February 22d we take the following, which shows that our friend Hart Lawrence is making good in the sunny south, and which will be good news to a host of friends here: "The newly elected directors of the Texas City Refining Company, which operates the oil refinery at Texas City, met in the office of Mott & Armstrong Monday for the purpose of electing officers for the ensuing year. The following officers were re-elected: L. A. Kelsey, North Tonawanda, N. Y., president; W. F. Hammett, Tulsa, Ok., first vice president; J. P. Phillips, Casey, Ill., second vice president; C. H. Lawrence, Texas City, treasurer; W. T. Armstrong, Galveston, secretary and attorney. Mr. Hammett is manager of the plant, and Mr. Phillips assistant manager."
—Now and then you may hear discussions upon the new school code that is before the legislature, and the opinion seems to be general, that while some features of the new code might be all right, yet as a whole the code should meet with defeat at the hands of our legislators. It is with this bill as with many others, it takes local government from the people and centers it in the state. Our public schools should be "of the people, for the people, and by the people." The people can be trusted. One particularly vicious feature of the bill is the provision changing the method of distributing the school appropriation, which would rob the country districts of their equitable share of the appropriation and give it to the large cities and centers of population. We recall that after weeks of persistent effort in the session of 1897 the country members were successful in passing a bill providing the present method of distribution, and Forest county's share jumped from \$8,000 to \$12,000. If the present code is enacted our county is very likely to drop back to \$8,000. All of the country counties would be similarly affected.
Notice.
The Prohibitionists of Forest County will meet at the Court House, on Saturday, March 11, 1911, at 1 p. m., for the purpose of nominating county officers for the primary of June 3, 1911.

A true bill was returned in the case of the Commonwealth vs. Albert Bardick, charged with felonious rape, etc., on oath of Bertha By, and the case went to trial Tuesday afternoon. It is yet in progress as we go to press.
Letter From a Former Tionestan.
The following characteristic letter from our old friend and former townsman, John Muenzenberger, will interest a whole lot of our readers:
MY DEAR OLD FRIENDS:—Well, when I get your paper and sit down to read it, the first thing I bump up against is that innocent little query, "Is your subscription paid?" I often wonder if that little line is in all the papers you send out, or just in the copy you send me? At any rate it has made me sit up and take notice, so you will find a money order here-with enclosed for \$2.00. I am pleased to say we are all well and happy, and I hope you are also. We have had a very mild winter here. This has been a very warm month—only one snow storm. Not good weather for the coal business. It is a little dull in all lines just now, but it will soon be better.
Now, a few words about Chicago Heights. It is located on the Chicago & Eastern Illinois railroad, 27 miles south of Chicago. The town was founded in 1852, with a few hundred people, and now has a population of 20,000, with something like 80 active factories. These industries provide work for all the local population besides many from other towns. We have improved streets, water works, gas works, electric light and power plant. We have excellent schools and many churches, three banks, two newspapers. I should say in all about fifteen churches, six large school buildings, and we have also 112 saloons. And here is a puzzle I can't solve; why they don't have more saloons and fewer churches and schools? Can you work it out?
I noticed an error in the item regarding the gas accident in T. T. Moll's house at Russell. Mr. Moll is my wife's brother. Her father died a year ago last June. With kind regards to all old friends,
Yours very truly,
JOHN MUENZENBERGER,
Chicago Heights, Ill., Feb. 27, 1911.
The P. R. R. will spend \$25,000 to install its private water plant in Olean. Four or five wells will be drilled near the company's shops.

Pleasantville Defeated at Basket Ball.
The basket ball team representing the Union Church Athletic Association defeated the Pleasantville team in a fast game at the gymnasium here last Friday night. The visitors were outclassed and outplayed from the start, the score at the end of the first half standing 19 to 3, and at the end of the game 64 to 13. Thayer did the best work for his team, while every member of the home team played a star game in the position assigned him. To prove that the game was a fast one and full of action, especially in the second half, it is only necessary to state that thirty goals were made by the teams in twenty minutes, or at the rate of one and a half per minute. A large audience witnessed the game and seemed to enjoy every minute of it. The association cleared a nice sum over expenses and will arrange for other games in the near future. Following is the line-up:
Pleasantville.—13 Tionesta.—64
Thayer.....RF.....Joe Weaver
Rooker.....LF.....Ed Lawrence
Chapin.....C.....Phil Blum
Robinson.....RG.....Chas. Flick
Weaver.....LG.....Don Campbell
Substitution—Harry Craig for Blum in second half. Field goals—Joe Weaver 7, Lawrence 10, Blum 1, Craig 7, Flick 6, Thayer 2, Rooker 1, Robinson 1. Foul goals—Joe Weaver 2 out of 4, Thayer 5 out of 10, Chapin 6 out of 2. Rebounds—R. J. Hopkins, Umpire—D. H. Blum. Score—Jeff Henry, Timekeeper—Wm. O. Atwell. Time, two 20 minute halves.
The Franklin High School will send up a team next Friday night, March 3d, to try conclusions with our team and a good game is expected, as Franklin high has a fine record of games won this season. In order that the game may not interfere with the special services in the M. E. church and also to allow the visitors to go home on the night train, the game will begin promptly at 6:30. Come and see the fun. Admission, adults, 25 cents; children under 15 years, 15 cents.

We understand the Greenwood Oil and Gas Co. have sold their gas by contract to the United Natural Gas Co., and a pipeline will be laid at once. They have five producing wells in Barnett township, and intend to continue drilling.
The well drilled on the W. P. Fitzgerald farm by the Forest Gas Co. proved a "duster" after drilling twenty-six hundred feet. We trust they will have better luck in their next venture.
A Cook's Sons Co. took advantage of the last snow by getting their logs on Coleman to the mill.
The gas line from up near the wells the fore part of the week, and though the men worked hard on the line they were unable to get it thawed out until Thursday evening. Owing to the scarcity of gas our school was closed two days.
